a. downloading an application to a web-enabled wireless phone directly from a remote server over the internet;

The method provided by the Accused Product involves downloading an application (the web-enabled wireless phone directly from a remote server over the internet:

Set up Inspire HR

For the best experience, use the Fitbit app for iPhones and iPads or Android phones. You can also set up Inspire HR on Windows 10 devices. If you don't have a compatible phone or tablet, use a Bluetooth-enabled Windows 10 PC. Keep in mind that a phone is required for call, text, calendar, and smartphone app notifications.

Set up with your phone or tablet

The free Fitbit app is compatible with most iPhones and iPads, Android phones, and Windows 10 devices. If you're unsure if the Fitbit app is compatible with your device, see [fitbit.com/devices](https://www.fitbit.com/devices).

To get started:

1. Find the Fitbit app in one of the locations below, depending on your device.
 - Apple App Store for iPhones and iPads
 - Google Play Store for Android phones
 - Microsoft Store for Windows 10 devices
2. Install the app, and open it.
 - If you already have a Fitbit account, log in to your account, and tap the account icon  > **Set Up a Device**.
 - If you don't have a Fitbit account, tap **Join Fitbit** to be guided through a series of questions to create a Fitbit account.
3. Continue to follow the on-screen instructions to connect Inspire HR to your account.

b. coupling the a web-enabled wireless phone to a device which provides exercise-related information;

The method provided by the Accused Product involves coupling the web-enabled wire (the Fitbit Inspire HR) via “syncing,” which provides exercise-related information:

See your data in the Fitbit app

Sync Inspire HR to transfer your data to the Fitbit app, where you can view activity and sleep data, log food and water, participate in challenges, and for best results, keep all-day sync turned on, so that Inspire HR syncs periodically with the app.

If you turn off all-day sync, we recommend syncing at least once a day. When you open the Fitbit app, Inspire HR syncs automatically when it's nearby. You can also use the Sync Now option in the app at any time.

WHAT IS SYNCING?

Syncing is the process that transfers the data your device collects to your Fitbit dashboard, where you can track your progress, see how you slept, set goals, log food and water, and much more. Fitbit trackers, watches, and Fitbit Aria Air use Bluetooth Low Energy (BLE) to sync with phones, tablets, and certain computers. Fitbit Aria and Fitbit Aria 2 use Wi-Fi to sync with your router. The instructions in [How do I set up my Fitbit device?](#) explain how to make sure your device syncs to your Fitbit dashboard.
