Attachments: Complaint.pdf

Candida,

Emerson has just filed the attached Complaint for Declaratory Judgment of Patent Non-Infringement and Invalidity in the Northern District of Georgia. I want to assure you that it is still our intent to reach an amicable conclusion to the patent licensing discussions you initiated, but our research shows that you have filed multiple lawsuits in the Eastern District of Texas, and the references to Rule 408 on previous correspondence clearly show you are anticipating litigation. Emerson's impression of the Eastern District of Texas is that it may unduly favor patent owners, and we would prefer to be in another jurisdiction in the event that we are unable to reach an amicable solution. We are of course prepared to delay or stay this law suit whilst we are discussing possible license terms.

I appreciate you may be unhappy with this step Emerson has taken, but we would still very much like to go ahead with our planned meeting on Monday. I am looking forward to meeting you and Bob in person to explore how we can move forward.

With regard to the meeting agenda, I suggest you start by walking us through your claim charts. We can then discuss those and cover any questions Emerson has. I would also like to discuss your expectations on possible commercial licensing terms.

John

Subject: Meeting

Hi John - I wanted to check your thoughts on an agenda for next week.

Do you want us to do a presentation or would you rather do a Q&A session regarding the IEs and contract?

Please let me know so that we can plan appropriately.

Thanks

Candida
