Google Product Philosophy and Strategy

Jonathan Rosenberg
SVP, Product Management

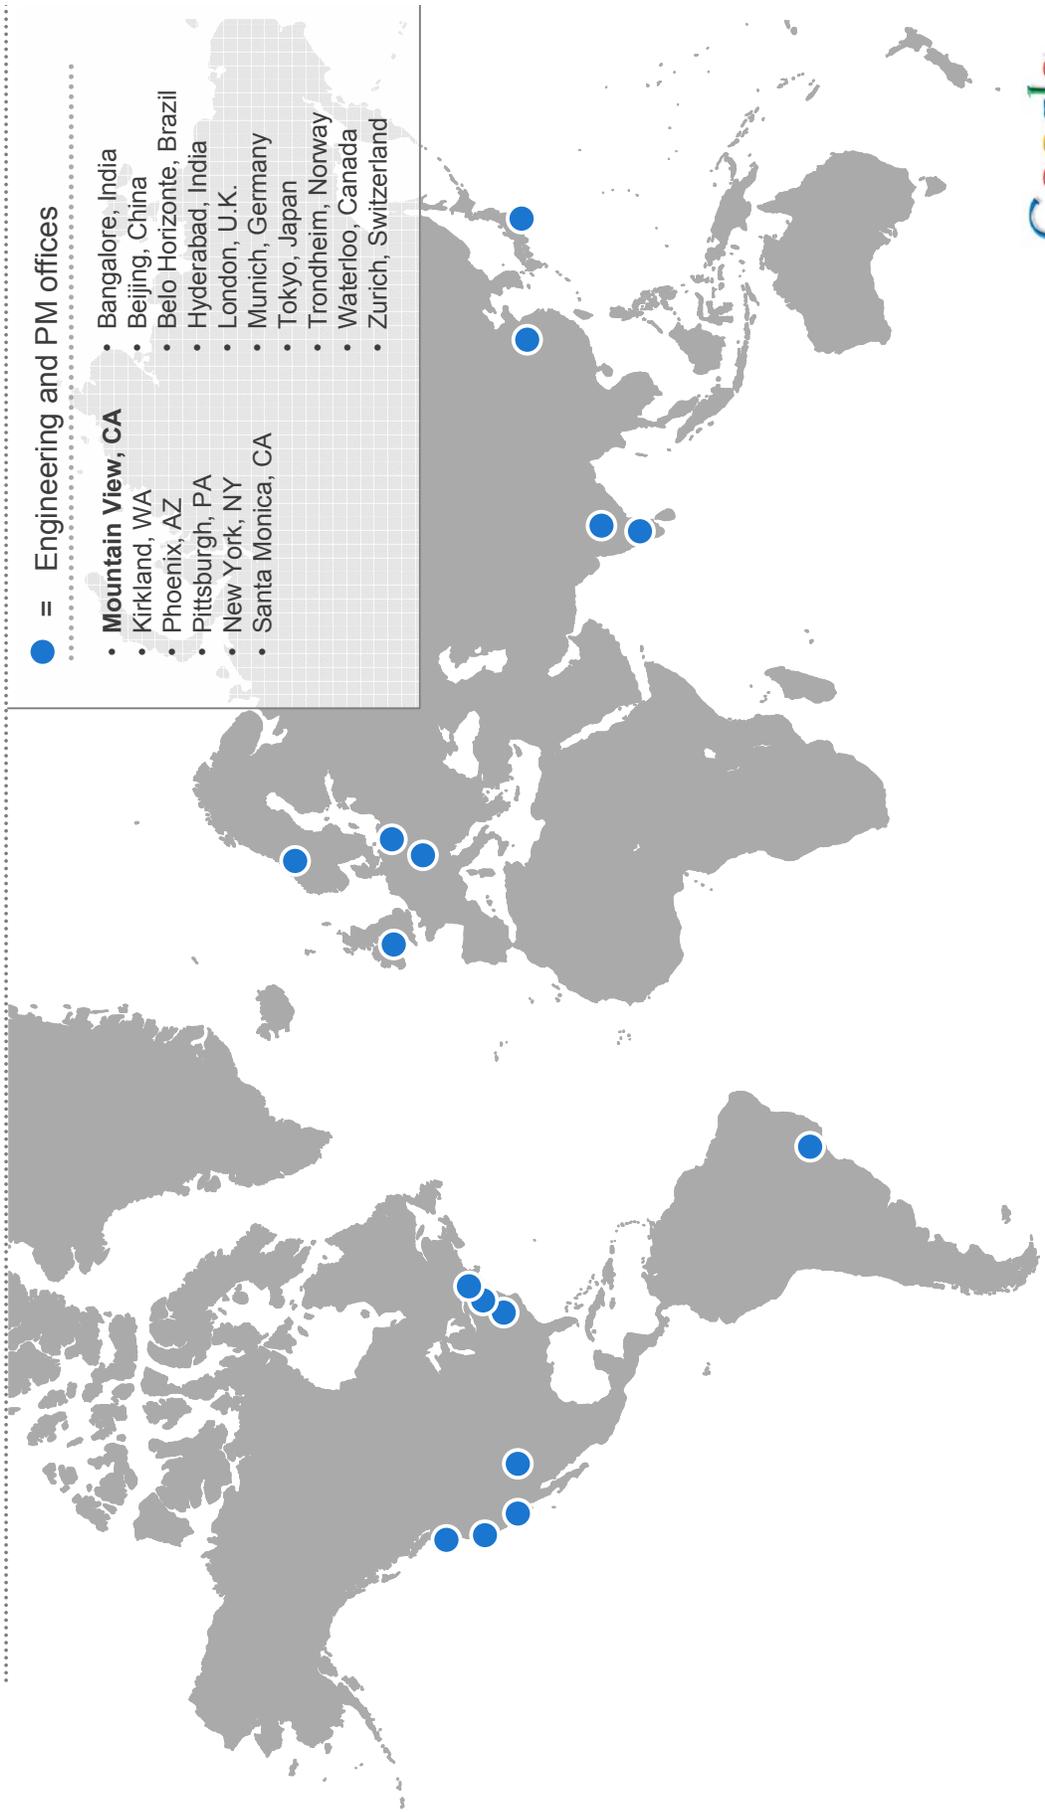

A Note From Our Lawyers

- The following presentation includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements include statements regarding our future financial position and business strategy, our plans and objectives for future operations, and our expectations regarding the future growth of the Internet advertising market.
- These forward-looking statements are subject to certain risks and uncertainties that could cause our actual results to differ materially from those reflected in the forward-looking statements. Many of the factors that could cause or contribute to such differences are described in the “Risk Factors” section of our most recent 10-K and 10-Q filed with the SEC, including:
 - competition that we face from web search providers, Internet advertising companies, destination web sites and traditional media companies,
 - our expectations regarding revenue growth rates and operating margins, and
 - our ability to successfully innovate and provide new products and services to our users, advertisers and Google Network members.
- In light of these risks and uncertainties, the forward-looking statements included in this presentation may not occur, and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements.

