1 THE VIDEOGRAPHER: This begins Volume  
2 2 in the deposition of Paul Jacobs. The witness  
3 has been previously sworn in. We're going on  
4 record at 9:06 a.m.

5 CROSS EXAMINATION (Cont'd)

6 BY MR. SILBERT:

7 Q. Good morning, Dr. Jacobs.

8 MR. SILBERT: I'm going to ask the  
9 court reporter to mark this document as Exhibit  
10 1036.

11 (Petitioner's Deposition Exhibit No.  
12 1036, a document titled Text-Based Intelligence  
13 Systems, was marked.)

14 BY MR. SILBERT:

15 Q. And, Dr. Jacobs, please review Exhibit  
16 1036 as much as you'd like, but my question,  
17 when you're through reviewing it is, do you  
18 recognize this exhibit as a copy of the book  
19 that you edited, titled Text-Based Intelligence  
20 Systems? And then the subtitle is, Current  
21 Research and Practice in Information Extraction  
22 and Retrieval.

23 A. Yes. I haven't reviewed the whole  
24 thing, but -- but, yes, I recognize it.

25 Q. Okay. Could I ask you to please

VERITEXT NATIONAL COURT REPORTING COMPANY

1 -- well, strike that.

2 This book was published in 1992,  
3 correct?

4 A. That's the -- that's the copyright  
5 date on the copyright page. I'm not sure if  
6 that actually means, necessarily, that it was  
7 published in that year, but -- but that's the  
8 copyright date.

9 Q. Do you know when it was published?

10 A. No. I'm not certain. And the reason  
11 I'm not certain whether it's 1991 or 1992 is,  
12 it's possible that it actually went to press in  
13 1991, with a 1992 copyright date.

14 Q. If it was -- if it went to press in  
15 1992, do you know the month in 1992 that it went  
16 to press?

17 A. I -- I don't recall. That was 22  
18 years ago, and I really don't recall exactly  
19 which month it would have been.

20 Q. The book collects papers that were  
21 presented at a symposium in 1990; is that  
22 correct?

23 A. I recall that this book was based  
24 on a AAI symposium that I chaired, that I  
25 believe was in the AAI spring symposium series.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
