First Supplemental Exhibit 42 - Infringement Claim Chart: U.S. Patent No. 8,277,377

a. downloading an application to a web-enabled wireless phone directly from a remote server over the internet;

The method provided by the Accused Product involves downloading an application (the web-enabled wireless phone directly from a remote server over the internet:

Setting up your Fitbit Blaze

To make the most of your Blaze, use the free Fitbit app available for iOS®, and Windows® 10 devices. If you don't have a compatible mobile device you can use a computer instead, but keep in mind that a mobile device is required for key features such as notifications, music control, and connected GPS.

Setting up your tracker using a mobile device

The Fitbit app is available for more than 200 mobile devices that support iOS, Android, and Windows 10 operating systems.

To get started:

1. Make sure the Fitbit app is compatible with your mobile device by checking <http://www.fitbit.com/devices>.
2. Find the Fitbit app in one of these locations, depending on your device:
 - The Apple App Store® for iOS devices such as iPhones and iPads.
 - The Google Play™ Store for Android devices such as the Samsung Galaxy S5 and Motorola Droid Turbo.
 - The Windows® Store for Windows 10 mobile devices such as Lumia phones or Surface tablets.
3. Install the app. Note that you'll need an account with the applicable store before you can download even a free app such as Fitbit.
4. When the app is installed, open it and tap **Join Fitbit** to get started. You'll be guided through the process of creating a Fitbit account and connecting ("pairing") your Blaze to your mobile device. Pairing makes sure the tracker and mobile device can communicate with one another (sync their data).

Phillips North America LLC v. Fitbit, Inc., No. 1:19-cv-11586-IT (D. Mass)
First Supplemental Exhibit 42 - Infringement Claim Chart: U.S. Patent No. 8,277,377

	<h2>Syncing your tracker to your Fitbit account</h2> <p>Once you've set up and started using Blaze, you'll need to make sure it transfers (syncs) its data to Fitbit so you can track your progress, see your history, earn badges, analyze your sleep logs, and more on your Fitbit dashboard. A daily sync is recommended but not required; your tracker can store data for up to seven days between syncs.</p> <p>The Fitbit apps use Bluetooth Low Energy (BLE) technology to sync with your tracker. Each time you open the app it will sync if the tracker is nearby, and it will also sync periodically throughout the day if you have the all-day sync enabled. If you're running the Fitbit app on a Windows 10 PC that doesn't have Bluetooth, you'll need to make sure the tracker is plugged into the computer using the charging cable.</p> <p>PNA-FB0000465</p> <h3>WHAT IS SYNCING?</h3> <p>Syncing is the process that transfers the data your device collects to your Fitbit dashboard, where you can track your progress, see how you slept, set goals, log food and water, and much more. Fitbit trackers, watches, and Fitbit Aria Air use Bluetooth Low Energy (BLE) to sync with phones, tablets, and certain computers. Fitbit Aria and Fitbit Aria 2 use Wi-Fi to sync with your router. The instructions in How do I set up my Fitbit device? explain how to make sure your device syncs to your Fitbit dashboard.</p> <p>PNA-FB0000048</p>

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
