27 *Plaintiffs,*

28 v.

29 AGIS SOFTWARE DEVELOPMENT LLC,

30 Defendant.

Case No. 5:21-cv-04653-BLF

**DEFENDANT AGIS SOFTWARE
 DEVELOPMENT LLC'S OBJECTIONS
 AND RESPONSES TO LYFT INC.'S
 JURISDICTIONAL 30(b)(6) NOTICE TO
 DEFENDANT AGIS SOFTWARE
 DEVELOPMENT LLC**

Hon. Judge Beth Labson Freeman

1 Pursuant to Rule 30(b)(6) of the Federal Rules of Civil Procedure, Defendant AGIS Software
2 Development LLC (“Defendant” or “AGIS Software”) hereby responds and objects to Plaintiff Lyft,
3 Inc.’s (“Lyft” or “Plaintiff”) Jurisdictional Rule 30(b)(6) Notice of Deposition served in the above-
4 captioned case on February 4, 2022 (the “Notice”). AGIS Software reserves the right to further
5 supplement or amend these objections and responses to the extent allowed by the Federal Rules of
6 Civil Procedure, the Local Rules of this Court, and any applicable scheduling orders.

7 GENERAL OBJECTIONS AND QUALIFICATIONS

8 The following general objections and statements apply to each of Plaintiff’s deposition
9 topics and are hereby incorporated within each specific response set forth below. No specific
10 objections are intended to constitute, or should be construed as constituting, a waiver of any general
11 objection.

12 1. The Court’s Order (Dkt. 61) permitted Lyft to conduct “jurisdictional discovery in
13 the form of five interrogatories and one four-hour Rule 30(b)(6) deposition.” AGIS Software will
14 produce a witness for deposition for one four-hour Rule 30(b)(6) deposition in accordance with the
15 Court’s Order.

16 2. Any statement by AGIS Software that it will designate a witness to testify to the
17 topics contained in the Notice does not constitute an admission or representation that AGIS Software
18 has any knowledge or information related to a given Topic.

19 3. AGIS Software objects to the time and date specified in the Notice. Subject to the
20 objections herein, AGIS Software will provide a designated witness or witnesses at a time and
21 location that is convenient to the witness or witnesses and that is mutually agreed upon by the parties.
22 AGIS Software is willing to discuss and agree to a mutually convenient location, date, and time for
23 the noticed deposition.

24 4. AGIS Software objects to the Notice and to each and every Topic, Definition, and
25 Instruction to the extent they seek to impose obligations different from or beyond those imposed by
26
27
28

1 the Federal Rules of Civil Procedure, the Local Civil and Patent Rules of the Northern District of
2 California, and the Orders governing this Action.

3 5. AGIS Software objects to the Notice as seeking information that is not relevant to
4 any party's claims or defenses, the subject matter involved in this Action, not reasonably calculated
5 to lead to the discovery of admissible evidence, or not proportional to the needs of the case,
6 considering the importance of the issues at stake in the Action, the amount in controversy, the
7 parties' relative access to relevant information, the parties' resources, the importance of the
8 discovery in resolving the issues, and whether the burden or expense of the proposed discovery
9 outweighs its likely benefit.
10

11 6. AGIS Software objects to the Notice as seeking information that is protected from
12 discovery by the attorney-client privilege, the work-product immunity doctrine, common interest
13 doctrine, and/or any other applicable privilege, immunity, doctrine, or duty of confidentiality that
14 precludes or limits the disclosure of information. Any inadvertent disclosure of such information
15 shall not be deemed a waiver (in this way or any other proceeding) of the attorney-client privilege,
16 work-product doctrine, or any other applicable privilege or protection.
17

18 7. AGIS Software objects to the Notice to the extent it is vague, ambiguous, or
19 unintelligible, and therefore fails to identify with reasonable particularity the information sought.

20 8. AGIS Software objects to the Notice to the extent it seeks confidential, proprietary,
21 or trade secret information of third parties. AGIS Software will only produce such material subject
22 to the terms of the Protective Order and subject to any consent required by third parties.
23

24 9. AGIS Software objects to the Notice as overly broad, and unduly burdensome to the
25 extent that any Topic, Definition, or Instruction purports to require AGIS Software to provide
26 information on "any," "all," and "each and every" subjects, individuals, documents, actions, facts, or
27 circumstances.
28

RUSS AUGUST & KABAT

1 10. AGIS Software objects to the Notice to the extent it calls for documents or
2 information that are outside the scope of AGIS Software’s knowledge, possession, custody, or
3 control. AGIS further objects to the Topics, Definitions, and Instructions to the extent that Defendant
4 can obtain the requested information from some other source that is more convenient, less
5 burdensome, or less expensive.

6 11. AGIS Software objects to the Notice to the extent that it seeks legal conclusions,
7 information based on legal conclusions, or contentions through a Rule 30(b)(6) deposition.
8

9 12. AGIS Software objects to the Notice as seeking multiple depositions of the same
10 witness over the discovery period because the burden is not proportional to the needs of the case.
11 AGIS Software’s position is that any depositions of AGIS Software that implicate the same witness
12 should be taken at the same time on consecutive days. AGIS Software objects to any attempt by
13 Plaintiff to take multiple depositions of the same witness spread throughout the discovery period,
14 without a legitimate reason, as contravening the discovery rules.
15

16 13. AGIS Software objects to the Notice as cumulative, insofar as it seeks information
17 already requested in Plaintiff’s interrogatories, already provided to Plaintiff, already within
18 Plaintiff’s own possession, custody, or control, or that can be obtained from other means of
19 discovery that would be more convenient or less burdensome.

20 14. AGIS Software objects to the Notice as overly broad and unduly burdensome to the
21 extent it fails to provide a reasonable time period for information sought, or otherwise seeks
22 information beyond the relevant time frame for discovery in this Action.
23

24 15. AGIS Software objects to the Notice to the extent it seeks to require AGIS Software
25 to create or produce information that it does not maintain in the ordinary course of its business, or
26 to the extent it seeks to require AGIS Software to create or produce information in a particular

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
