DECISION
Patent Owner's Motions to Correct
37 C.F.R. § 42.7

¹ Case IPR2013-00469 has been joined with Case IPR2013-00468. This Decision addresses issues pertaining to all four cases. Therefore, we exercise our discretion to issue one Decision to be filed in each case. The parties are not authorized to use this style heading for any subsequent papers.

Case IPR2013-00431, Case IPR2013-00449, Case IPR2013-00451,
Case IPR2013-00468

Patent Owner filed a motion in each of Cases IPR2013-00431 (Paper 36), IPR2013-00449 (Paper 35), IPR2013-00451 (Paper 39), and IPR2013-00468 (Paper 38) seeking to correct Patent Owner's response in each proceeding. In the motions, Patent Owner states that the responses contain two clerical errors: incorrect citations to Case IPR2014-00488, rather than Case IPR2014-00436, and an incorrect Table of Contents and Table of Authorities. Patent Owner submitted corrected responses with the motions, and requests that the corrected responses be entered and the original versions expunged. Petitioner does not oppose the motions. Under the circumstances, we are persuaded that the errors were clerical in nature and that it would be appropriate to allow their correction.

In consideration of the foregoing, it is hereby:

ORDERED that Patent Owner's motions to correct are *granted*;

FURTHER ORDERED that Patent Owner's corrected responses are entered into the record of the respective proceedings: IPR2013-00431 (Paper 37), IPR2013-00449 (Paper 36), IPR2013-00451 (Paper 40), and IPR2013-00468 (Paper 39); and

FURTHER ORDERED that Patent Owner's original responses are expunged from the record of the respective proceedings: IPR2013-00431 (Paper 34), IPR2013-00449 (Paper 33), IPR2013-00451 (Paper 37), and IPR2013-00468 (Paper 36).
