Re: Complaint Filed by Advanced Ground Information Systems, Inc. and AGIS Software Development LLC Concerning Certain Location-Sharing Systems, Related Software, Components Thereof, and Products Containing Same (DN 3655)

Dear Mr. Langdon:

Under Commission Rule 210.10(a)(1), 19 C.F.R. § 210.10(a)(1), the Commission may extend the 30-day deadline for voting on institution of an investigation when “[e]xceptional circumstances preclude adherence to a 30-day deadline.” Rule 210.10(a)(2) further provides that “[i]f exceptional circumstances preclude Commission adherence for the 30-day deadline for determining whether to institute an investigation on the basis of the complaint, the determination will be made as soon after that deadline as possible.”

The Notice of Receipt of Complaint and Solicitation of Comments Relating to the Public Interest associated with the above-referenced Complaint was published in the *Federal Register* on November 25, 2022. *See* 87 Fed. Reg. 72509. Public Interest comments and comments on other issues were timely filed on December 5, 2022. In order for you to have time to reply to those comments, and for the Commission to fully consider those replies, the Commission will require additional time to consider whether to institute an investigation. Thus, the Commission has determined to postpone its vote on institution, and has determined that the new deadline is set for December 23, 2022.

Sincerely,

A handwritten signature in black ink, appearing to read "Katherine Hiner".

Katherine Hiner
Acting Secretary to the Commission
