1 A Okay. In general, yes. In general, this
2 virtual product is equal to.
3 Q Can the SRX --
4 A But I just want to make sure that -- there
5 are -- a virtual environment requires a different -- you
6 know, a custom environment is needed.
7 THE REPORTER: Can you repeat, please. I'm
8 sorry.
9 A So the virtual products require a different
10 platform on -- environment.
11 Q Can the SRX Gateway scan for malware locally
12 on the -- on the system?
13 MS. CARSON: Objection; form.
14 A [REDACTED] Could you help
15 me understand or elaborate with a specific --
16 Q Yeah.
17 A -- example of what the scan means?
18 Q Does the SRX -- do the SRX Gateways have the
19 capability to scan files that are seen on the network
20 for viruses or malware?
21 MS. CARSON: Objection; form.
22 A [REDACTED]
23 [REDACTED]
24 Q Can the SRX Gateways have antivirus software
25 installed on them?

Page 14

1 MS. CARSON: Objection; form.
2 A [REDACTED]
3 [REDACTED]
4 [REDACTED]
5 Q What AV is currently offered on the SRX
6 appliances?
7 A It's called Sophos AV.
8 Q Any other AV engines that are currently
9 offered on the SRX Gateways?
10 A [REDACTED]
11 Q Do you know if any other antivirus packages
12 were previously offered on the SRX Gateways?
13 MS. CARSON: Objection; form.
14 A No, I don't know.
15 Q Are you aware if something called Express AV
16 was previously offered on the SRX Gateways?
17 A I don't have a lot of good information on that
18 one because I haven't worked on that product.
19 Q What is your level of understanding of Express
20 AV?
21 A I have -- I don't have any understanding on
22 Express AV.
23 Q Are you aware Kaspersky was offered as a
24 antivirus solution on the SRX Gateways?
25 A I don't have a lot of good information on the

Page 15

1 early software releases that was -- yeah -- that were
2 running the AV that you mentioned.
3 Q Are you aware of a term uniform -- or sorry
4 UTM?
5 A Yeah.
6 Q And do you know what UTM stands for?
7 A Unified threat management.
8 Q And are you aware of how -- if there's a
9 functionality related to the SRX Gateways that's
10 referred to do as UTM?
11 A Yeah. So UTM offers features such as AV
12 integration and URL filtering.
13 THE REPORTER: I'm sorry. URL?
14 A It's called URL filtering.
15 THE REPORTER: Filtering?
16 A Yes.
17 Q And how is the UTM sold?
18 MS. CARSON: Objection; form.
19 A I don't have definite information on that. I
20 think it's better to contact PLM or sales.
21 Q Is it like a software package you add to an
22 SRX Gateway? Or is it a separate appliance?
23 Just, like, what form would a customer acquire
24 UTM?
25 MS. CARSON: Objection; form.

Page 16

1 A It's -- it's a software package that -- that
2 gets installed on the SRX operating system. That's
3 Junos.
4 But the Sophos AV that I -- just to clarify,
5 the Sophos AV that I know of, it's a cloud-based
6 service. It's the -- when I talk about the third-party
7 software labeling, that's only to enable communication
8 between SRX and then the actual Sophos cloud.
9 Q So the SRX Gateway with the Sophos AV doesn't
10 do scanning on the box. So just sends information up to
11 the -- Sophos cloud; is that correct?
12 MS. CARSON: Objection; form.
13 A So that's right. [REDACTED]
14 [REDACTED]
15 Q Does it extract files?
16 MS. CARSON: Objection; form.
17 A [REDACTED]
18 [REDACTED]
19 Q Do you know if the file is sent to Sophos?
20 MS. CARSON: Objection; form.
21 A I'm not aware of that. So I haven't worked
22 deeply on that particular product. I'd have to consult
23 the code or the team that actually worked on the
24 product.
25 Q And how -- how does Junos extract the file
