1 **NOTICE OF MOTION AND MOTION**

2 TO ALL PARTIES AND THEIR ATTORNEYS OF RECORD:

3 NOTICE IS HEREBY GIVEN that on May 9, 2019, at 8:00 a.m., or as soon thereafter as
4 counsel may be heard by the Honorable William Alsup in Courtroom 12, 19th Floor, located at 450
5 Golden Gate Avenue, San Francisco, California 94102, Plaintiff Finjan, Inc. (“Finjan”) will and hereby
6 does move the Court for an order granting its motion for relief from judgment pursuant to Federal Rule
7 of Procedure 60(b). This Motion is based on this Notice of Motion, the Memorandum of Points and
8 Authorities, the trial record, the pleadings and papers on file, and any evidence and argument presented
9 to the Court.

10 **RELIEF REQUESTED**

11 Pursuant to Federal Rule of Civil Procedure 60(b)(2)-(3), Finjan moves for relief from the jury
12 verdict entered in this action on December 14, 2018 and this Court’s subsequent denial of Finjan’s
13 Motion for Judgment as a Matter of Law on March 11, 2019 (Dkt. Nos. 333, 387, respectively), due to
14 Juniper’s concealment of key evidence that proved that Sky ATP had a “database” as recited in Claim
15 10 of U.S. Patent No. 8,677,494 (“the ‘494 Patent”), which was the pivotal issue at the December 2018
16 trial. Juniper had no reasonable grounds to delay production of such information. Given this newly
17 discovered evidence and Juniper’s discovery misconduct, a new trial should be ordered.

1 **MEMORANDUM OF POINTS AND AUTHORITIES**

2 **I. INTRODUCTION**

3 Finjan is entitled to relief from the jury verdict found on December 14, 2018 (Dkt. No. 333,
4 “Verdict”) and this Court’s subsequent order denying Finjan’s Motion for Judgment as a Matter of
5 Law on March 11, 2019 (Dkt. No. 387, “Order”) because Juniper concealed key evidence during
6 discovery that proved that Sky ATP had a “database” as recited in Claim 10 of U.S. Patent No.
7 8,677,494 (“the ‘494 Patent”), which was the pivotal issue to be determined at the December 2018 trial
8 (“the December trial”). Juniper’s concealment prevented both the Court and the jury from evaluating
9 this key evidence of how and where Sky ATP satisfies the “database” element of Claim 10.

10 Specifically, Juniper withheld key, highly relevant and directly responsive technical documents
11 regarding Joe Sandbox [REDACTED] that
12 demonstrated that Joe Sandbox in Sky ATP uses a “database” to store the results of its analysis, as
13 recited in Claim 10 of the ‘494 Patent. These documents directly refuted Juniper’s only non-
14 infringement defense at the December trial and yet, Juniper has no explanation for why it produced
15 these Joe Sandbox documents nearly two months *after* the December 2018 trial, knowing that such
16 documents were critically important to the infringement case presented in the December 2018 trial.

17 Particularly troubling is the fact that Juniper has no excuse for its belated production, as Finjan
18 sought this information over a year ago in discovery. In response to written discovery requests,
19 Juniper explicitly represented in 2018 that it had completed its production of any documents relevant
20 to Sky ATP, which is demonstrably false based on Juniper’s February 2019 production. Moreover,
21 Juniper’s Sky ATP engineers testified at deposition that [REDACTED]
22 [REDACTED].

23 Juniper’s inexcusable belated production of these key documents is precisely the type of newly
24 discovered evidence contemplated by Rule 60, which warrants relief from judgment and an order for a
25 new trial. Without this evidence, Finjan was severely prejudiced at trial, as this key evidence
26 undermined Juniper’s sole non-infringement defense. Such conduct should not be tolerated.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
