### Warnings

Because software controls machinery, test any software control for safety under all potential operating conditions. Failure to do so can result in damage to equipment and/or serious injury to personnel.

### Limited Warranty

Compumotor warrants that the software will perform substantially in accordance with the accompanying material for a period of ninety (90) days from the date of receipt. Any implied warranties on the software are limited to ninety days. Some states do not allow limitations on duration of an implied warranty, so the above limitation may not apply to you.

Compumotor's entire liability and your exclusive remedy shall be at Compumotor's option, either (a) return the price paid or (b) replacement of the software that does not meet Compumotor's Limited Warranty and that is returned to Compumotor with a copy of your receipt. This limited warranty is void if failure of the software has resulted from accident, abuse, or misapplication. Any replacement of software will be warranted for the remainder of the original warranty period or thirty (30) days, whichever is longer.

Compumotor disclaims all other warranties, either expressed or implied, including but not limited to implied warranties of merchantability and fitness for a particular purpose, with respect to the software and the accompanying written materials. This limited warranty gives you specific legal rights. You may have others which vary from state to state.

In no event shall Compumotor or its suppliers or distributors be liable for any damages whatsoever (including, without limitation, damages for loss of business profits, business interruption, loss of business information, or other pecuniary loss) arising out of the use or inability to use this Compumotor product, even if Compumotor has been advised of the possibility of such damages. Because some states do not allow the exclusion of limitation for liability for consequential or incidental damages, the above limitation may not apply to you.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
