**Subject:** Hon Hai: Meet and Confer

I had the meet and confer with Chris Clayton and Jose Rojas. The call was very short. I told them that Hon Hai does not do business in Florida. With respect to the accused products, I informed him that Hon Hai sells parts and services to FIH Mobile and that we do not introduce products to the stream of commerce. They asked whether there is a forum with jurisdiction, and I responded California.

They ultimately stated that they would wait to see our papers. I told them that we were always open to discussing further to save fees for both sides either before we file or after we file, and for now we would plan to file on October 24, indicating that we had a conference under the local rules.