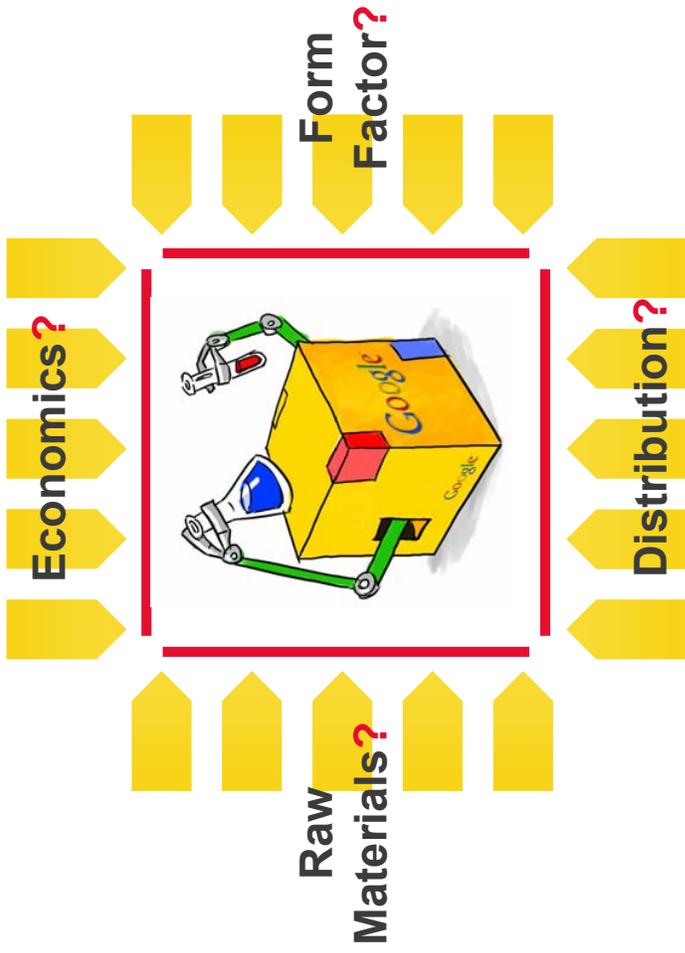

Google Product Development Around The World

Traditional Approach To Products

Traditional Constraints

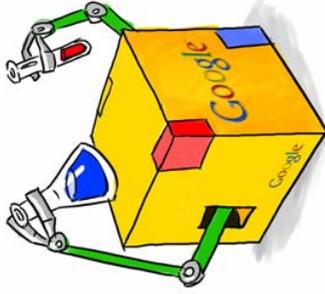

Our Approach To Products

Philosophy: No constraints

Initially ignore:

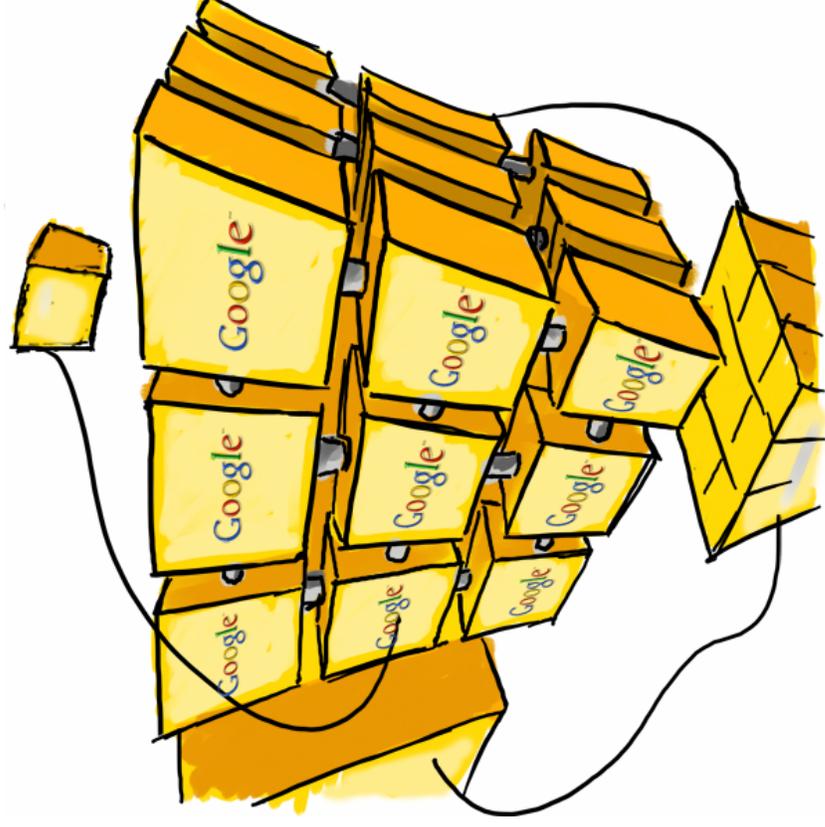

- CPU power
- Storage
- Bandwidth
- Monetization

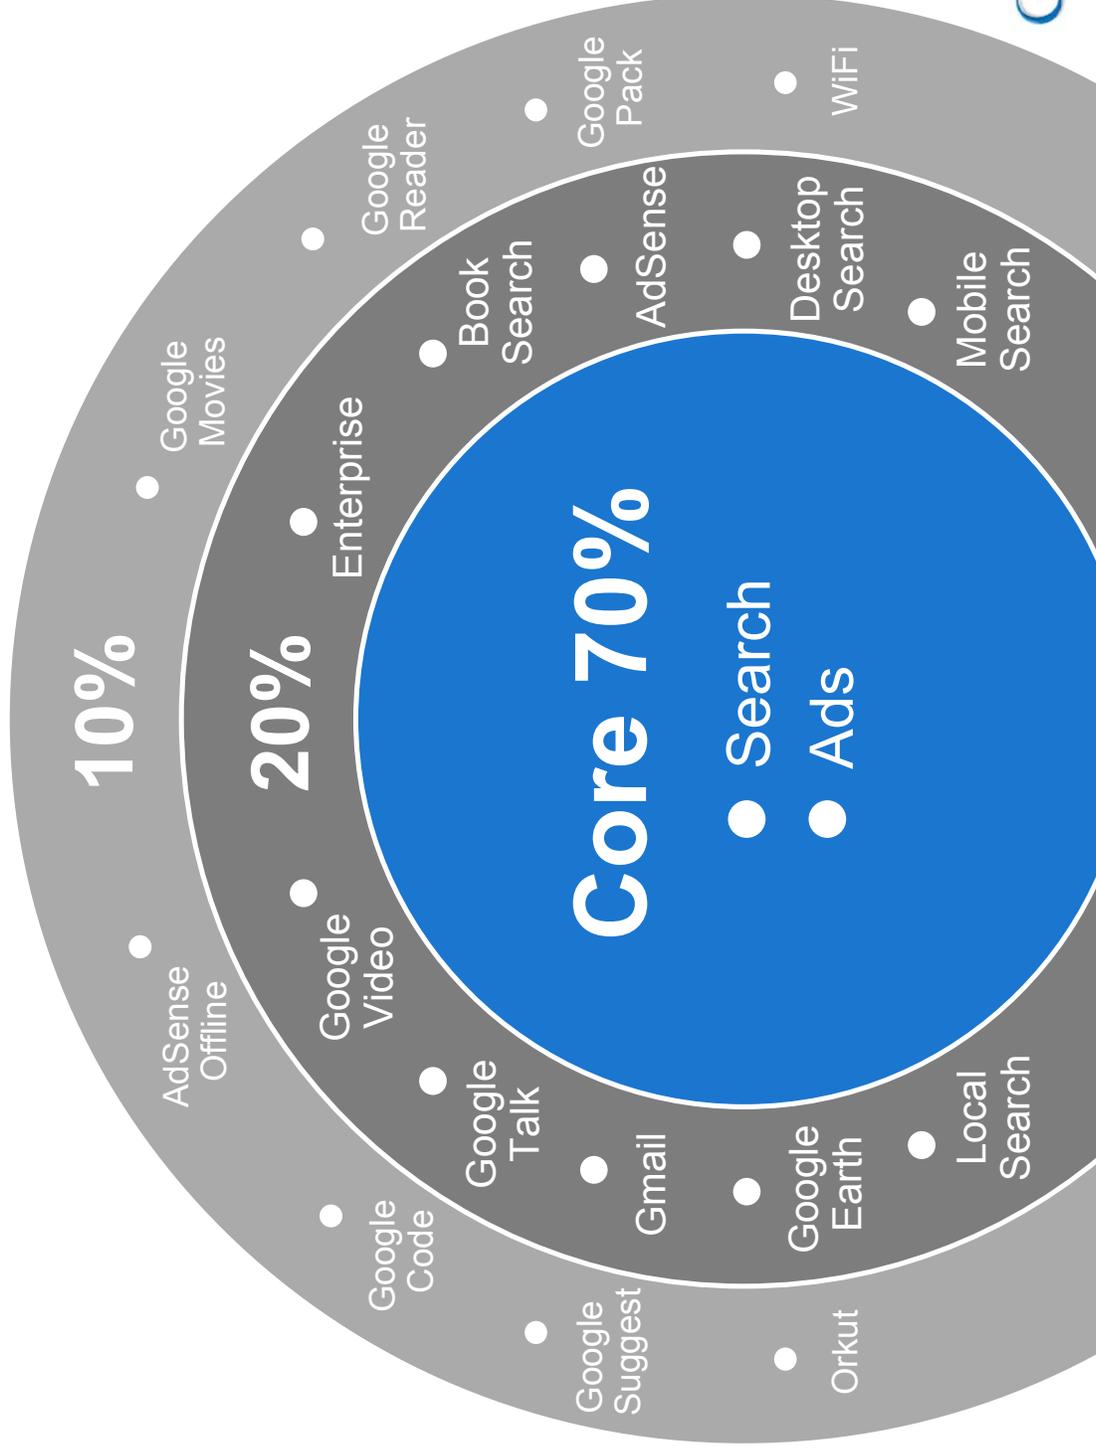

Our Approach To Problems

- Focus on the user and the revenues will follow
- You can make money without being evil
- Fast is better than slow
- There's always more information out there
- You don't need to be at your desk to need an answer

Common Thread? Scale.

