

**DECLARATION OF NOAH SHARKAN**

1. I am currently employed as an attorney at the law firm of Design IP, A Professional Corporation.

2. I took the digital photographs of the Summer 2000 Sweet's CD and packaging attached hereto. These photographs accurately depict the appearance of the Summer 2000 Sweet's CD and its packaging.

3. I installed a copy of the Summer 2000 Sweet's CD on a personal computer running the Windows 7 operating system and prepared the attached shapshot images of screens generated by the application. Each of the attached snapshots accurately depict the appearance of the application screen at the point at which each respective snapshot was taken.

*I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code.*

**Welcome to the Summer 2000 Edition of Sweet's CD**

Sweet's CD is the fast, easy-to-use electronic version of Sweet's. With Microsoft Windows 95, 98 or NT, Internet Explorer (IE) and Sweet's CD you can find all the data you need on any product in a single search. Right from your desktop. Whether you are looking for product features and benefits, 3-Part Specs, or CAD Library details, you'll quickly find the data you need to make smart product selection, specification and purchasing decisions. When a decision is made, you can immediately save the information to a Project File or export color photos, line drawings, three-part specifications and other technical data into your project documents. You can even insert CAD Library details directly into AutoCAD drawings.

**Sweet's CD's easy-to-use interface includes:**

- Tree-control browse navigation
- Powerful search capabilities that let you search by specific product characteristics.
- Auto-launch of AutoCAD 14, 2000 or LT 97 or 98.
- Direct insertion of CAD Library details into existing AutoCAD drawings.
- Self-Training quick-clips show you how to best use Sweet's CD's special features.
- Direct links to [sweets.com](http://sweets.com) and manufacturer web sites

Sweet's CD provides quick access to the most accurate, up-to-date product information available. Plus everything is cross-referenced by Sweet's Catalog Files and Sweet's BuyLine. You can also link directly to our Web site [sweets.com](http://sweets.com) for the absolute latest information.

And while you're there, drop us e-mail and let us know what you think!

**Save time with CAD Library details!**

- Sweet's CD offers you a unique set of time-saving features:
- Select and view multiple details.
  - Pan, rotate and zoom in on any detail.
  - Insert details directly into AutoCAD drawings.
  - Utilize multiple layering conventions.

**Use with the AutoCAD software of your choice!**

- Type "Sweets" on the command line to place Sweet's icons on the toolbar.
- Open an existing drawing.
- Click on the Sweet's button. This button will launch Sweet's CD or take you to Sweet's CD if it is running in the background.
- After you locate the CAD Library detail you're after, click on the Insert button to switch to the open AutoCAD drawing. Then simply select an insertion point.

(If AutoCAD is not running in the background the Insert button will launch the pre-selected version AutoCAD and you will be prompted for an insertion point within the default drawing.)

**Sweet's CD is a three-disc set including:**

- Installation Disc
- Content Disc 1 of 2
- Content Disc 2 of 2

### Installation Instructions for Sweet's CD

The Sweet's CD installation routine must be run for proper operation. You may cancel at any time during the course of the install. Before installing Sweet's CD, first close all Windows applications that are running, including anti-virus software. As part of the install, setup will search your system for Windows IE 4.01-Service Pack (SP) 1 or higher, and AutoCAD software.

1. Insert Sweet's CD Installation Disk into your CD-ROM drive.
2. Select RUN from the Windows 95/98/NT Start menu.
3. In the dialog box, type D:\setup. Click OK. (Use the appropriate drive letter if "D" is not correct.)
4. Follow the on-screen instructions, which will include your approval of the Sweet's Licensing Agreement. Applications will be installed in the following sequence:

- IE 5.0, if IE 4.01 SP 1 is not already present
- System will reboot if IE 5.0 was installed
- Sweet's CD

During the Sweet's CD installation process you may pre-select a compatible version of AutoCAD software you wish to utilize when using the Direct Insertion capability. You must have run your AutoCAD software at least once prior to installing Sweet's CD in order for this capability to work.

#### System Requirements:

Sweet's CD requires a system with Windows 95, 98 or Windows NT 4.0 and Microsoft IE 4.01-SP1. Other minimum system requirements include Pentium I processor, 32 Mb Ram, 30Mb hard-drive space and 2x CD-ROM drive.

