ORC TRADER

The most sophisticated trading application for listed derivatives.

Orc Trader is the market leading trading application for listed derivatives. Trading firms and banks rely on Orc Trader to price and trade derivatives on trading venues globally.

[BOOK A MEETING](#)

TRADE GLOBALLY

Sophisticated derivatives trading with global reach and asset class independence.

- Explore new opportunities on 150+ trading venues.
 - Pricing and volatility models suitable for trading listed derivatives on equity, fixed income, commodity, and FX.
 - Trade multiple markets from a single frontend with multi-currency risk and P&L analysis.
 - Advanced volatility management capabilities.
 - Single click trading mode for instant order entry.
-

CONTROL YOUR RISK

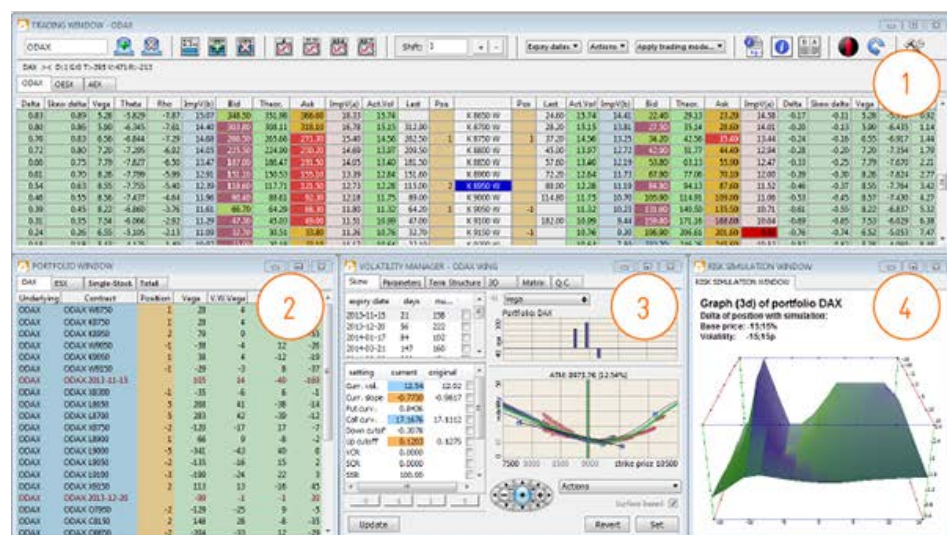

Comprehensive risk and P&L analysis.

- Monitor your aggregated risk based on 100+ risk values.
 - Multi-currency portfolio analysis of P&L daily or since inception.
 - P&L attribution to risk values.
 - Perform scenario analysis using pre-defined or custom risk reports.
 - Risk sensitivities to volatility model parameters.
-

CUSTOMIZE TO FIT

Flexible extension and integration capabilities.

- Pricing model API for integrating proprietary models or extending built-in models.
- Volatility model API allows creation of custom volatility models with full volatility management and risk support throughout the entire Orc system.
- Feature-rich integration protocol for external access to export, import or stream data.

1. Market overview and single-click order entry.
2. Post-trade risk and P&L information to support trading.
3. Advanced volatility management capabilities.
4. Perform scenario analysis using pre-defined or custom risk reports.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