70-20-10 Product Framework

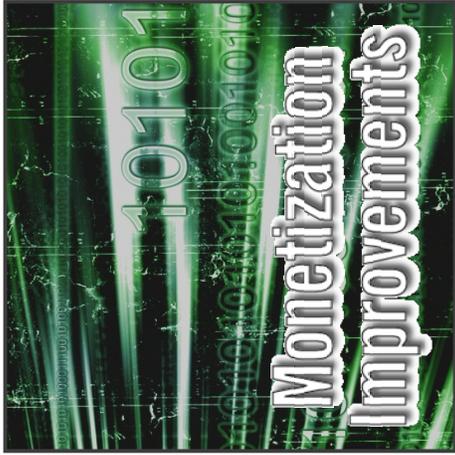

Continual Focus: Core Search Examples

Continual Focus: Ads Examples and Insights

$$\text{Revenue} = \text{Users} * \frac{\text{Queries}}{\text{User}} * \frac{\text{Ads}}{\text{Query}} * \frac{\text{Clicks}}{\text{Ads}} * \frac{\text{Revenue}}{\text{Click}}$$

Ads In Google Earth

Analyst Day 2006

Analyst Day 2006

George Reyes
Chief Financial Officer

A Note from our Lawyers

- The following presentation includes forward-looking statements. These forward-looking statements include statements regarding the seasonality of our business, our expected levels of capital expenditures, the growth of our international operations, headcount and operating expenditures, expected stock dilution, and the sources of our future growth.
- These forward-looking statements are subject to certain risks and uncertainties that could cause our actual results to differ materially from those reflected in the forward-looking statements. Many of the factors that could cause or contribute to such differences are described in the "Risk Factors" section of our most recent 10-K and 10-Q filed with the SEC.
- In addition, we are discussing three non-GAAP financial measures - non-GAAP operating income, non-GAAP operating expenses and free cash flow - in the attached presentation. This financial information is not intended to be considered in isolation or as a substitute for financial information prepared and presented in accordance with GAAP. For more information on these non-GAAP financial measures, please see the document entitled "CFO Presentation – Non-GAAP Financials" which has been made available on the "Investor Relations" section of our corporate web site next to the link to the webcast of this presentation. The tables provided in this document have more details on the GAAP financial measures that are most directly comparable to these non-GAAP financial measures and the related reconciliations between these financial measures.

