Case IPR2013-00112  
Patent 5,779,334

---

Before JEFFREY B. ROBERTSON, *Administrative Patent Judge*.

**ORDER**  
**(Regarding Conference Call)**

A conference call was held on January 17, 2013 involving:

1. David L. McCombs and Thomas Kelton, counsel for Petitioner,
2. Michael P. Tierney and Jeffrey Robertson, Administrative Patent Judges.

Case IPR2013-00112  
Patent 5,779,334

The purpose of the conference call was to discuss defects in the petition. The Board explained the defects in the petition and discussed with counsel whether the defects needed to be corrected. In particular, the Board explained that the petition contained defective claim charts. Specifically, the claim charts contained analysis, which goes beyond the process of identifying key features of a claim and comparing those features with specific evidence.

The Board informed counsel that it would exercise its discretion and stated that no notice requiring correction will be issued with respect to this petition. Accordingly, the Board will consider the petition as filed.
