STIPULATED ORDER

Pursuant to the Court’s instruction at the Status Hearing on September 16, 2014, Plaintiff Velocity Patent LLC and Defendants Mercedes-Benz USA, LLC and Mercedes-Benz U.S. International Inc. (collectively “the parties”) have agreed to the following Stipulated Order concerning the stay of Civil Action No. 1:13-cv-08413 (“the Action”):

1. The Action is stayed until completion of the reexamination of U.S. Patent No. 5,954,781 (which reexamination has been assigned Reexamination Control No. 90/013,252), including any appeals taken by Velocity Patent.
2. The stay entered by this Stipulated Order is limited to U.S. Patent Application No. 90/013,252. The stay is not affected by any subsequent reexamination request or petition for *inter partes* review filed with the USPTO (e.g., a further request for *ex parte* reexamination). Defendants reserve the right, however, to renew their motion to stay the Action until the completion of their IPR proceeding, IPR2014-01247, in the event such proceeding takes longer than such reexamination.
3. Defendants shall provide, to the extent it has not done so already within thirty (30) days of entry of this Order, a list of third parties (including address) that supply components (including hardware and software) of the features identified in Plaintiff’s Preliminary Infringement Contentions to Defendants or Defendant’s related foreign entities. For each third party identified, Defendants shall, to the extent it has not done so already, also state whether it has control over the third party, and whether Defendant’s counsel can accept service of process requesting production of relevant evidence (e.g., a subpoena) on behalf of the third party.

Dated: November 13, 14

Respectfully submitted,

/s/ Celine J. Crowson
