Exhibit H

Attachment A for US Patent No. 10,341,838 Against Lyft Accused Product

Based on information presently available,[1] Defendant AGIS Software Development LLC ("AGIS Sof
Plaintiff Lyft Inc. ("Lyft" or "Plaintiff") infringes claims 1-26 (the "Asserted Claims") of U.S. Patent No. 10,341,8
through the Accused Products which are manufactured, sold, offered for sale, and/or used by Lyft.

The Accused Products comprise the Lyft and Lyft Driver applications, servers, and services manufactured
Inc. during and after 2016. AGIS Software reserves the right to seek leave of court to amend this list of Accu
filing of an amended complaint or as discovery progresses.

Lyft directly infringes each of the Asserted Claims by making, using, importing, testing, distributing, selli
sale the Accused Products in violation of 35 U.S.C. § 271(a).

Lyft indirectly infringes the Asserted Claims in violation of 35 U.S.C. § 271(b) by inducing third parti
and/or customers, to directly infringe through their operation and use of the Accused Products. Lyft has knowi
induced this direct infringement by, *inter alia*, (i) selling, importing, or otherwise providing the Accused Produc
the intent that the Accused Products will be operated and used in a manner that practices the Asserted Claims;
advertising the Accused Products. Lyft's marketing and promotional materials for the Accused Products are fo
Lyft's website, and in App stores of operating systems for which the Accused Products are made available. For ex
offers customers instructions and/or manuals for the Accused Products that instruct customers to, among other t
services in the Accused Products. Lyft's website also offers support to customers, including instruction to, amon
Accused Products share location information with a group of users. Lyft knows, or should have known, that it
infringement of the Asserted Claims, or subjectively believes that there is a high probability that its actions will
of the Asserted Claims but has taken deliberate actions to avoid learning these facts.

The contents of each claim cell below on which another claim cell depends are expressly incorporate dependent cell, as if set forth in their entirety therein.

Attachment A for US Patent No. 10,341,838 Against Lyft Accused Product

Claim - 10,341,838	Accused Products
1[P]. A method performed by one or more servers each having one or more processors, the method comprising:	The Lyft Servers perform the computer implemented method as set forth below. Lyft further inf indirectly by performing, inducing others to perform, and/or contributing to the performance of by one or more servers each having one or more processors For example, Lyft provides the Lyft app for passengers and the Lyft Driver app for drivers. Th and drivers, in conjunction with Lyft's servers and services, provide users with interactive met and track locations of passengers/riders using real-time maps and communications. Lyft p servers with processors (either hardware or software). The Lyft server(s) and their services c Lyft apps for riders and drivers. The Lyft server(s) and their services host information relate for processing user/device/vehicle accounts, location data, and map data. ## Lyft Driver app We've separated the passenger and driver experiences into two separate mobile apps — one exclusively passengers (named the Lyft app) and the other exclusively for drivers (named the Lyft Driver app). The Lyft Driver app will eventually be standard for all drivers and required for driving. At this time, drivers keep using the Lyft app to give rides. Don't worry! While we have some planned improvements to the Lyf app, we've kept its features the same. https://help.lyft.com/hc/en-ca/articles/115013079208-Lyft-Driver-app ## What is Lyft? Lyft is a platform that connects drivers with individuals and organizations that need rides. https://www.lyft.com/drive-with-lyft

DOCKET ALARM

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS
Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS
Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS
Sync your system to PACER to automate legal marketing.
