HostAlert

Restaurants are all about the details, and one of the most important in terms of profitability is successfully mar
efficient use of tables and seats to maximize guest flow. Despite new technologies and system offerings from
have ever effectively addressed this crucial restaurant issue...until now.

Introducing *HostAlert™*, an unprecedented new management solution from strategic partners JTECH Comm
HostAlert delivers complete flexibility, total functionality, intuitive ease-of-use and welcomed affordability for e

How it Works

HostAlert increases the efficiency and profitability of your restaurant by:

- Putting more people in seats more quickly

- Monitoring and quoting more accurate wait times

- Improving and integrating wait list activity/functionality

- Reducing verbal communications with integrated wireless devices

- Automating seating rotation to utilize wait staff more efficiently

- Implementing quickly and easily with intuitive design and features

What it Can I

Improve your table turns and watch you

- "See" your entire restaurant/multiple room vi

- Easy to use drag & drop "fast seat" shortcut

- Immediate, mobile table status updates

- Monitor quotes vs. actual wait times

- Handle large parties easier
