Getting Started in iOS Simulator 7

- Figure 1-1 Simulated iPhone running the HelloWorld app 8
- Figure 1-2 The iOS Simulator Home screen for a simulated iPhone in the iOS 7.0 simulation environment 10
- Figure 1-3 The Apple website running in Safari in iOS Simulator 11
- Figure 1-4 Running Maps and simulating a latitude and longitude in iOS Simulator 13
- Figure 1-5 iOS Simulator displays a simulated iPad running iOS 6.1 15
- Figure 1-6 Example of the Settings app in a simulated iPad device 17
- Figure 1-7 A rotated simulated iPad running in the iOS 6.1 simulation environment 19

Interacting with iOS Simulator 21

- Figure 2-1 iOS Simulator scaled to 100 percent (left) and 75 percent (right) 28
- Table 2-1 Manipulating iOS Simulator from the Hardware menu 21
- Table 2-2 Performing gestures in iOS Simulator 22

Testing and Debugging in iOS Simulator 30

- Figure 3-1 The Accessibility Inspector running on a simulated iPhone 33
- Table 3-1 Performing debugging through the iOS Simulator Debug menu 35

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