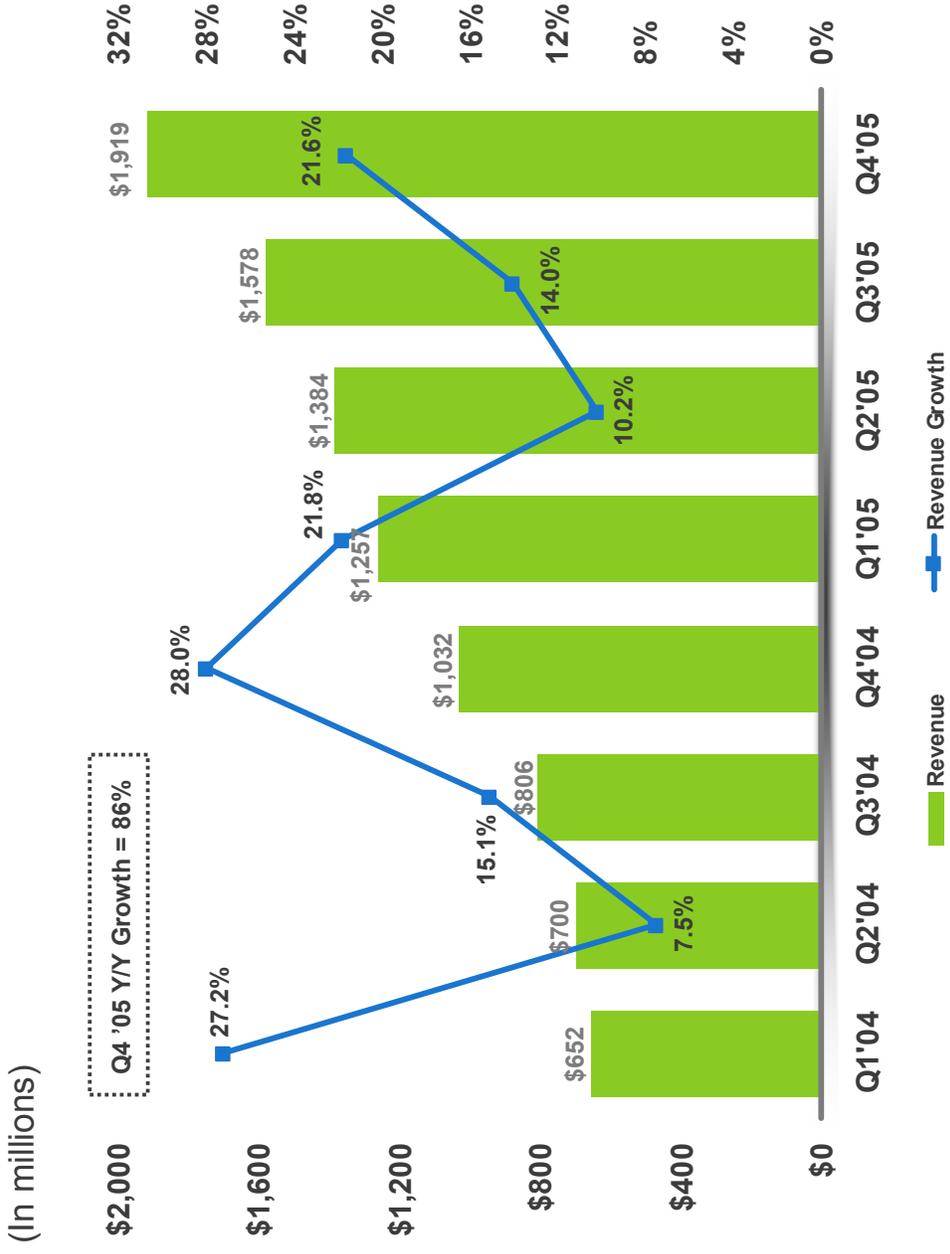

Agenda

2005 Financial Highlights

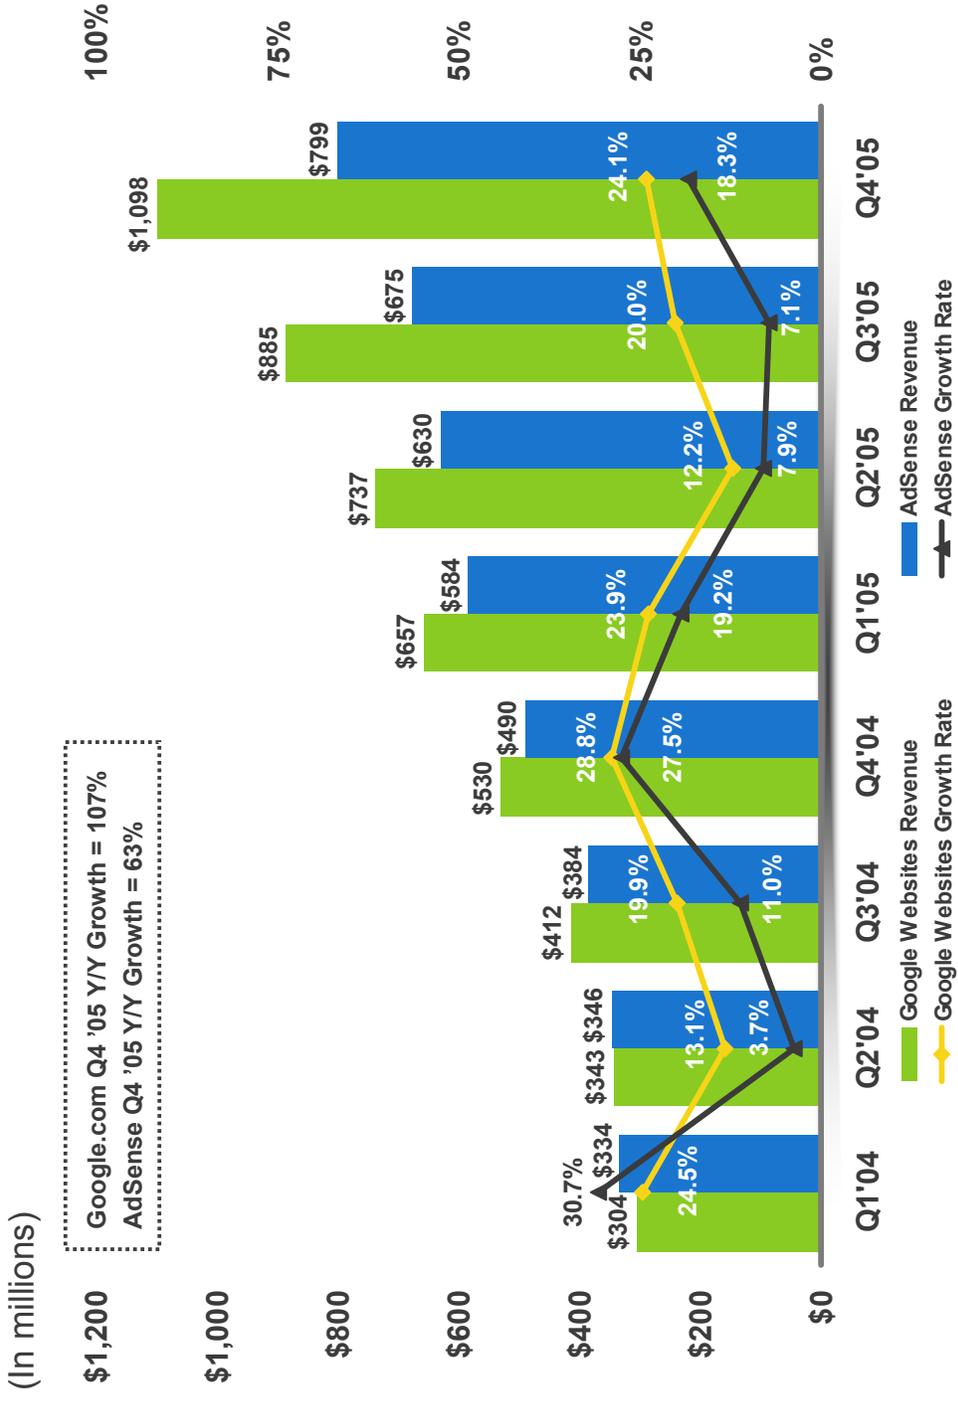

Top Financial Questions

2006 Priorities

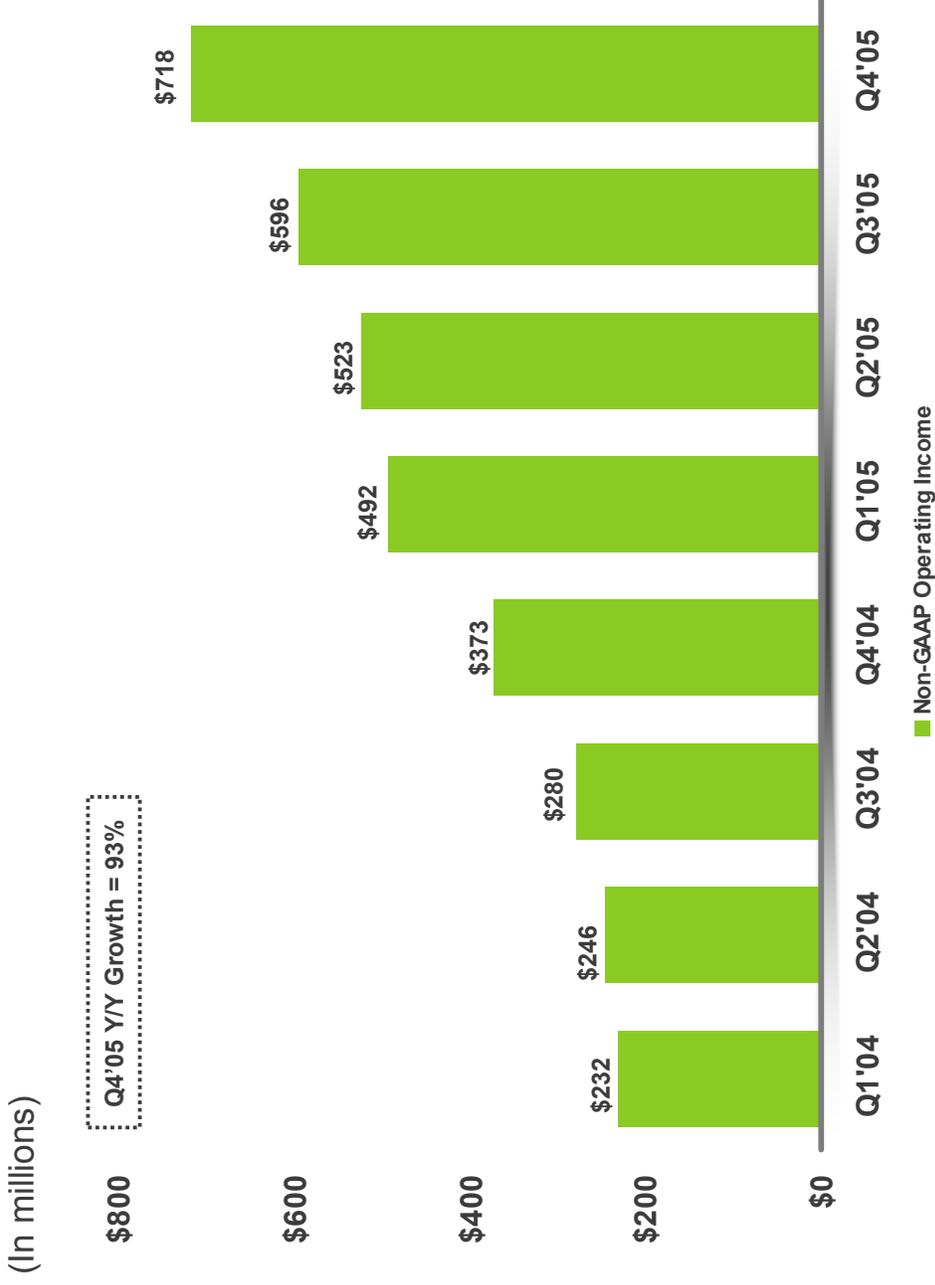

Strong Revenue Growth

Google.com and Network Growth

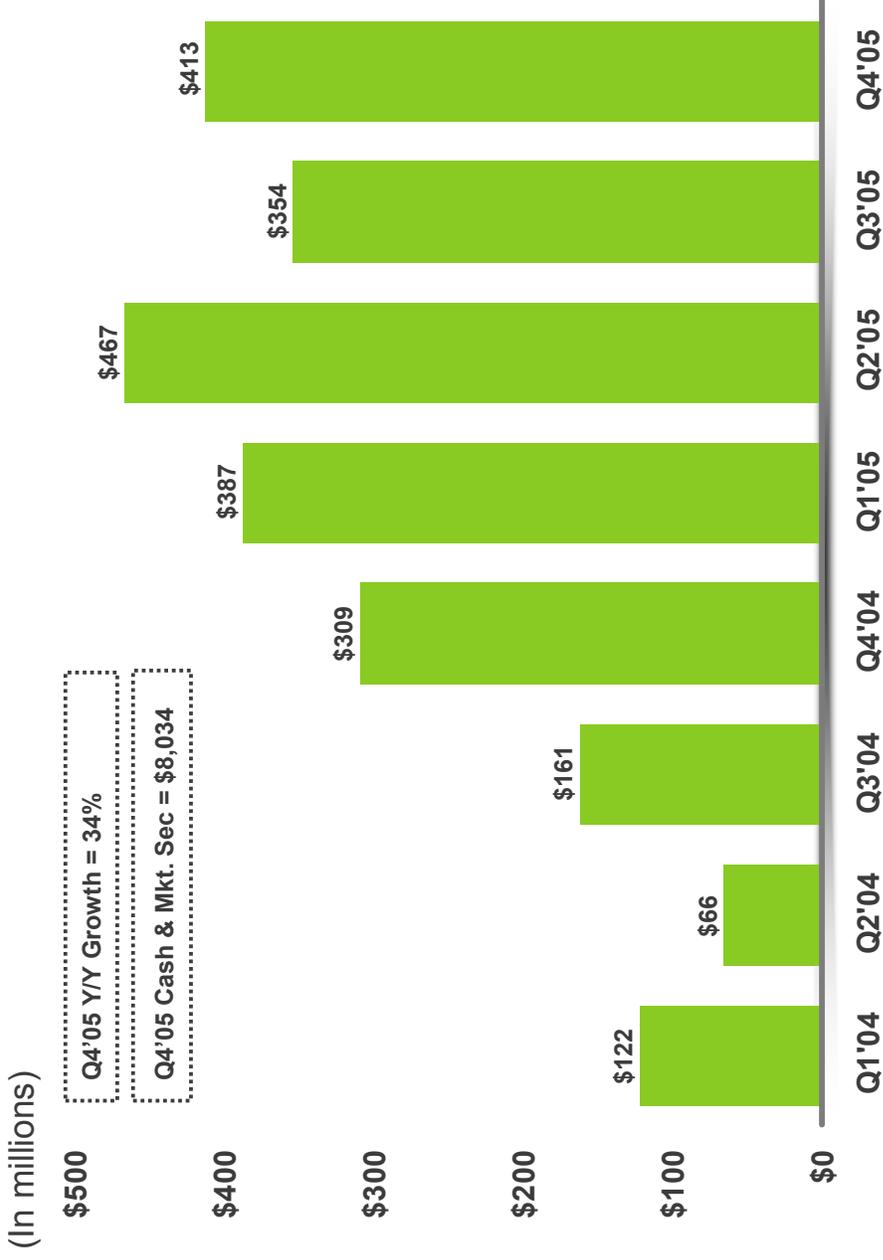

Rising Non-GAAP Operating Income

Note: Data adjusted for non-cash stock-based compensation charges and other items such as Yahoo! Settlement (\$201 mm in Q3'04), Google Foundation donation (\$90 mm in Q4'05) and IPR&D (\$10.4 mm in Q4'04 and \$20.8 mm in Q3'05).

Strong Free Cash Flow Generation

Note: Free Cash Flow equals Cash Flow from Operations less Capital Expenditures.

