

# eSpeed's Copying - STATIC

- None of the other changes are especially easy. Ranking from easiest to hardest:
- 1) direction-of-last-trade indicator
  - 2) volume bars, per price
  - 3) visual indication of high/low range by color shading
  - 4) numeric keypad and cell for preparation of a "sticky" default size
  - 5) move own or remaining size to a new price
  - 6) move line dividing buy/sell, rather than move prices; add button to realign to center
- \* \* \* \* \*
