# Web client

The client, or user, side of the Web. It typically refers to the Web browser in the user's machine. It may also refer to plug-ins and helper applications that enhance the browser to support special services from the site. The term may imply the entire user machine or refer to a handheld device that provides Web access. Contrast with Web server. See browser plug-in.

THIS DEFINITION IS FOR PERSONAL USE ONLY. All other reproduction requires permission.
