(57) **ABSTRACT**

Data storage and access systems are described for download-  
ing and paying for data such as audio and video data, text,  
software, games and other types of data. A portable data  
carrier has an interface for sending and receiving data, non-  
volatile data memory for storing received content data and  
non-volatile payment validation memory for providing pay-  
ment validation data to an external device. The carrier may  
also store a record of access made to the stored content, and  
content use rules for controlling access to the stored content.  
Preferred embodiments store further access control data and  
supplementary data such as hot links to web sites and/or  
advertising data. A complementary data access terminal, data  
supply computer system and data access device are also  
described. The combination of payment data and stored con-  
tent data and, in preferred embodiments, use rule data, helps  
reduce the risk of unauthorized access to data such as com-  
pressed music and video data, especially over the Internet.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
