DECISION  
Institution of Covered Business Method Patent Review  
*37 C.F.R. § 42.208*

## I. INTRODUCTION

Apple Inc., Fandango, LLC, OpenTable, Inc., Domino's Pizza, Inc., and Domino's Pizza, LLC. ("Petitioner") filed an amended petition (Paper 10, "Pet.") requesting a review under the transitional program for covered business method patents of claims 1-16 of U.S. Patent No. 6,982,733 B1 (Ex. 1033, "the '733 Patent"). Ameranth, Inc. ("Patent Owner") filed a preliminary response (Paper 13, "Prelim. Resp."). The Board has jurisdiction under 35 U.S.C. § 324.<sup>1</sup>

The standard for instituting a covered business method patent review is set forth in 35 U.S.C. § 324(a), which provides as follows:

**THRESHOLD**—The Director may not authorize a post-grant review to be instituted unless the Director determines that the information presented in the petition filed under section 321, if such information is not rebutted, would demonstrate that it is more likely than not that at least 1 of the claims challenged in the petition is unpatentable.

Petitioner challenges the patentability of claims 1-16 of the '733 Patent under 35 U.S.C. §§ 101 and 112. Taking into account Petitioner's evidence and arguments and Patent Owner's preliminary response, we determine that the '733 patent is a covered business method patent and that Petitioner has demonstrated that it is more likely than not that claims 1-16 are directed to non-statutory subject matter and, thus, unpatentable under 35 U.S.C. § 101. Therefore, we institute a covered business method patent

---

<sup>1</sup> See Section 18(a) of the Leahy-Smith America Invents Act, Pub. L. No. 112-29, 125 Stat. 284, 329 (2011) ("AIA").

review for claims 1-16 of the '733 Patent based upon Petitioner's challenge that the claims are unpatentable under § 101.

A. The '733 Patent (Ex. 1033)

The '733 Patent relates to an information management and synchronous communications system and method for generating and transmitting computerized menus for restaurants. Ex. 1033, Abstract. Figure 1 of the '733 Patent is set forth below:

Figure 1 is a schematic representation of the menu display/user interface of the preferred embodiment of the '733 Patent. *Id.* at 5:41-45, 7:25-27. As shown in Figure 1, Graphical User Interface ("GUI") 1 includes menu tree 7, modifiers window 8, and sub-modifiers window 9. *Id.* at 7:44-48. GUI 1 is

used to build a menu on a desktop or other computer. *Id.* at 7:28-29. Menu items are categorized and displayed in a hierarchical manner in menu tree 7. Modifiers (e.g., salad dressing) are shown in modifiers window 8 and sub-modifiers (e.g., Italian dressing, French dressing, Ranch dressing, etc.) are shown in sub-modifiers window 9. Ex. 1033, 7:30-36. Once the menu is built using GUI 1, the menu may be downloaded to a handheld device or Web page. *Id.* at 10:1-9, 11:12-18.

Figure 7 is reproduced below:

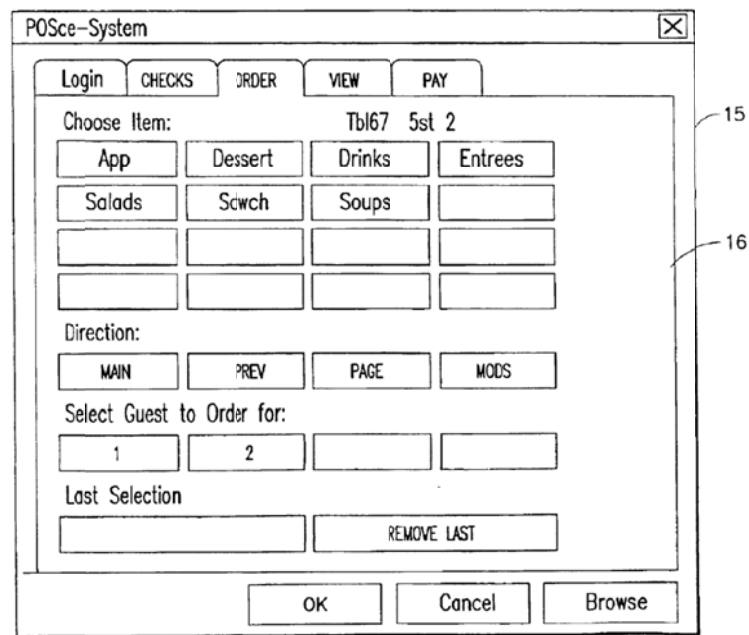

FIG.7

Figure 7 depicts the interface on a typical wireless device used in conformity with the invention of the '733 Patent. *Id.* at 13:2-4. As shown in Figure 7, “the page menu is displayed in a catalogue-like point-and-click format . . . [thereby allowing] a person with little expertise [to] ‘page through’ to complete a transaction with the POS [point of sale] interface and avoid

having to review the entire menu of Fig. 1 to place an order.” *Id.* at 11:34-39. This interface could be shown on a PDA or Web page. *Id.* at 11:40.

Figure 8 is reproduced below:

Figure 8 depicts the handwritten screen according to one embodiment of the '733 Patent. In that embodiment, a server may take a drink order by selecting “Iced Tea” from the menu on the handheld device. Ex. 1033, 4:6-7. As shown in Fig. 8, the server then manually modifies the order by writing “w/ lemon” on the screen on the device. *Id.* at 4:7-9, Fig. 8. The manually modified drink order is then presented to the individual preparing the drinks. *Id.* at 4:9-11.

### *B. Related Matters*

Petitioner identifies the following proceedings in the U.S. District Court for the Southern District of California involving the '733 patent: *Ameranth, Inc. v. Apple Inc.*, No. 3-12-cv-02350; *Ameranth, Inc. v. Fandango, Inc.*, No. 3-12-cv-01651; *Ameranth, Inc. v. Domino's Pizza, LLC et al*, No. 3-12-cv-00733; *Ameranth, Inc. v. OpenTable, Inc.*, No. 3-12-cv-00731; *Ameranth, Inc. v. OpenTable, Inc.*, No. 3-13-cv-01840; *Ameranth,*

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
