1 running on the same virtual machine that we were 02:58
2 using at that period of time to know whether the 02:58
3 functionality was there. 02:58

4 Q. What machine environment would you have 02:58
5 been running it in? 02:58

6 A. Which virtual machine environment? 02:58

7 Q. Yeah. 02:59

8 A. I don't quite know what the question is. 02:59

9 Q. Well, I'm not sure I understand your 02:59
10 issue, and I'm trying to figure it out as we go 02:59
11 through here. 02:59

12 A. Okay. 02:59

13 Q. Was this software when you wrote it 02:59
14 designed to run on a PC that was operating under 02:59
15 Windows 98? 02:59

16 A. No. It was designed to run under Java, 02:59
17 and Java as a language, as an operating environment, 02:59
18 would run under Windows, would run on a Unix machine, 02:59
19 would run on Macintosh, would run whatever. 02:59

20 The physical hardware made no difference 02:59
21 as long as the environment was there and was 02:59
22 supported by Java, by the Java virtual machine. 02:59

23 Q. Okay. Can you minimize the priority field 03:00
24 of the whole -- of the IBC window? 03:00

25 A. Uh-huh (yes). 03:00

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
