Finjan v. Juniper

 **Icasiano, Alexander (Vol. 01) - 11/30/2018**

1 CLIP (RUNNING 00:09:22.170)

 Plaintiff's Deposition Designations for Alexander Icasiano - Accepted Counters, Juniper's Counters, Finjan's Counters (11-30-18)

A11130-CC 22 SEGMENTS (RUNNING 00:09:22.170)

1. PAGE 6:05 TO 6:17 (RUNNING 00:00:24.485)

05 ALEXANDER ICASIANO,
 06 called as a witness for the Plaintiff, having been duly
 07 sworn, testified as follows:
 08 THE WITNESS: I do.
 09 THE VIDEOGRAPHER: Please proceed, Counsel.
 10 EXAMINATION
 11 BY MR. LEE:
 12 Q. Please state your name for the record.
 13 A. My name is Alexander Icasiano.
 14 Q. Where do you work?
 15 A. I work at Juniper Networks.
 16 Q. What is your position at Juniper Networks?
 17 A. I'm a manager of the DevOps team for Sky ATP.

2. PAGE 6:18 TO 6:21 (RUNNING 00:00:14.080)

18 Q. What are your responsibilities?
 19 A. My team deploys the Sky ATP code into
 20 production, and we monitor and maintain the code that is
 21 in production.

3. PAGE 24:05 TO 24:11 (RUNNING 00:00:37.561)

05 Q. You said that you asked one of your colleagues
 06 to run a report. Who is this colleague?
 07 A. Khurram on the Sandbox Cloud Development
 08 Dynamic Analysis team. He's the one who ran the report.
 09 Q. Can you spell the name?
 10 A. K-H-U-R-R-A-M. And I just remembered his last
 11 name, I-S-L-A-H.

4. PAGE 24:12 TO 24:12 (RUNNING 00:00:03.384)

12 Q. How do you pronounce the last name?

5. PAGE 24:13 TO 24:15 (RUNNING 00:00:06.671)

13 A. I don't know actually. Sorry.
 14 Q. I'll just refer to him as Khurram then.
 15 A. Okay. Thank you.

6. PAGE 31:10 TO 31:19 (RUNNING 00:00:42.122)

10 Q. You mentioned that Khurram, when he ran this
 11 report to obtain the number that 40 percent of new
 12 samples submitted by customers are sent to dynamic
 13 analysis, this was limited to the time of January 2017
 14 and before.
 15 A. Yes. The request was to determine the number
 16 of new samples submitted by customer devices --
 17 determine the number of samples and constrain it by a
 18 date of January 2017 and before, is what the request
 19 came in for.

Case Clip(s) Detailed Report
Tuesday, December 11, 2018, 10:33:32 PM

Finjan v. Juniper

7. PAGE 33:15 TO 33:19 (RUNNING 00:00:20.204)

15 Q. When you say 40 percent of new samples are
16 sent to dynamic analysis, are you aware of what the
17 total number of files that this 40 percent is based on?
18 A. I was not given that number, so I'm not aware.
19 I don't know the total number.

8. PAGE 33:20 TO 33:23 (RUNNING 00:00:14.084)

20 Q. You mentioned that Sky ATP does not keep track
21 of the total number of files received; correct?
22 A. Correct. We don't track the total number of
23 files received in Sky ATP.

9. PAGE 42:18 TO 42:20 (RUNNING 00:00:08.747)

18 Q. Are there only certain Junos versions that are
19 compatible with Sky ATP Cloud?
20 A. Yes.

10. PAGE 42:21 TO 42:23 (RUNNING 00:00:10.958)

21 Q. Which versions?
22 A. I -- off the top of my head I don't know which
23 versions are compatible with -- with the Sky ATP Cloud.

11. PAGE 45:18 TO 46:07 (RUNNING 00:01:13.880)

18 Q. In order to use Sky ATP, a customer needs to
19 purchase a Sky ATP license; correct?
20 A. To use the premium and basic features, yes,
21 the customer has to purchase those. That's correct.
22 Q. Does a customer need to purchase a Sky ATP
23 license for each SRX device that it has in order to use
24 Sky ATP?
25 A. There is a unique license associated to each
00046:01 SRX. So they have to purchase a license for every
02 individual SRX they plan to use the Sky ATP license.
03 Q. Can there be multiple Sky ATP licenses for one
04 SRX device?
05 A. Not that I'm aware of. The license is a
06 one-to-one mapping. Otherwise it breaks the licensing
07 model for sales and purchasing.

