ORDER

At Wilmington, this **19th** day of **August, 2019**:

For the reasons set forth in the Memorandum Opinion issued this date,

IT IS HEREBY ORDERED that the claim terms in this case are construed as follows:

Claim Term	Court's Construction
"document"	"a word processing, spreadsheet, or similar file into which text can be entered"
"first information"	"text in a document that can be used as input for a search operation in a source external to the document"
"computer program"	"a self-contained set of instructions, as opposed to a routine or library, intended to be executed on a computer so as to perform some task"
"to determine if the first information is at least one of a plurality of types of information that can be searched for"	"to determine if the first information belongs to one or more of several predefined categories of identifying information (e.g., a name) or contact information (e.g., a phone number, a fax number, or an email address) that can be searched for in an information source external to the document"
"wherein the computer implemented method is configured to perform each one of action (i), action (ii), and action (iii) using the first contact information previously identified as a result of the analyzing"	"wherein the computer implemented method is capable of performing each one of action (i), action (ii), and action (iii) using the first contact information previously identified as a result of the analyzing"

"that allows a user to enter a user command to initiate an operation"	"that allows a user to enter an input or series of inputs to initiate an operation"
"providing for the user an input device configured so that a single execute command from the input device is sufficient to cause the performing"	"providing an input device such that an input or series of inputs generates one command sufficient to initiate action (i), (ii), or (iii)"
"providing an input device configured by the first computer program"	"providing an input device set up by the first computer program for use by the user"
"while it is electronically displayed"	"while the first contact information is electronically displayed in the document"
"first application program"	"word processing, spreadsheet, or similar computer program"
"second application program"	"information management or database computer program"
"means for marking without user intervention the first information to alert the user that the first information can be utilized in the second application program"	Indefinite
"means for identifying without user intervention or designation the first information"	Indefinite
"[means/computer-readable medium . . . including program instructions] for using a first computer program to analyze the document, without direction from the operator, to identify text in the document that can be used to search for related information"	Indefinite
"means for responding to a user selection by inserting a second information into the document, the second information associated with the first information from a second application program"	Indefinite
"[means for/computer readable medium … including program instructions for] inserting the information located in (2) into the document"	Indefinite

"wherein the means for inserting the second information into the document further comprises means for adding the second information to the first information in the document"	Indefinite
"means for responding to a user selection by performing an operation related to a second information"	Indefinite
"means for initializing the second application program"	Indefinite
