(57) **ABSTRACT**

Improved graphical user interfaces suitable for reviewing, browsing, previewing and/or purchasing media items are also disclosed. The methods and graphical user interfaces are particularly useful for a system that provides purchase and distribution of media in a client-server environment. The graphical user interfaces can be presented to a user at a client (client machine). In one embodiment, the methods and graphical user interfaces can assist users in locating media to be browsed, previewed or purchased. The media can, for example, be audio, video and/or image data. The methods and graphical user interfaces are particularly useful for reviewing, browsing, previewing and/or purchasing classical music.
