Case CBM2016-00009  
U.S. Patent No. 7,685,055

---

**PATENT OWNER'S OBJECTIONS TO PETITIONERS'  
DEMONSTRATIVE EXHIBITS**

After meeting and conferring in good faith, the parties were unable to resolve certain objections to the parties' demonstrative exhibits. Accordingly, pursuant to the Board's order dated December 21, 2016 (Paper 58), Patent Owner files the following objections to slides 26 and 28 for the Board's consideration:

**I. SLIDE 26**

This slide should not be allowed because it raises new arguments not set forth in the Petition, or relied on by the Board in its Institution Decision, and not properly part of the record.

**Claim 1 is obvious over TSE**

**TSE's compressed, scrolling mode is also static.**

Reply, pp. 19-20.

26

## II. SLIDE 28

This slide should not be allowed because it raises new arguments not set forth in the Petition, or relied on by the Board in its Institution Decision, and not properly part of the record.

**Claim 1 is obvious over TSE**

**TSE teaches the disputed limitations even under TT's flawed theories—transitioning TSE's display from non-compressed, boardx4 to non-compressed, boardx2.**

Reply, pp. 23-25.
