(57) **ABSTRACT**

An electronic picture frame receives a removable flash memory card, or related non-volatile digital recording medium, which exist at miniature scale, having stored images, audio and data and includes means for displaying, arraying, fixing, and generally enjoying same in the traditional modes by which photographic images have been known and cherished over time. Economic efficiency dictates the structure and network and system software are likewise compatible, providing apparatus effective for automatic cycling of digital still photographs, and for use in combination with local area networks. However, the electronic frame functions as a free standing unit and may be used without the need or complex or high technology interfacing assistance. A process for displaying digital still photographs stored on known non-volatile digital storage media is likewise taught.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
