 actuator system, which includes a trigger body, a trigger  
 mechanism chassis, a strike plate coupled to the trigger body,  
 a first trigger adjustment control screw received in a screw  
 thread disposed within the controller chassis, and a second  
 trigger adjustment control screw received in a screw thread  
 disposed within the controller chassis, wherein a portion of  
 each of the first trigger adjustment control screw and second  
 trigger adjustment control screw engages with a respective  
 portion of the strike plate, and said portion of each of the first