Top Financial Questions

How do you measure performance?

How do you monitor financial performance?

What are the drivers of capital expenditures?

Is international growth slowing?

How should we think about operating expenses?

Are you experiencing pressure on traffic acquisition costs?

How do you evaluate strategic distribution and acquisition opportunities?

How Do You Measure Performance?

Operational Metrics

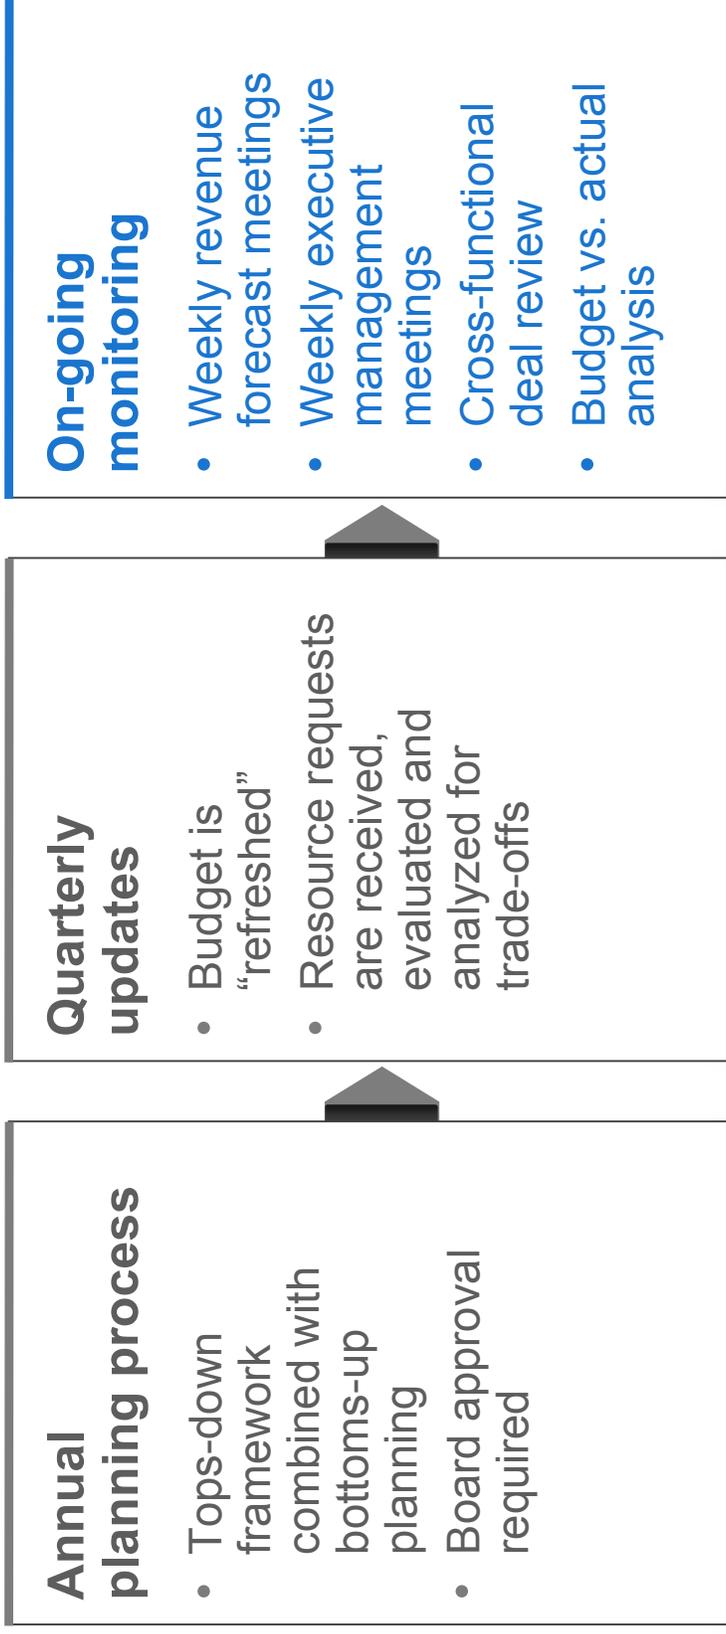

- Search quality
- Customer satisfaction
- Traffic growth
- Revenue per thousand searches
= Coverage * Click-through rate *
CPC * 1,000
- Number of advertisers
and publishers

