

I, Chandra Nagarajan, declare as follows:

1. I have personal knowledge of the facts set forth in this declaration, and I could and would testify competently thereto if called upon to do so.
2. I am a Senior Director in the Security Business Group of Juniper Networks, Inc. I am responsible for the engineering delivery of various products, including Sky ATP.
3. Only a subset of SRX platforms support Sky ATP. For example, when Sky ATP first launched, it was only supported by the SRX1500 platform. Since then, Juniper has added support for Sky ATP to the following SRX platforms, as reflected in JNPR-FNJN\_29006\_00162263:

Platform	Approximate Date
SRX5400, SRX5600, and SRX5800	June 2016
SRX340, SRX345, SRX550M, and vSRX	September 2016
SRX 4100 and SRX4200 <sup>1</sup>	October 2016
SRX 4600	July 2018
SRX300 and SRX320	October 2018

4. The other SRX platforms—namely SRX100, SRX110, SRX210, SRX220, SRX240, SRX550, SRX650, SRX1400, SRX3400, SRX3600—are not currently and have never been supported by Sky ATP.

5. The SRX platforms that supported Sky ATP [REDACTED]

6. If an SRX platform that is not supported by Sky ATP attempted to connect to Sky ATP, [REDACTED]

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct. Executed November 19, 2018 at Bangalore, India.
