**Lead Digital System Architect (LED Lamps)**

Philips Lighting

Jul 2016 - Apr 2018 · 1 yr 10 mos

Shanghai China

Responsible for the definition of system architecture, including building blocks and interfaces, which suits for both short term delivery and long term roadmap;

In charge of system level requirement specification and use case definition;

Guide system implementation to ensure that hardware design, software development and system level integration can all meet the requirements;

Close collaboration with architects from various internal BUs and external partners to ensure system interoperability;

Practice Scaled Agile Framework (SAFe) to build high quality systems with short time to market.

**Chief Software Architect (IC Solutions)**

ZTE USA, Inc.

Jun 2015 - Mar 2016 · 10 mos

Bellevue WA

In charge of embedded software architecture design for various chipset SDK, including xPON, LTE modem, IoT and LTE-Femtocell product lines.

Played a critical role in approving final designs, solving system issues and improving development efficiency.

Represented and served in Linaro as a steering committee member in LMG and LHG.

**VP, R&D**

Yudian Technologies, Co., Ltd.

Jan 2011 - May 2015 · 4 yrs 5 mos

Shanghai China

Customized Homeplug AV standard for cost effective cable access network solutions, which leads to C-HPAV standard widely adopted by Chinese cable operators;

Developed a complete C-HPAV product line with head-end master (with HFC fiber node module and ONU module), CPE, set-top box card, WiFi home gateway and network management system etc;

In charge of product definition and roadmap, resource planning and budgeting;

Continuously drove down product cost to improve margins;

Acted as the domain expert to support various IT system and applications for service providers, including user behavior analysis, e-commerce integration with TV sales channel, blockchain based crowdfunding platform and OSS BI analysis platform etc.

**Director, R&D**

Neocific Inc.

Jan 2006 - Dec 2010 · 5 yrs

Bellevue, WA & Shanghai, China

Built a development team with engineers in software, hardware, testing, technical support and production;

Kept track of multiple ICT and TMT projects simultaneously and always delivered to customers' satisfaction;

In charge of system architecture design, software architecture design and algorithm development for all the projects.

**Director Of Software Development**

Waltical Solutions, Inc. (Formerly Walbell Technologies)

Dec 2003 - Dec 2005 · 2 yrs 1 mo

Bellevue, WA

Led a software team to design the software, including embedded protocol stack (VxWorks and Linux),

network management system (C/S architecture with Java and C++) and manufacture testing system (C++);

Helped a Korean partner develop a commercial WiMAX product;

Made technical contributions to IEEE 802.16e working group.

**Senior software contractor**

Radioframe Networks, Inc.

Jul 2003 - Dec 2003 · 6 mos

**Tech leader**

Broadstorm Telecommunications, Inc.

Dec 2000 - Jun 2003 · 2 yrs 7 mos

Bellevue, WA

Designed and developed MAC for a pre-WiMAX system;

Led air link team to implement the whole MAC/RLC system from scratch within 6 months and delivered the products for commercial trial within 15 months;

Job responsibilities included system design, project management, feature implementation, functional and system test and integration of MAC and network layer subsystems.

**Research Scientist**

GMD-IPSI

Sep 1999 - Dec 2000 · 1 yr 4 mos

Designed and implemented a mono-media multicast transport protocol for the next generation Internet.

Consultant

PricewaterhouseCoopers

1999 - Less than a year