Financial Metrics

- Revenue growth
- Operating margin
- Productivity per employee

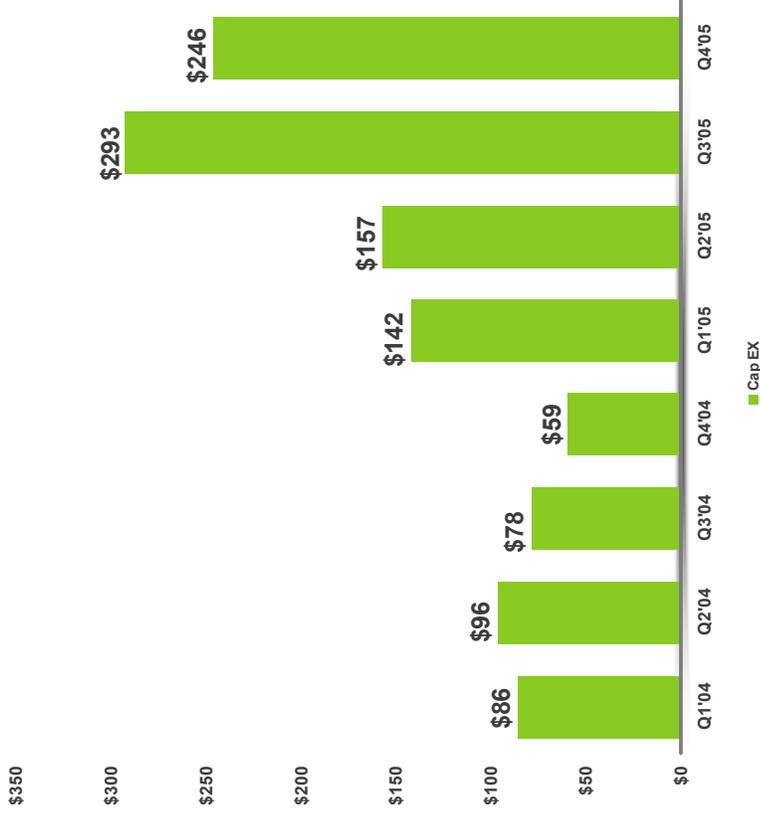

How Do You Monitor Financial Performance?

Key financial processes

What Are the Drivers of Capital Expenditures?

Capital expenditures (In millions)

Capital expenditures drivers

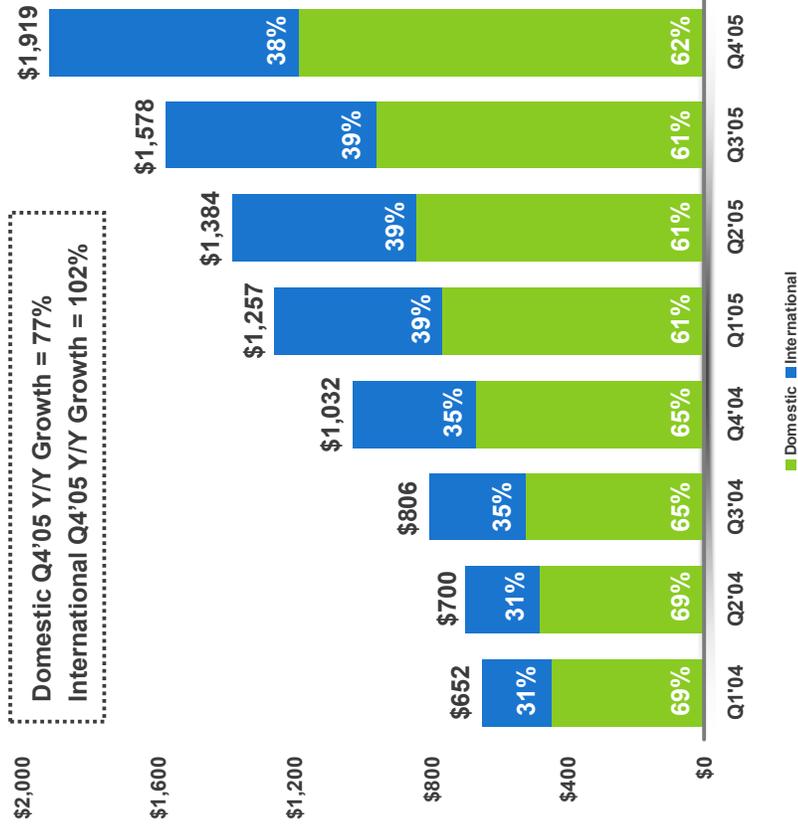

- Core search and advertising businesses
 - Immediate benefits
 - Driven by traffic growth
- New services
 - Longer-term benefits
 - Continuous cost/benefit analysis; reevaluation of added investment

2006 Capital expenditures

- 2006 capital expenditures will significantly exceed 2005 levels
- Machine components, networking equipment & data centers (majority)
- Real estate

Is International Growth Slowing?

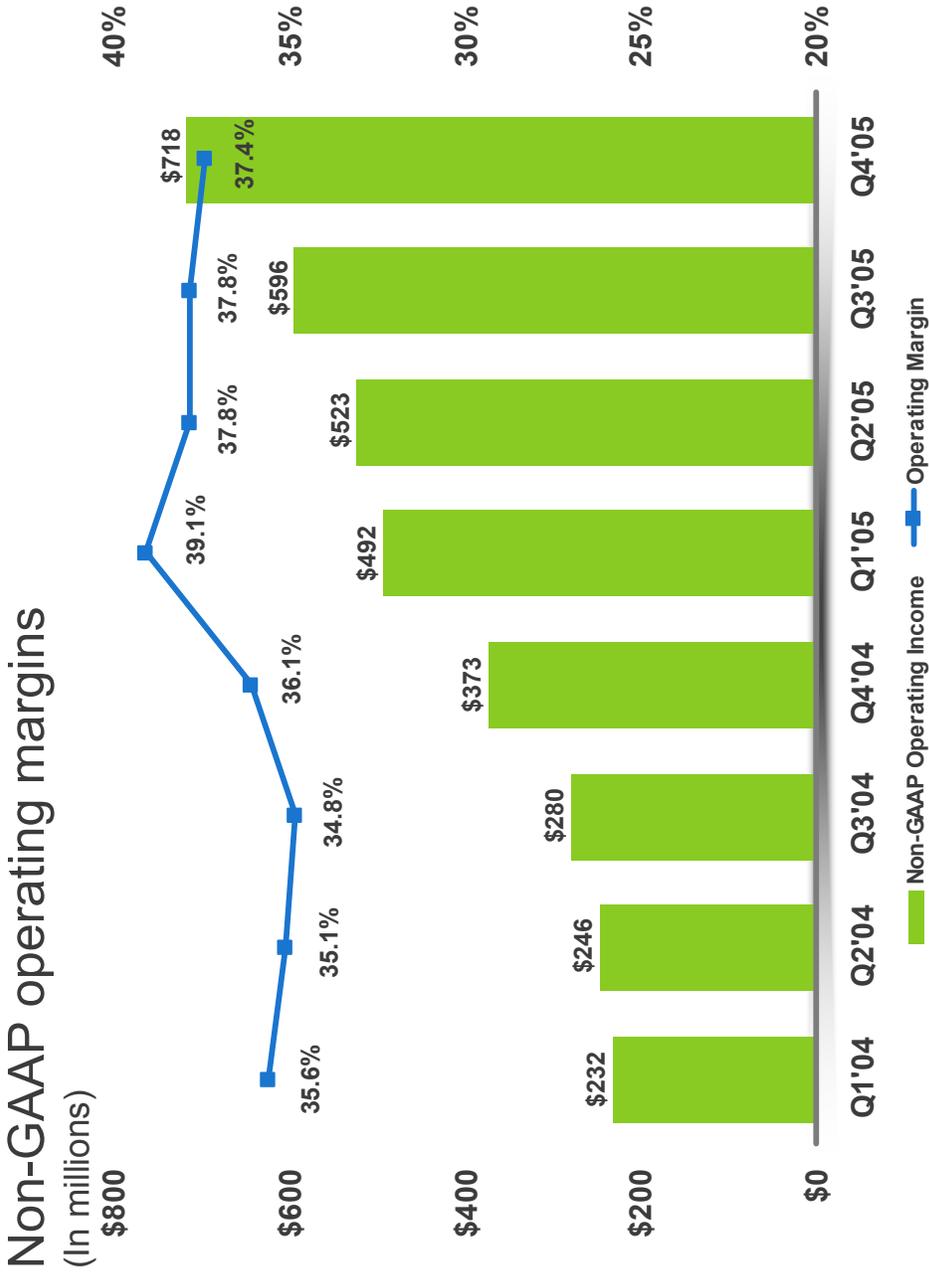

Geographical revenue contribution (In millions)

- International growth dynamics
 - International growth remains strong
 - European Q4'05 Q/Q growth exceeded Q/Q growth in Q4'04 when excluding the impact of FX and the addition of AOL Europe in Q4'04
 - F/X headwinds decreased international revenues by 2.1% in 2005
- Strongest international regions (outside UK)
 - Western Europe
 - Including Germany, France, Netherlands, Spain, Italy
 - Japan
 - Canada
 - Australia

How Should We Think About Operating Expenses?