#### Save time with CAD Library

Sweet's CD offers you a unique:

- Select and view multiple details
- Pan, rotate and zoom in on any detail
- Insert details directly into AutoCAD
- Utilize multiple layering conversion

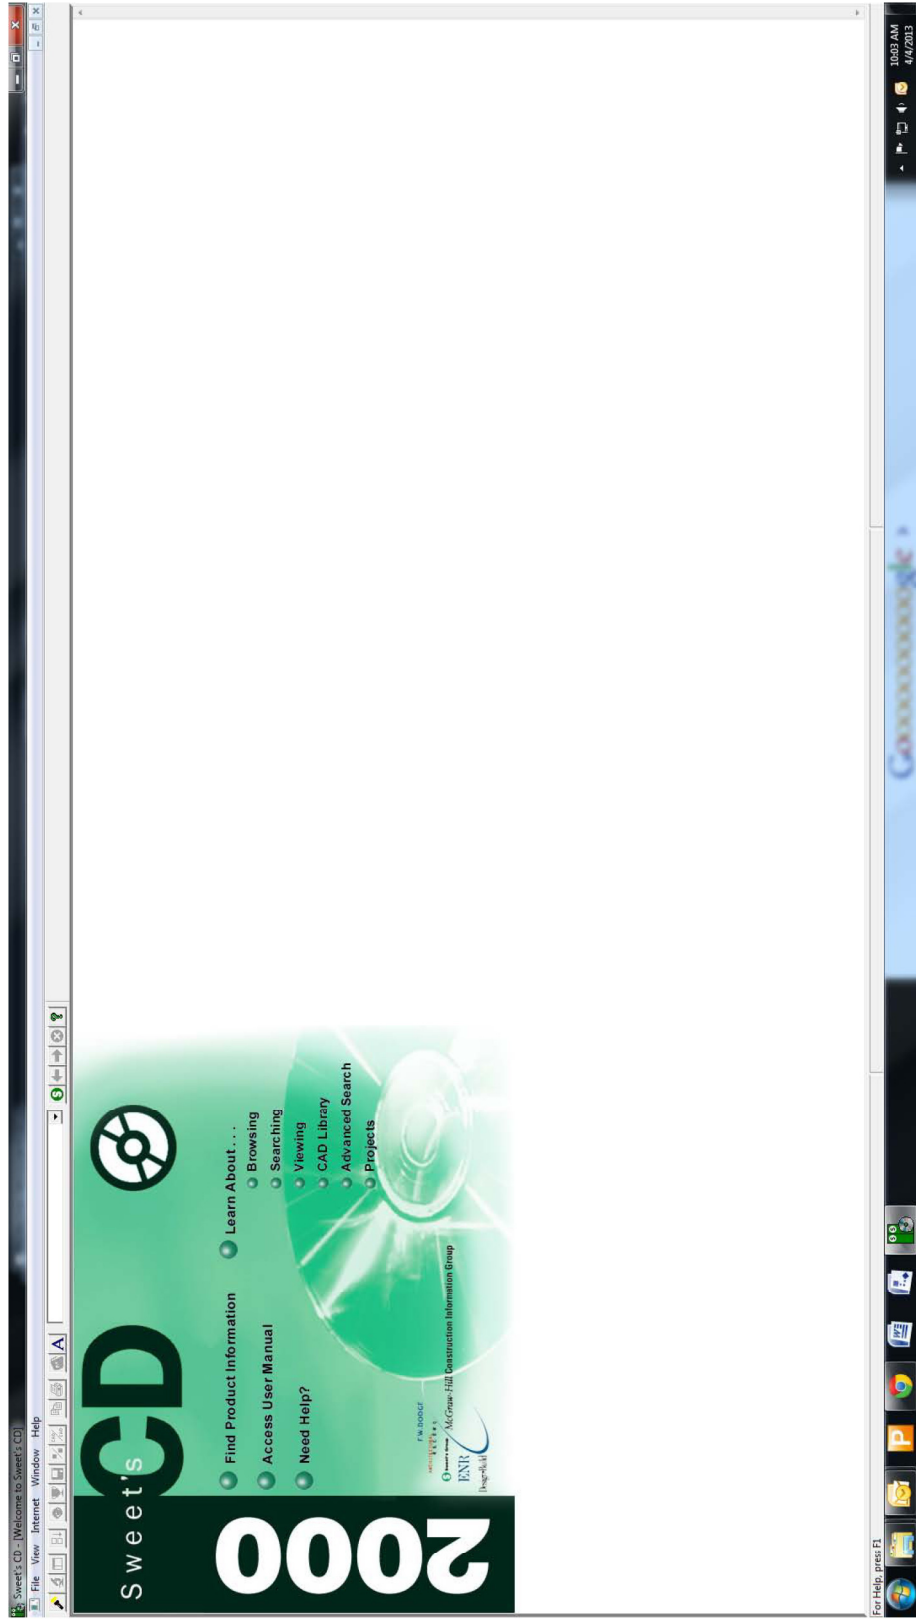

#### Use with the AutoCAD software

- Type "Sweet's" on the command line
- Open an existing drawing.
- Click on the Sweet's button, then Sweet's CD if it is running in the background.
- After you locate the CAD Library, click on the Sweet's button to switch to the open AutoCAD software.

