

DECLARATION OF WAYNE YURTIN
IN SUPPORT OF PETITION FOR COVERED BUSINESS METHOD
REVIEW OF U.S. PATENT NOS. 6,384,850 C1

UNITED STATES PATENT AND TRADEMARK OFFICE

BEFORE THE PATENT TRIAL AND APPEAL BOARD

STARBUCKS CORPORATION
Petitioner

v.

AMERANTH, INC.
Patent Owner

CASE: To Be Assigned
Patent No. 6,384,850 B1

**DECLARATION OF WAYNE YURTIN
IN SUPPORT OF PETITION FOR COVERED BUSINESS METHOD
PATENT REVIEW OF U.S. PATENT NO. 6,384,850 C1**

I, Wayne Yurtin, declare under penalty of perjury that:

1. I have been engaged by Starbucks Corp. (“Starbucks”) as a consultant in connection with Starbucks’ Petitions for Covered Business Method Patent Reviews of U.S. Patent Nos. 6,384,850 and 6,871,325.

2. I am being compensated at my standard rate of \$425 per hour for preparing this Declaration. The compensation is not contingent on my performance, the outcome of the covered business method patent reviews or any other proceedings, or any issues involved in or related to the covered business method patent reviews.

I. BACKGROUND AND EXPERIENCE

3. I have a B.S. in Computer Science from Cal Poly, San Luis Obispo and an MBA from San Jose State University.

4. Starting in 1985, I worked as a software engineer in Apple’s Computer Integrated Manufacturing (CIM) group at the factory where Apple built the first Macintosh computers. Later, I moved to Apple’s system integration team where I led custom developed software projects for Fortune 500 clients such as BellSouth Cellular, Merck Pharmaceuticals, and Motorola.

5. In 1993, I co-founded AllPen Software, Inc., a company focused on software technology for mobile and wireless devices.

6. Between 1993 and 1997, AllPen worked on numerous custom software projects for clients such as American Airlines, Daimler Benz, and Johnson & Johnson.

7. AllPen also developed the NetHopper mobile web browser, as discussed below.

8. In November 1997, AllPen was acquired by Spyglass, Inc.

9. Following Spyglass's acquisition of AllPen, I joined Spyglass and led their professional services activities focused on the mobile device and interactive TV industry.

10. In 2001, I started Rocket Mobile, a company which focused on multimedia and messaging software for mobile handsets.

11. In 2006, Rocket Mobile was acquired by Buongiorno S.p.A., a public company based in Italy, focused on mobile apps and content.

12. Following Buongiorno's acquisition of Rocket Mobile, I led Buongiorno's U.S. organization for several years.

13. In 2011, I started Screaming Velocity, Inc. I am presently the President and CEO of Screaming Velocity Inc.

14. Screaming Velocity, Inc. is a software technology company that has developed licensable recommendation technology for the linear TV and video-on-demand (VOD) marketplace.

II. THE NETHOPPER VERSION 3.2 USER'S MANUAL

15. AllPen developed a mobile web browser called NetHopper and AllPen began selling it to the public in the first quarter of 1996.

16. In 1996, Apple licensed NetHopper so that it could be pre-installed on Apple's Newton MessagePad handheld computing devices.

17. Between 1995 and 1997, several versions of NetHopper were released.

18. Version 3.2 of NetHopper was released in 1997. This version was pre-installed on Apple Newton MessagePad 2100 devices which Apple began to sell in the Fall of 1997.

19. The NetHopper Version 3.2 User's Manual came pre-installed on the Apple Newton MessagePad 2100 devices, sold to consumers by Apple. A printed copy of the manual was also physically included in the Apple Newton MessagePad 2100 box, along with Apple's manual for the device.

20. In addition to providing NetHopper preloaded on Apple Newton devices, AllPen Software sold NetHopper directly to consumers, and included the user manual in those sales.

21. I have examined Appendix A to my declaration and I confirm this is a true and correct copy of the NetHopper Version 3.2 User's Manual that was made publicly available in the Fall of 1997. I am sure of this because I am one of the

REVIEW OF U.S. PATENT NOS. 6,384,850 C1

authors of this manual that was drafted in late 1996 and 1997. As co-founder of AllPen Software, I was responsible for all product management surrounding the NetHopper product line, including the content and release of user manuals.

22. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001.

23. I declare under penalty of perjury that the foregoing is true and correct.

Executed on 27th day of FEB. 2015 in SAN JOSE, CA.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