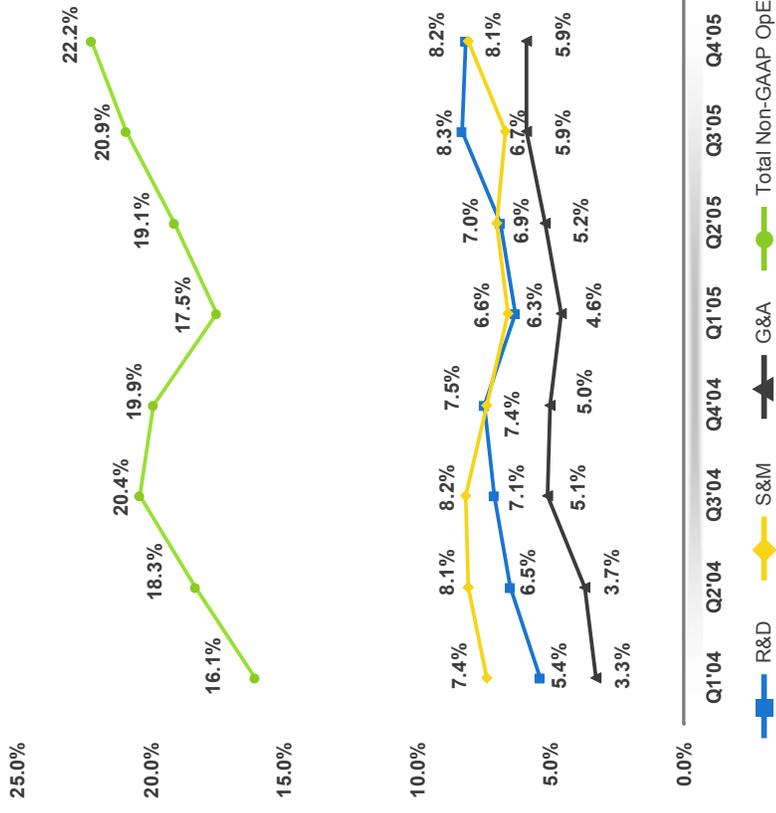

Note: Data adjusted for non-cash stock-based compensation charges and other items such as Yahoo! Settlement (\$201 mm in Q3'04), Google Foundation donation (\$90 mm in Q4'05) and IPR&D (\$10.4 mm in Q4'04 and \$20.8 mm in Q3'05).

How Should We Think About Operating Expenses?

Non-GAAP operating expenses as a % of revenue

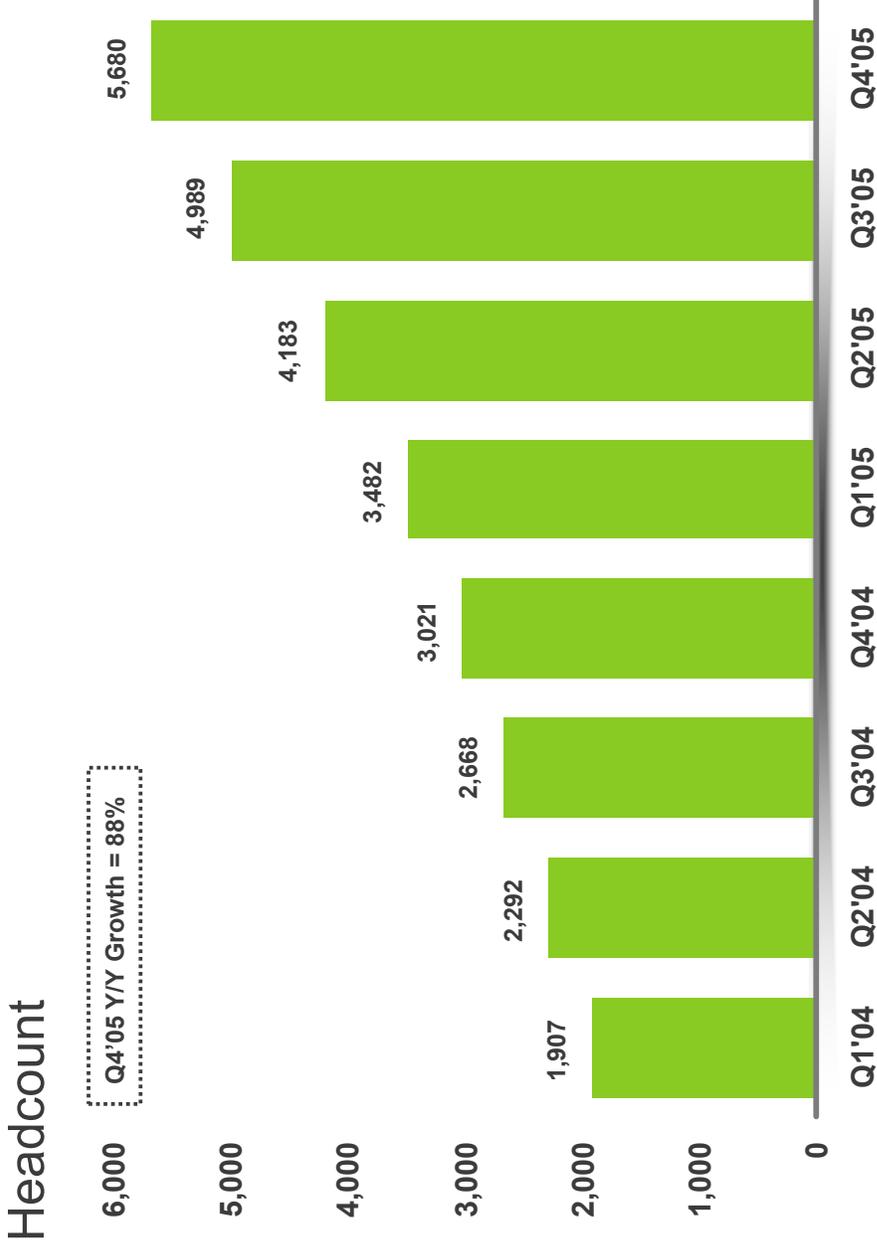

- Operating Expense Drivers**
- R&D
 - Engineering talent, infrastructure
 - S&M
 - Headcount, office locations, toolbar distribution
 - G&A
 - Headcount to scale with rest of business
 - Well-planned strategic decisions
 - Opportunities are compelling

Note: Data adjusted for non-cash stock-based compensation charges and other items such as Yahoo! Settlement (\$201 mm in Q3'04), Google Foundation donation (\$90 mm in Q4'05) and IPR&D (\$10.4 mm in Q4'04 and \$20.8 mm in Q3'05).

