PROCEEDINGS

Motion for Settlement for Preliminary Approval – **HELD**.

The Court heard argument on plaintiffs’ motion for settlement for preliminary approval.

The Court noted that the material terms of the settlement appear satisfactory, but several issues should be addressed. First, the first page of the class notice should be simplified, and the notice should include a table of contents. Second, the release language should be narrowed. Third, lead counsel should provide more support for their request for interest on attorneys’ fees. Fourth, lead counsel should address paragraphs 2 and 9 of the Northern District of California’s Procedural Guidance for Class Action Settlements. Parties to resubmit their motion for preliminary approval by May 21, 2024.

This case is continued to May 31, 2024, at 10:00 a.m. for status conference re: settlement via Zoom. This hearing may be taken off the calendar if the Court deems the resubmitted stipulation sufficient.
