SAP AMERICA, INC.  
Petitioner,

v.

VERSATA DEVELOPMENT GROUP, INC.  
Patent Owner.

---

Case CBM2012-00001 (MPT)  
Patent 6,553,350

---

Before MICHAEL P. TIERNEY, *Lead Administrative Patent Judge*, and  
SALLY C. MEDLEY and RAMA G. ELLURU, *Administrative Patent Judges*.

TIERNEY, *Lead Administrative Patent Judge*.

**ORDER**

*Conduct of the Proceeding*  
*37 C.F.R. § 42.5*

A conference call was held on October 31, 2012 at approximately 1:30 p.m. involving:

1. Erika Arner and Joseph Palys, counsel for SAP
2. Nancy Link and Martin Zoltick, counsel for Versata,
3. Michael Tierney, Sally Medley and Rama Elluru, Administrative Patent Judges.

The conference call covered a variety of topics including Versata's request to submit expert testimony with their patent owner preliminary response, request for additional discovery and request to rely upon counsel and experts who were involved in the related litigation.<sup>1</sup> These requests as well as a Board request for additional information are discussed in detail below.

I. Versata's Request

a. *Versata Request to Submit Expert Testimony with its Patent Owner Preliminary Response*

Versata requested authorization to submit expert testimony not already of record with its patent owner preliminary response. Versata requested authorization

---

<sup>1</sup> Petitioner has identified the following two related proceedings as involving the '350 patent:

- a. *Versata Software, Inc. et al. v. SAP America, Inc. et al.*, Civil Action No. 2:07-cv-153, E.D.T.X. (terminated September 9, 2011); and
- b. *Versata Software, Inc. et al. v. SAP America, Inc. et al.*, No. 2012-1029, -1049, U.S. Court of Appeals for the Federal Circuit.

as the rules do not permit submission of new testimonial evidence beyond that already of record, except as authorized by the Board. 37 C.F.R. § 42.207.

According to Versata, the proposed testimonial evidence would be directed to SAP's standing to pursue a covered business method review. In particular, Versata's proposed expert would testify as to the meaning of the portion of section 18(d)(1) of the America Invents Act that defines a covered business method as a patent that claims a method or corresponding apparatus for performing data processing or other operations used in the practice, administration, or management of a financial product or service. SAP opposed Versata's request stating that the expert would be testifying as to a question of statutory interpretation.

The rules provide that testimony on United States patent law will not be permitted. 37 C.F.R. § 42.65(a). Versata's request to submit testimony interpreting the meaning of section 18(d)(1) is denied as it seeks to provide expert testimony on U.S. patent law.

b. *Request for Additional Discovery*

Versata requested that it be provided additional discovery. Specifically, Versata's covered business method review counsel sought to obtain discovery of all SAP documents produced under the district court protective order in the related litigation. SAP opposed.

The rules provide that the parties may agree to additional discovery between themselves. Where the parties fail to agree however, a party may move for additional discovery. 37 C.F.R. § 42.51(b)(2). For a covered business method review, a party must show good cause why the requested additional discovery is needed and that the discovery request is limited to evidence directly related to factual assertions advanced by a party in the proceeding. 37 C.F.R. § 42.224.

According to Versata, SAP relied upon experts in the related litigation who testified that SAP did not infringe Versata's involved '350 patent and that the '350 patent was invalid. According to Versata, the protective order in the related litigation precludes Versata's counsel in this proceeding from having access to SAP's documents provided under the protective order. Versata stated that it requires all the SAP documents produced in the district court litigation as SAP has alleged that certain claims of the '350 patent are invalid based upon SAP's "R/3" documentation and that this documentation was discussed by SAP's experts in the related litigation.

SAP opposed Versata's request stating that Versata's request was unduly broad and encompassed numerous documents that were irrelevant to the issues raised in this proceeding. SAP indicated that they would consider producing specific documents should Versata limit its request.

The Board denied Versata's request for additional discovery without prejudice to a request of a more limited nature, e.g., SAP expert reports directed to invalidity. Versata and SAP agreed that they will seek to resolve this discovery issue, prior to Versata requesting further Board involvement.

*c. Request for Pro Hac Vice and Reliance on Experts involved in the Related District Court Litigation*

Versata requests pro hac vice admission for Mr. Scott L. Cole. Versata Motion for Admission Pro Hac Vice, Paper 12. Versata represents that good cause exists for Mr. Cole's admission as Mr. Cole represented Versata as "lead counsel in the Versata v. SAP patent infringement litigation (Civil Action No. 07-cv-00153), which involved the same patent at issue in this proceeding." *Id.* at 3.

SAP opposes Versata's request. SAP Opposition to Motion for Pro Hac Vice Admission, Paper 15. SAP states that Mr. Cole, as trial counsel in the related litigation, gained access to highly confidential and proprietary information about SAP and its products. The use of this information is said to be governed by a protective order from the district court. SAP expressed a concern that Mr. Cole's participation in both the district court litigation and the review proceeding puts him in a position where he could affect the scope of the claims of the '350 patent while

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