(If AutoCAD is not running in the background, you must first open a pre-selected version AutoCAD software within the default drawing.)

#### Sweet's CD is a three-disc set

- Installation Disc
- Content Disc 1 of 2
- Content Disc 2 of 2

Description

**Sweet's Group**

**ATAS International, Inc.**

**Corporate Headquarters:**  
 Allentown, PA 18106  
 Phone: (610) 395-8445  
 Fax: (610) 395-8342  
 Web site: <http://www.atas.com>  
 E-mail: [info@atas.com](mailto:info@atas.com)

**Western Facility:**  
 San Diego, CA 92102  
 Phone: (619) 262-9911  
 Fax: (619) 262-9914

**Southern Facility:**  
 Maryville, TN 37801  
 (800) 468-1441

ATAS International, Inc. is a leading manufacturer of metal roofing, wall panels and ceiling systems. Manufacturing over fifteen families of products in eleven gauges of metal, ranging from .032 to .063 aluminum, 22 to 28 gauge steel, 16 & 20 oz. copper and zinc, ATAS International, Inc. offers the broadest selection of metal building panels and components in the industry. Standard, as well as, custom trims, flashings and rainware components are also fabricated.

Headquartered in Allentown, Pennsylvania, ATAS International, Inc. has two state-of-the-art manufacturing facilities. Between the Allentown, PA and San Diego, CA facilities, ATAS operates over thirty computerized rollformers, three shears, five brakes, embossers, tension leveling, cut-to-length and panel nesting lines. Continuous quality control measures assure customers of strict adherence to product excellence, and the extensive in-house inventory results in rapid order generation.

**Sales**

A national team of technical service advisors and in-house customer service personnel are qualified to answer your project questions and offer you practical solutions. Our experienced staff is available to assist with the design and development of a project. From CAD generated shop drawings and estimating services to detailed installation manuals and instructional seminars, ATAS endeavors to provide architects and specifiers with the necessary support to insure that the finished project meets their expectations and specifications. Further, a national network of qualified distributors is also available to service you.

**Selection**

Carrying an inventory of over six million pounds of pre-painted coil stock, ATAS has a color to meet your design expectations. Twenty-seven (27) standard colors in a high performance, Kynar 500® or Hylar 5000® based, finish are backed by a twenty-year limited warranty. If a non-standard color is requested, it can be provided, subject to availability, order size and extended lead-time. ATAS also carries touch-up paint for each color.

In addition to manufacturing metal panels for roofs, mansards, walls and ceilings, ATAS also provides the following:

- ATAS International, Inc.
- Architectural Metal Roof Systems
- DUTCH SEAM - Standing Seam Metal Panel
- Field-Lok - Standing Seam Roof System
- Monarch Panels - Batten and Step Seam Roof Panels
- PC System - Roof Panel System
- CASTLETOP - Diamond Shaped Metal Shingle
- PermaShake - Metal Shingle
- Standing Seam Shingle - Metal Shingle
- Granulite - Metal Roof Tile
- Scanlon - Metal Roof Tile
- Reclio Tile - Metal Roof Tile
- Reclio Tile - Metal Roofing
- Metal Wall Systems
- Balckside - Wall Panels
- Design System - Wall Panel System
- Metrol and Arc-Metrol - Wall and Curved Panel Systems
- Multi-Purpose Panel
- Opaline - Panel System
- Architectural Metal Accents
- Curved and Tapered Systems
- Column Covers
- Equipment Screens
- Soffit - WIND-LOK and Multi-Purpose Soffit Panels
- Linear Ceilings
- Gutters and Rainware
- Roof Perimeter Flashing
- Ventilation
- Framing

*Please refer to our "DUTCH SEAM - Standing Seam Metal Panel" profile and click on the CAD Library button for CAD Installation Details that might be applicable. Call ATAS directly if there are any questions in this regard.*

**Product Presentation**

Multi-Purpose panels with the Wind-Lok™ application have a smooth, sleek appearance with a concealed clipless fastening system. These panels are typically used for siding, fascias, mansards and equipment screens.

**Sizes and Profiles:**

Four 8 wide panels, seven 12 wide panels and six 16 wide panels are available. The semi-standing seam (NPN code), the batten style (MPV code) and the plank or barn board (MPH code) give completely different appearances. A slight "V" in the MPH series gives another variation in style (MPV code). Panel lengths are cut to customer specifications.

**Composition and Materials:**

Panels are roll-formed from .032 or .040 Aluminum or 24 gauge G90 galvanized Steel. Twenty-two gauge steel (select colors only).

**Color and Finish:**

A choice of 27 colors is available in a Kynar 500® or Hylar 5000® based finish. (Request color chart or chips.) An modified finish is available in clear or bronze.
