We acknowledge receipt of your submission dated January 13, 2003.

This supplemental new drug application provides for a new isotonic formulation of Brevibloc Injection 10 mg/mL in 10 mL vials. The commitment was as follows:

> Baxter PPI makes a post-approval commitment to reevaluate the subject formulation to either eliminate or significantly reduce overage of esmolol HCl added in the formulation, and submit it as a supplement. The detailed plans of action will be submitted by August 2001 for the Brevibloc Premixed Injection and by February 2002 for the Brevibloc Concentrate. At the time you submit your plans, please include a date that the supplement(s) will be submitted.
