Reduce Shrink at the Point of Sale and Across the Enterprise

Quickly Detect, Investigate, and Reduce Shrink

Gain insight about shrink caused by operational and systemic errors, poor promotion execution, and associate fraud. The Point of Sale (POS) Video Auditing with Agilence solution includes:

- Hawkeye POS Auditing Client with a powerful query and analytic engine to quickly and effectively sort through thousands of transactions
- Query builder that can run across a single cashier, store, district, region, or chain
- Video retrieval for analysis with little impact on network load, even across the entire enterprise
- Agilence Live Alerts to automatically detect suspicious activities and to send instant notifications by email, cell phone, or PDA

Improve Retail Loss Prevention

See how video auditing helps you quickly review POS transactions to identify shrink. (5:27 min)

POS Demo at NRF (Video - 5:27 min)

With the Agilence Dynamic Exception Based Reporting (EBR) Integration tool, loss prevention analysts can evaluate hundreds of transactions in a single day.
