**STATUS UPDATE OF POST-GRANT PROCEEDINGS**

Consistent with this Court’s request at the November 28, 2022 status conference, Defendants Volkswagen Group of America, Inc. and Volkswagen Group of America Chattanooga Operations, LLC (collectively “Volkswagen”); Ford Motor Company (“Ford”); American Honda Motor Co., Inc. and Honda Development & Manufacturing of America, LLC (collectively “Honda”); Nissan North America Inc. and Nissan Motor Acceptance Corporation a/k/a Nissan Motor Acceptance Company LLC (collectively “Nissan”); General Motors Company and General Motors LLC, (collectively “GM”); and Tesla, Inc., (“Tesla”) notify the Court of the status of the post-grant filings before the United States Patent and Trademark Office (“Patent Office”) and the Patent Office’s Patent Trial and Appeal Board (“PTAB”).

Below is a summary of the proceedings filed on the patents asserted in this litigation by Neo Wireless LLC (“Neo Wireless”). As noted below, the PTAB has already instituted IPR proceedings for three of the six asserted patents, and

determined that there is “a reasonable likelihood” that the IPR will show that claims in the challenged patents are unpatentable. Defendants also notes that Volkswagen and Honda have filed petitions for *Ex Parte* Reexamination of two of the three asserted patents for which no IPR petition is currently instituted and the deadlines for a decision on institution of these Reexam petitions from the Patent Office is listed in the table below.

Also provided below is a listing of the anticipated dates for the remaining IPR and Reexam Institution Decisions as well as the dates for the PTAB’s Final Written Decisions on the instituted IPRs. In the chart, the instituted proceedings are shaded green, the denied petitions are shaded peach, and the IPRs pending the PTAB’s Institution Decision and Reexam Petitions pending the Patent Office’s Decision remain white.
