1 standard.

2 BY MS. CARSON:

3 Q. Would you agree that an operation like
4 read a file could be suspicious in some context and
5 not suspicious in other context?

6 MR. KASTENS: Objection. Form.

7 THE WITNESS: I would probably
8 state it a little differently. That reading or
9 writing a file would be suspicious, but there would
10 be some cases in which it was malicious and in some
11 cases in which it was benign.

12 BY MS. CARSON:

13 Q. Can you think of any computer
14 operations that would never be considered
15 suspicious?

16 MR. KASTENS: Objection. Form.

17 THE WITNESS: (Pause). I'm also
18 cautious of the word "never," but there are
19 definitely some that -- that would be very, very low
20 likelihood of being suspicious.

21 So like today maybe something like
22 checking a digital certificate of a website would
