All,

As discussed with Yusuf on our call, attached is a draft joint motion requesting a status conference for next week. I have left a blank for Hospira to insert the language about the Amneal trial, as requested.

Also, the parties discussed a request for the addition 42 day fact discovery period after the issuance of the claim construction ruling under LPR 1.3. Fresenius Kabi would prefer to reopen fact discovery to amend its contentions and issue written discovery based on the ruling, if needed. Hospira indicated that it would not likely oppose such a request.

Please provide edits to the joint motion today, so we may get the request on file.

Best,
Joel

Counsel,

As you aware, the Court took the parties' briefing and oral argument for claim construction under consideration last December. In the interest in moving the litigation forward, Fresenius Kabi believes a joint submission asking for a status conference might help get this issue back before the Court. Would Hospira be amenable to such a joint request?

Regards,
Joel
