REASONS FOR ALLOWANCE

Acknowledgements

1. Applicants' amendment filed 22 December 2009 is acknowledged. Accordingly, claims 1-36 remain pending.
2. The following is an Examiner's statement of reasons for allowance:
3. Regarding the claimed terms, the Examiner notes that a "general term must be understood in the context in which the inventor presents it." *In re Glaug* 283 F.3d 1335, 1340, 62 USPQ2d 1151, 1154 (Fed. Cir. 2002). Therefore the Examiner must interpret the claimed terms as found on pages 1-24 of the specification. Clearly almost all the general terms in the claims may have multiple meanings. So where a claim term "is susceptible to various meanings, . . . the inventor's lexicography must prevail . . ." *Id.* Using these definitions for the claims, the claimed invention was not reasonably found in the prior art.
4. The primary reference Anand (U.S. 6,044,466) discloses as previously discussed. Anand however does not teach at least "a meta-right specifying a right that can be created when the meta-right is exercised." Moreover, the missing claimed elements from Anand are not found in a reasonable number of references. Yet even if the missing claimed elements were found in a reasonable number of references, a person of ordinary skill in the art at the time the invention was made would *not* have been motivated to include these missing elements in an embodiment in the Anand disclosure because there is no motivation to create a meta-right when the meta-right is exercised.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
