DOCKE

¹ Defendants' Statement: On April 5, 2017, Plaintiff dropped various claims and attempted to add various claims. On April 13, 2017, Judge Andrews held that "[a]bsent good cause, Plaintiff cannot substitute different claims for the ones currently asserted . . ." Therefore, it appears that certain terms do not have to be construed against certain claims anymore, and at least one term can be dropped in its entirety. Defendants will review the list and offer a revision after it has conferred with Plaintiff. Additionally, various *Inter Partes* Review petitions are currently pending before the Patent Trial and Appeal Board. The following listing of claims is not an admission that any particular claim is valid. Furthermore, Defendants reserve the right to modify this list of claims consistent with current and future rulings at the Patent and Trademark Office. ² The Asserted Patents state that they are "related." Many of the Asserted Patents have the same or similar disclosures, and each party's citation to a disclosure in one patent shall be understood to encompass the same or similar disclosures in the other Asserted Patents.
