

EXHIBIT 2005

beyond the jurisdiction of the Judiciary Committee and as a result was not considered previously, but I trust it will win the support of our colleagues on the floor. I am glad that this provision has been included in the managers' amendment, of which I am a co-sponsor.

My conversations with Rhode Island inventors also made clear that the fear of protracted litigation also dampens innovation. Unfortunately, numerous poor-quality patents have issued in recent years, resulting in seemingly endless litigation that casts a cloud over patent ownership. Administrative processes that should serve as an alternative to litigation also have broken down, resulting in further delay, cost, and confusion.

The America Invents Act will take on these problems by ensuring that higher quality patents issue in the future. This will produce less litigation and create greater incentives for innovators to commit the effort and resources to create the next big idea. Similarly, the bill will improve administrative processes so that disputes over patents can be resolved quickly and cheaply without patents being tied up for years in expensive litigation.

This body must not pass up this chance to enhance innovation and energize our economy. We must see this bill through the Senate, and we must work with the House to see it passed promptly into law. It is true that the bill is a compromise and may not reflect all of everyone's priorities. Improvements to the bill may still be possible. To that end, I expect a productive debate on the floor and a constructive dialog with the House. I look forward to continuing to work with the chairman, my colleagues, and all interested parties to craft a bill that generates the broadest consensus possible.

But we must not lose sight of the need for action. Our patent system has gone 60 years without improvements. It needs repair. Now is the time to energize our innovation economy, to create jobs, and to secure continuing American leadership in the fields of medicine, science, and technology. Hard work and ingenuity long have been the backbone of this country. Let's not get in their way.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MENENDEZ. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BENNET). Without objection, it is so ordered.

MORNING BUSINESS

Mr. MENENDEZ. Mr. President, I ask unanimous consent that the Senate proceed to a period for the transaction of morning business, with Senators

permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MENENDEZ. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SCHUMER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMERICA INVENTS ACT

Mr. SCHUMER. Mr. President, I rise to speak in support of the America Invents Act generally and about the managers' amendment specifically. The America Invents Act, also known as the patent reform bill, has been pending for many years and has been the subject of extensive debate, negotiation, and revisions. In its current draft, it does much needed good to help protect the American innovation economy by updating and modernizing our patent system.

The patent system in the United States is designed to protect innovation and inventions and investment. But over the last several decades, the Patent and Trademark Office has become bogged down and overburdened by inefficient process and outdated law. The result is a heavy burden on the innovative work that is the engine of our economy.

I wish to commend Senator LEAHY. He has gone the extra mile for this bill for many years. I am proud and glad he is seeing his work come to fruition as we finally debate the bill on the floor. Passage of the bill is in sight. I also wish to commend the ranking member of the Judiciary Committee, Senator GRASSLEY, who worked with him, as well as Senator KYL, who has taken a leading role on the Republican side, for their hard work in crafting a bill that effectively modernizes the patent system, while paying attention to the many and varied demands different sectors of the economy exert upon it.

I am particularly pleased the chairman has decided to adopt the Schumer-Kyl amendment on business method patents into the managers' amendment. It is a critical change that this bill finally begins to address the scourge of business method patents currently plaguing the financial sector. Business method patents are anathema to the protection the patent system provides because they apply not to novel products or services but to abstract and common concepts of how to do business.

Often, business method patents are issued for practices that have been in widespread use in the financial industry for years, such as check imaging or one-click checkout. Because of the nature of the financial services industry, those practices aren't identifiable by

the PTO as prior art and bad patents are issued. The holders of business method patents then attempt to extract settlements from the banks by suing them in plaintiff-friendly courts and tying them up in years of extremely costly litigation.

This is not a small problem. Around 11,000 new applications for patents on business methods are filed every year, and financial patents are being litigated almost 30 times more than patents as a whole. This is not right, it is not fair, and it is taking desperately needed money and energy out of the economy and putting it into the hands of a few litigants. So I am very pleased Congress is going to fight it.

The Schumer-Kyl amendment, which was included in the managers' package we just adopted, will allow companies that are the target of one of these frivolous business method patent lawsuits to go back to the PTO and demonstrate, with the appropriate prior art, that the patent shouldn't have been issued in the first place. That way bad patents can be knocked out in an efficient administrative proceeding, avoiding costly litigation.

One of the most critical elements of this amendment has to do with the stay of litigation while review of the patent is pending at the PTO. The amendment includes a four-factor test for the granting of a stay that places a very heavy thumb on the scale in favor of the stay. Indeed, the test requires the court to ask whether a stay would reduce the burden of the litigation on the parties and the court. Since the entire purpose of the transitional program at the PTO is to reduce the burden of litigation, it is nearly impossible to imagine a scenario in which a district court would not issue a stay.

In response to concerns that earlier versions of the amendment were too broad, we have modified it so it is narrowly targeted. We want to make sure to capture the business method patents which are at the heart of the problem and avoid any collateral circumstances.

In conclusion, I believe the amendment takes an important step in the direction of eliminating the kinds of frivolous lawsuits the jurisprudence on business method patents have allowed. I am very grateful to the chairman and the ranking member, Senator KYL, and I support the managers' amendment and the America Invents Act as a whole.

Finally, I would like to say a few words about Senator COBURN's proposal on fee diversion. I think his idea, which is incorporated in the managers' amendment, makes a lot of sense; that is, to let the PTO keep the fees they charge so they are self-funded and we don't have to spend taxpayer money to fund them every year.

Last year, when we were debating the Wall Street reform bill, Senator JACK REED and I made a similar proposal for the SEC, which ultimately didn't make it into the final bill. I just wanted to
