**COUNT I**  
**(Infringement of U.S. Patent No. 8,201,968)**

8. Plaintiff repeats and re-alleges Paragraphs 1-7 as though fully set forth herein.

9. Plaintiff LSG is the owner by assignment of United States Patent No. 8,201,968 entitled “Low Profile Light,” which was duly and legally issued by the USPTO on June 19, 2012 (the “’968 Patent”). A true and correct copy of the ’968 Patent is attached hereto as Exhibit A.

10. The ’968 Patent is valid and enforceable and Plaintiff has the full right to recover for past infringement damages and the right to recover future royalties, damages and income.

11. 12. On December 9, 2015, Defendants received notice of the ’968 Patent. Plaintiff’s notice to Defendants referred to Defendants’ “Surface Mount family of products”. The Surface Mount family of products are a subject of this complaint.

13. Upon information and belief, since at least December 9, 2015, when Plaintiff formally placed Defendants on notice of their infringement, Defendants have infringed and will continue to infringe at least Claims 1, 2, 5, 6, 14, 15, 16, and 18 of the ’968 Patent by, among other activities, making, using, selling or offering to sell in or importing into the United States its LBSLEDA10L products. Upon information and belief, Defendants intend to cause, and have taken affirmative steps to induce, infringement by these third-party manufacturers, distributors, importers, and/or consumers by, *inter alia*, creating advertisements that promote the infringing use of LBSLEDA10L products, creating established distribution channels for these products into and within the United States, purchasing these products, manufacturing these products in conformity with U.S. laws and regulations, distributing or making available instructions or manuals for these products to purchasers and prospective purchasers, and/or providing technical support, replacement parts, or services for these products to these purchasers in the United States.
