Exhibit F

FORWARD

The specification is substantial enough in size to cultivate it into the a phase with the following highlights:

- All documents are kept online in a compressed format.
- Anyone can download a version, edit it and send it to me. New postings will occur when appropriate.
- Each document is named (and numbered) to appear in alphabetical order for easy access.
- Each document has its own internal numbering system so document changes are kept within each section.
- Ultimately, there will be html versions to review from your browser.

The complete ePIT documentation package comprises:

- DS_00-ePIT-Cover.doc
- DS_01-ePIT-Schedule.doc
- DS_02-ePIT-Summary.doc
- DS_03-ePIT-Goals.doc
- DS_04-ePIT-HowTo.doc
- DS_05-ePIT-ClientUI.doc
- DS_06-ePIT-ServerUI.doc
- DS_07-ePIT-Glossary.doc
- DS_08-ePIT-ATT-News.doc

DOCUMENT SUMMARIES

DS_00-ePIT-Cover.doc

The Cover Documentation comprises:

- Identity
- Version
- Legal notices.

It's relationships to the rest of the document include:

- Source information for header and footer content.

DS_01-ePIT-Schedule.doc

The Schedule Documentation comprises:

- Currently known dates of deliverables.
- Currently known definitions of deliverables.

It's relationships to the rest of the document include:

- This document is revised with each deliverable to reflect the actual delivery and any adjustments for future deliverables.

DS_02-ePIT-Summary.doc

The Summary Documentation comprises:

- An introduction to the ePIT concept.
- An overview of the components required.
- An introduction to the people who will make it happen.

It's relationships to the rest of the document include:

- This serves as an executive summary to the remaining sections of this document. All items expressed in the document should be able to trace back to this section.

DS_03-ePIT-Goals.doc

The Design Goals Documentation comprises:

- General goals for ePIT.
- Goals for fulfilling trader needs.
- How we will address the market.

It's relationships to the rest of the document include:

- Goal line items should trace to an area in the HowTo, ClientUI or ServerUI sections of this documentation.

DS_04-ePIT-HowTo.doc

The How To Documentation comprises:

- Descriptions of the process required to accomplish specific tasks within ePIT.

It's relationships to the rest of the document include:

- Each How To should provide the parent to a goal within the Goals section of this documentation.
- Each How To should trace to a description within the ClientUI or ServerUI sections of this documentation.

DS_05-ePIT-ClientUI.doc

The Client User Interface Documentation comprises:

- A description of a starting point for document content.
- A sequential description of the ePIT screen displays.
- A description of background activties.
- A description of user input options and devices.
- A list of all graphic uses.
- A list of all sound uses.

It's relationships to the rest of the document include:

- Each description should be a child to a goal within the Goals section of this documentation.

- Each description should be a used within the HowTo section of this documentation.
- When appropriate, each description should adequately address its relationship to the ServerUI section of this documentation.

DS_06-ePIT-ServerUI.doc

The Server User Interface Documentation comprises:

- A description of xxx.

It's relationships to the rest of the document include:

- Each description should be a child to a goal within the Goals section of this documentation.
- When appropriate, each description should adequately address its support to the functionality described in the ClientUI section of this documentation.

DS_07-ePIT-Glossary.doc

The Glossary Documentation comprises:

- A list and definitions of commonly used industry terms.
- A list and definitions of ePIT specfic terms.

It's relationships to the rest of the document include:

- Resource for people to refer when encountering an unknown word.

DS_08-ePIT-ATT-News.doc
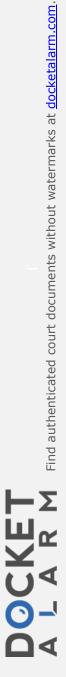

The News Attachement Documentation comprises:

- Articles that may affect our project.

It's relationships to the rest of the document include:

- Our documentation should be able to demonstrate how we will avoid known pitfalls and capitalize on successes.

SCHEDULE

DOCKET ALARM

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.

fastcase®
Smarter legal research.