12. PAGE 52:18 TO 52:22 (RUNNING 00:00:21.156)

18 Q. You mentioned that the free license doesn't
19 have a SKU. Do you recall that?
20 A. Yes.
21 Q. Are the SKUs for the basic and premium Sky ATP
22 licenses listed on pages 18 to 21 of Exhibit Number 1?

13. PAGE 52:23 TO 53:05 (RUNNING 00:00:43.555)

23 A. So these are the basic licenses and the
24 premium licenses. There is no SKU for -- again for free
25 licenses.
00053:01 Q. How can you tell which SKUs are basic license
02 and which are premium?
03 A. The license that has "ATP" in the SKU is the
04 premium license. The SKUs that have "THRTFFED"(sic),
05 for threat feed, is the basic license.

14. PAGE 53:06 TO 53:08 (RUNNING 00:00:12.054)

06 Q. You mentioned that there's no SKU for free
07 license. Why is that?
08 A. I -- I don't know.

Case Clip(s) Detailed Report
Tuesday, December 11, 2018, 10:33:32 PM

Finjan v. Juniper

15. PAGE 53:09 TO 53:16 (RUNNING 00:00:47.412)

09 Q. Is there any way to generate a record of the
10 number of SRX devices that have a free Sky ATP license?
11 A. So I asked one of my colleagues to run a
12 report in Sky ATP Cloud to determine the number of
13 compatible SRXs that connected -- enrolled in,
14 registered and connected to Sky ATP with a free license,
15 free service essentially. And we determined the number
16 to be 120.

16. PAGE 53:17 TO 54:03 (RUNNING 00:00:59.265)

17 Q. Can you elaborate how this number was
18 determined?
19 A. In order to use the free service in Sky ATP,
20 the customer has to register and enroll their compatible
21 SRXs into the Sky ATP Cloud.
22 When they enroll their compatible SRX device
23 to Sky ATP Cloud, it initiates a connection to Sky ATP
24 Cloud and we can track the license type. It will say
25 free and that it's connected essentially.
00054:01 And so the report was run on -- on gathering
02 that information on the number of devices that have
03 connected with the free service.

17. PAGE 89:18 TO 89:22 (RUNNING 00:00:14.498)

18 Q. Do you recall previously we were discussing
19 three different ways Juniper's customers can access
20 Sky ATP; one of them is a free service, a basic service,
21 and a premium one?
22 A. Yes.

18. PAGE 89:23 TO 90:03 (RUNNING 00:00:16.270)

23 Q. For the premium version of Sky ATP, a
24 subscription license is required; correct?
25 A. Correct. A customer has to purchase a
00090:01 subscription license to use a premium license.
02 Q. For the free version of Sky ATP, no license is
03 required; correct?

19. PAGE 90:05 TO 90:12 (RUNNING 00:00:27.416)

05 THE WITNESS: For the free license, the
06 customer has to enroll their device into the Sky ATP
07 Cloud and create an account in the Sky ATP Cloud.
08 BY MR. LEE:
09 Q. For the free version, this is what you
10 described earlier as you have to register an account
11 with Sky ATP Cloud and enroll your device; correct?
12 A. Correct.

20. PAGE 112:12 TO 112:14 (RUNNING 00:00:16.121)

12 Does an SRX user have permission to use
13 Sky ATP, the free service, without registering for an
14 account?

21. PAGE 112:17 TO 112:19 (RUNNING 00:00:16.100)

17 THE WITNESS: The SRX -- so customers who have
18 an SRX can use the free service in Sky ATP without a
19 license.

22. PAGE 113:13 TO 113:20 (RUNNING 00:00:32.147)

13 If a SRX user hasn't created an account and
14 registered their device, are they able to access

Case Clip(s) Detailed Report
Tuesday, December 11, 2018, 10:33:32 PM

Finjan v. Juniper

15 Sky ATP?
16 A. No, they're not able. They don't -- without
17 creating the account and enrolling the device in the
18 Sky ATP Cloud, they don't have authorization to even
19 connect or upload samples to Sky ATP Cloud, if I
20 understand your question correctly.
