## Introduction

This section provides a general functional description of the Logistics Information Library (LIL). You will learn about the benefits of using the Logistics Information Library, which performance measures you can access, and how to call up LIL.

This section contains the following topics:

[What Is the Logistics Information Library \(LIL\)?](#)

[How to Access LIL](#)

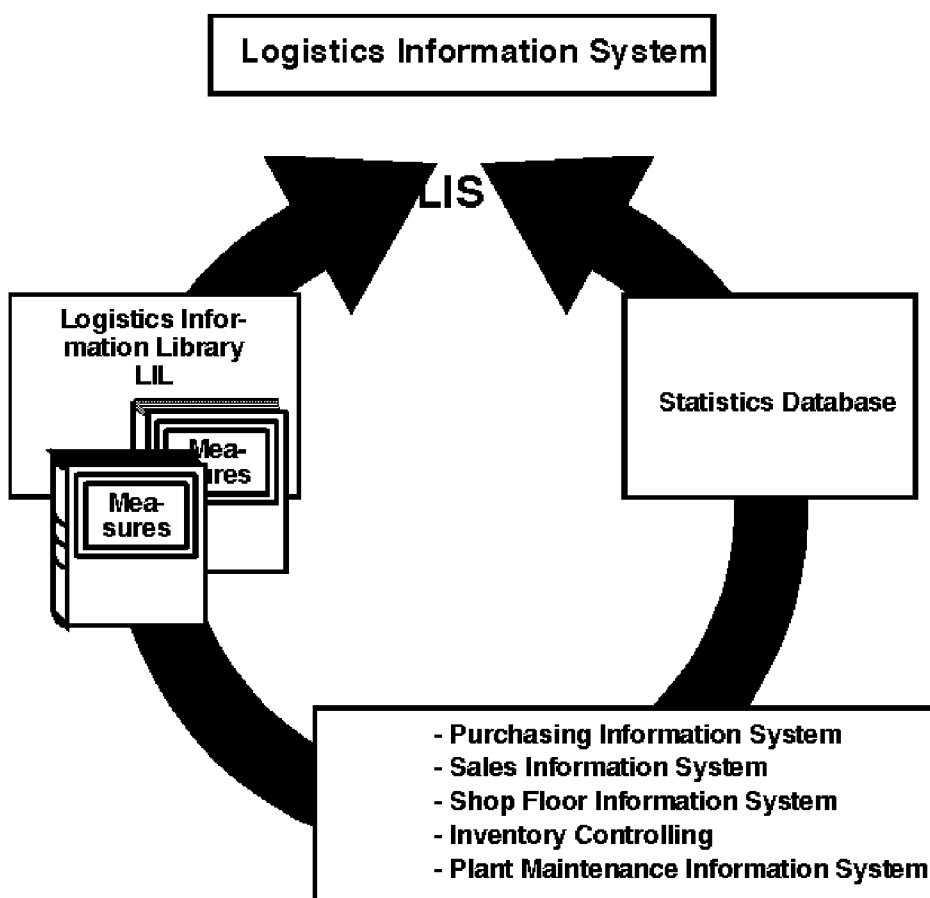

## What Is the Logistics Information Library (LIL)?

You use the Logistics Information Library (LIL) to record, classify, and retrieve logistics performance measures.

The term "performance measure" is understood very broadly in the context of the Logistics Information Library; for example, information such as stock level is seen as a performance measure.

### Where LIL Fits into the Logistics Information System (LIS)

The Logistics Information Library is a component in the Logistics Information System (LIS). The following figure gives you an overview of the different components in LIS. In addition to the information or performance measurement systems, LIS contains the Statistics Database component which you can use to make custom-defined additions to the information systems.

LIL allows you to access performance measures that are stored in LIS using simple search strategies. You can also catalog and structure performance measures from several different areas or applications in LIL.

### Functions and Benefits of LIL

LIL is a tool that makes the access of performance measures transparent, fast, and easy.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