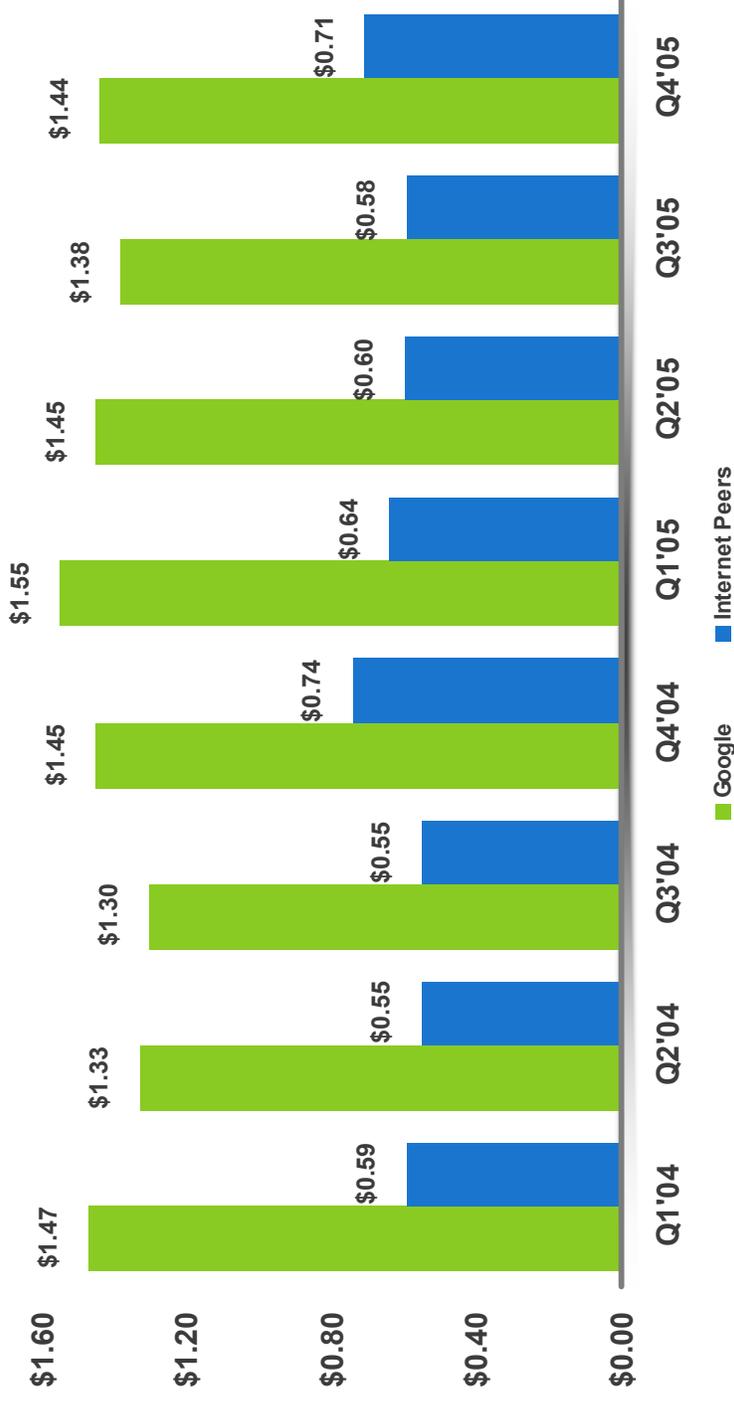

How Should We Think About Operating Expenses?

How Should We Think About Operating Expenses?

Annualized revenue per average employee

(In millions)
\$2.00

Source: Peer data compiled from company filings and press releases.

How Should We Think About Operating Expenses?

Stock Based Compensation

- Types of equity awards
 - Stock options
 - Restricted stock units (Google Stock Units)
 - New hire grants and Founders Awards

Calculating 2006 SBC Charges

Options and GSUs awarded prior to Jan 1, 2006

Options and GSUs awarded since Jan 1, 2006

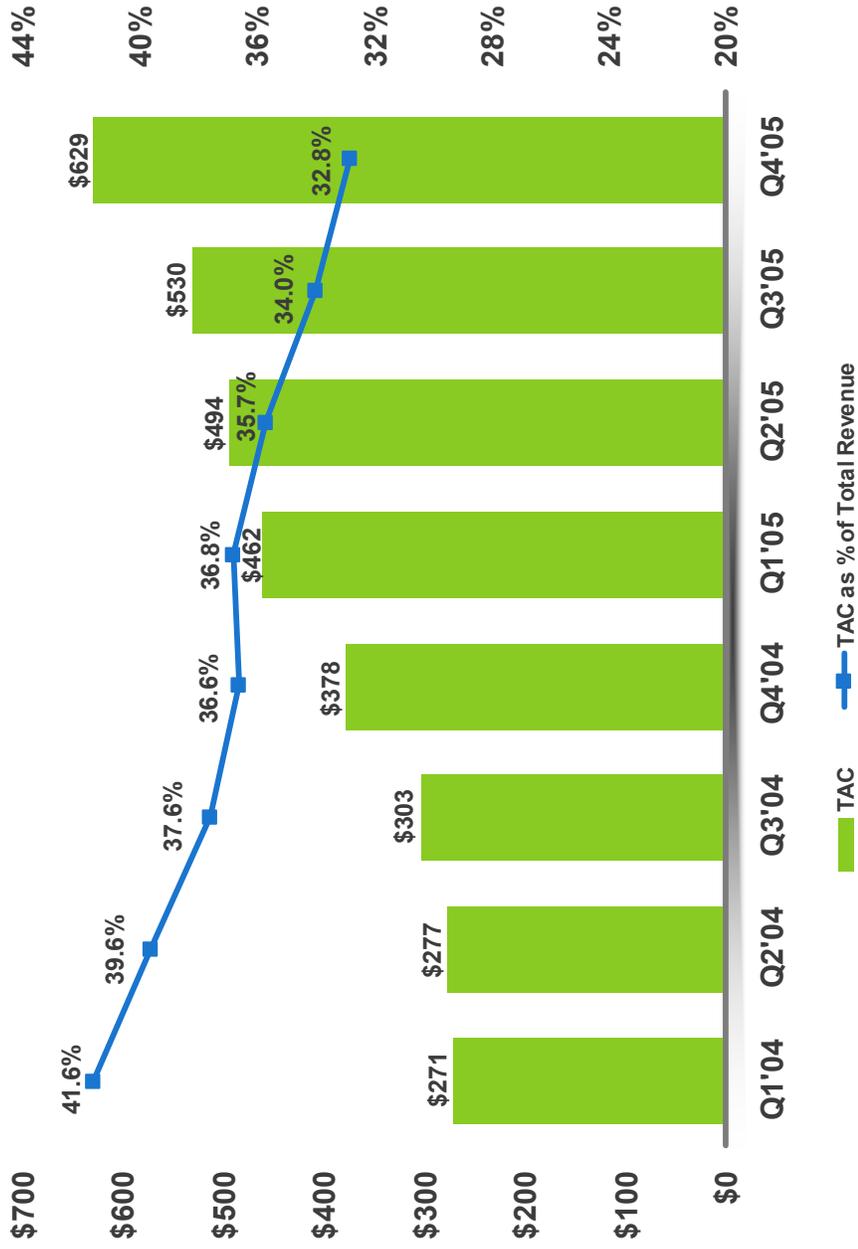

Amount in 2005 10-K

1 – 1.5% dilution on share count

Are You Experiencing Pressure on TAC?

Traffic acquisition costs
(In millions)

How Do You Evaluate Strategic Distribution Opportunities?

Strategic Objectives

- Increase and protect search market share
- Build brand recognition
- Establish relationship and create new channels for distributing future products

Partner Selection

- End user reach / size of distribution
- End user segment
- Brand association
- Strategic implications

How Do You Evaluate Acquisition Opportunities?

We focus on acquisition targets that

- Are consistent with our mission
- Bring superior engineering talent
- Accelerate our product plans
- Jumpstart innovation
- Accelerate entry into new international markets

When evaluating potential opportunities, we

- Structure earnouts where appropriate
- Typically do not lead investment rounds

2006 Priorities

2006 Priorities

Search Quality &
End User Traffic

Quality of Ads as
Perceived by End Users

Building New Products and
Services for Publishers
of Information

Growing our Overall
Partnerships

Building Systems
and Infrastructure of a
Global \$100B Company

Investments
