FIRST AMENDED COMPLAINT FOR PATENT INFRINGEMENT

Plaintiff Ameranth, Inc. (“Ameranth”), for its First Amended Complaint against defendant Travelocity.com, LP (“Travelocity”), avers as follows:

PARTIES

1. Ameranth is a Delaware corporation having a principal place of business at 5820 Oberlin Drive, Suite 202, San Diego, California 92121. Ameranth develops, manufactures and sells, *inter alia*, hospitality industry, entertainment, restaurant and food service information technology solutions under the trademarks 21st Century Communications™, and 21st Century Restaurant™, among others, comprising the synchronization and integration of hospitality information and hospitality software applications between fixed, wireless and/or internet applications, including but not limited to computer servers, web servers, databases, affinity/social networking systems, desktop computers, laptops, “smart” phones and other wireless handheld computing devices.

2. Defendant Travelocity is, on information and belief, a Delaware limited partnership having a principal place of business and headquarters in Southlake, Texas. On information and belief, Travelocity makes, uses, offers for sale or license and/or sells or licenses hotel and lodging, property management system (PMS) and other hospitality information-technology products, software, components and/or systems within this Judicial District, including the Travelocity Reservation System as defined herein.

JURISDICTION AND VENUE

3. This is an action for patent infringement arising under the Patent Laws of the United States, 35 U.S.C. §§ 271, 281-285.

4. This Court has subject matter jurisdiction pursuant to 28 U.S.C. §§ 1331 and 1338(a).

1 nightclubs, cruise ships and other entertainment and sports venues). Ameranth
2 has been widely recognized as a technology leader in the provision of wireless
3 and internet-based systems and services to, *inter alia*, restaurants, hotels,
4 casinos, cruise ships and entertainment and sports venues. Ameranth's award
5 winning inventions enable, in relevant part, generation and synchronization of
6 menus, including but not limited to restaurant menus, event tickets,
7 reservations, and other products across fixed, wireless and/or internet platforms
8 as well as synchronization of hospitality information and hospitality software
9 applications across fixed, wireless and internet platforms, including but not
10 limited to, computer servers, web servers, databases, affinity/social networking
11 systems, desktop computers, laptops, "smart" phones and other wireless
12 handheld computing devices.

13 9. Ameranth began development of the inventions leading to the patents
14 in this patent family, including the patents-in-suit, in the late Summer of 1998,
15 at a time when the then-available wireless and internet hospitality offerings
16 were extremely limited in functionality, were not synchronized and did not
17 provide an integrated system-wide solution to the pervasive ordering,
18 reservations, affinity program and information management needs of the
19 hospitality industry. Ameranth uniquely recognized the actual problems that
20 needed to be resolved in order to meet those needs, and thereafter conceived
21 and developed its breakthrough inventions and products to provide systemic
22 and comprehensive solutions directed to optimally meeting these industry
23 needs. Ameranth has expended considerable effort and resources in inventing,
24 developing and marketing its inventions and protecting its rights therein.
