JUDGMENT

Termination of Proceeding

*37 C.F.R. § 42.73*

On July 19, 2013, the parties filed a joint motion to terminate this *inter partes* review with respect to the petitioner (“Oracle”). (Paper 18.) With the joint motion, the parties filed a copy of their written settlement agreement covering Patent 7,254,621 involved in this *inter partes* review. (Paper 20.) The parties also filed, on July 19, 2013, a joint request to have their settlement agreement treated as confidential business information under 35 U.S.C. § 317(b) and 37 C.F.R. § 42.74(c). (Paper 19.)

Under 35 U.S.C. § 317(a), “[a]n *inter partes* review instituted under this chapter shall be terminated with respect to any petitioner upon the joint request of the petitioner and patent owner, unless the Office has decided the merits of the proceeding before the request for termination is filed.” The requirement for terminating review with respect to Oracle is met.

Under 35 U.S.C. § 317(a), “If no petitioner remains in the *inter partes* review, the Office may terminate the review or proceed to a final written decision under section 318(a).” Oracle is the sole petitioner in this review. The Board has discretion to terminate this review with respect to the patent owner (“Clouding”).

Clouding has not yet filed its Patent Owner Response or any Motion to Amend Claims. Oracle represents that it will no longer participate even if the Board does not terminate this review. That means Oracle will not file a reply to any Patent Owner Response or an opposition to any Motion to Amend Claims. Oracle also will not be conducting any cross examination of Clouding's witnesses.

In a telephone conference call conducted on July 11, 2013, counsel for the parties represented that they will move to dismiss related district court litigation between the parties and involving Patent 7,254,621. The Board asked the parties to indicate in their joint motion to terminate proceeding whether there will be codefendants remaining in such related litigation. The joint motion indicates none.

\*2 The joint motion identifies other related litigation involving Patent 7,254,621 but not Oracle. The defendants in such other related litigation have not filed a petition for *inter partes* review of Patent 7,254,621. There is no pending motion by any third party for joinder with this *inter partes* review.

The Board determines that in the circumstances of this case it is appropriate to terminate review both as to petitioner Oracle and patent owner Clouding without rendering a final written decision *See* 35 U.S.C. § 317(a); 37 C.F.R. § 42.72.

It is

**ORDERED** that the joint motion to terminate IPR2013-00088 is GRANTED, and this *inter partes* review is hereby terminated as to all parties including petitioner Oracle and patent owner Clouding; and

**FURTHER ORDERED** that the parties's joint request to have their settlement agreement treated as business confidential information under the 35 U.S.C. § 317(b) and 37 C.F.R. § 42.74(c) is also GRANTED.
