Common Stock, par value \$0.01 per share	The NASDAQ Stock Market LLC

Securities registered pursuant to Section 12(g) of the Act:

Series B Junior Participating Preferred Stock Purchase Rights

(Title of class)

Indicate by check mark if the Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the voting and non-voting common equity held by non-affiliates computed using \$18.57, the price at which the common equity was last sold as of March 31, 2012 (the last business day of the Registrant's most recently completed second fiscal quarter), was approximately \$241,000,000.

On December 3, 2012, there were 13,487,694 shares of the Registrant's common stock, \$0.01 par value, outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Registrant's Proxy Statement to be filed with the Securities and Exchange Commission in connection with the Annual Meeting of Stockholders, expected to be held in the second quarter of fiscal 2013, are incorporated by reference into Part III of this Form 10-K.

PART I.

Our fiscal year ends on September 30. All references in this report to our fiscal years refer to the fiscal year ended on September 30 in the year mentioned. For example, our "fiscal 2012" ended on September 30, 2012. Unless otherwise indicated, operating data referred to in this report is as of September 30, 2012. As used in this report, the term "retail locations" includes our stores and leased departments and excludes locations where Kohl's® sells our products under an exclusive product and license agreement, and international franchise locations. As used in this report, "stores" means our stand-alone stores in the United States, Puerto Rico and Canada which we operate.

Item 1. Business

Overview

Destination Maternity Corporation (the "Company", "we", "us", "our") is the leading designer and retailer of maternity apparel in the United States and is the only nationwide chain of maternity apparel specialty stores. As of September 30, 2012, we operate 2,008 retail locations, including 625 stores in all 50 states, Puerto Rico and Canada, and 1,383 leased departments located within department stores and baby specialty stores throughout the United States and Puerto Rico. We are also the exclusive provider of maternity apparel to Kohl's, which operates approximately 1,146 stores throughout the United States. We operate our 625 stores under three retail nameplates: Motherhood Maternity®, A Pea in the Pod® and Destination Maternity®. In addition to our 625 stores, we operate 1,383 maternity apparel departments, which we refer to as leased departments, within leading retailers such as Macy's®, Sears®, Gordmans® and Boscov's®. We are the exclusive maternity apparel provider in each of our leased department relationships. In fiscal 2012 we also operated leased departments in Babies"R"Us® stores. However, in connection with our new broad-based partnership with Bed Bath & Beyond Inc. and its subsidiary, Buy Buy Baby, Inc., (which we announced in May 2012) we discontinued operation of our 124 remaining leased departments in Babies"R"Us in late October 2012 and opened leased departments in select buybuy BABY® stores. As of November 30, 2012 we operate 10 leased departments in buybuy BABY stores. As of August 25, 2012, Bed Bath & Beyond Inc. had 71 buybuy BABY stores. Over time, we expect to significantly increase the number of buybuy BABY stores in which we have a maternity apparel leased department.

We also have expanded internationally and have entered into exclusive store franchise and product supply relationships in the Middle East, India and South Korea. As of September 30, 2012, we have 119 international franchised locations, comprised of 16 stand-alone stores in the Middle East, South Korea and India operated under the Destination Maternity retail nameplate, and 103 shop-in-shop locations in India and South Korea, in which we have a Company branded department operated under retail nameplates owned by our franchise partners. Finally, we also sell merchandise on the Internet, primarily through DestinationMaternity.com and our various brand-specific websites.

We maintain our leading position across all major price points of maternity apparel through our four distinct merchandise brands, which enable us to reach a broad range of maternity customers. Through our 625 stores and certain of our leased departments, we offer maternity apparel under our two primary merchandise brands, Motherhood Maternity ("Motherhood" or "Motherhood Maternity") at value prices and A Pea in the Pod ("Pea" or "A Pea in the Pod") at both contemporary and luxury prices. Our A Pea in the Pod Collection® ("Pea Collection") is the distinctive premier maternity apparel line within the A Pea in the Pod brand, featuring exclusive designer label product at luxury prices. We also have two additional value-priced maternity apparel brands: our Oh Baby by Motherhood® collection, which we sell exclusively through Kohl's, and our Two Hearts® Maternity by Destination Maternity® collection, available exclusively at Sears stores. Our brands are the exclusive maternity apparel offering in each of these chains.

We believe that one of our key competitive advantages is our ability to fulfill, in a high-service store environment, all of an expectant or nursing mother's clothing needs, including casual and career wear, formal attire, lingerie, sportswear and outerwear, in sizes that cover all trimesters of the maternity cycle. We believe that our vertically-integrated business model enables us to offer the broadest assortment of in-stock, fashionable

maternity apparel. We design and contract for the production of over 90% of the merchandise we sell using sewing factories located throughout the world, predominantly outside of the United States.

In recent years, we have developed and introduced new multi-brand store concepts to offer merchandise from our various brands in a single location, in order to provide a broader product assortment at multiple price ranges to our customers and to increase average store sales and profitability. We believe the continued rollout of our multi-brand store initiative provides the opportunity for us to improve store operating profit margins over time by reducing store operating expense percentages through economies of scale, and may increase overall sales in the geographical markets they serve. Our multi-brand stores are operated under our Destination Maternity nameplate, which includes Destination Maternity combo stores (carrying Motherhood Maternity and A Pea in the Pod merchandise) and Destination Maternity superstores, which also carry both our Motherhood and Pea merchandise brands, as well as a significant array of maternity-related products and customer service features. These Destination Maternity stores are larger and have historically had higher average sales than our average store. Opening these Destination Maternity stores will typically involve closing two or more smaller stores and may result in one-time store closing costs resulting primarily from early lease terminations. In fiscal 2012 we closed 12 stores in connection with the opening of Destination Maternity nameplate stores and, from fiscal 2005 through fiscal 2012, we have closed 129 stores in connection with the opening of Destination Maternity nameplate stores.

In recent years, in addition to having closed some stores in connection with the opening of Destination Maternity nameplate stores, we have also evaluated our retail store base to identify and, in many cases, close underperforming stores (referred to as “prunings”) where we can do so without disproportionate exit cost. These prunings typically add to our profitability by eliminating the operating expense of an underperforming store while also typically transferring some of the sales from the closed store to other stores and/or leased departments we operate in that geographical area. In fiscal 2012 we closed 29 underperforming stores and, from fiscal 2005 through fiscal 2012, we have closed 263 underperforming stores.

We plan to open approximately 14 – 20 new retail stores during fiscal 2013, of which we expect approximately 7 – 10 will be new Destination Maternity combo or superstores. We estimate that we will close approximately 34 – 51 stores in fiscal 2013, with approximately 14 – 20 of these store closings related to the opening of new Destination Maternity stores, and the remainder of these store closings related to prunings.

Currently, we operate 34 Motherhood stores in Canada and a Motherhood website under a Canadian URL (MotherhoodCanada.ca). In addition, we believe there is a significant opportunity to continue to develop international sales beyond Canada. We currently have franchise agreements in place in the Middle East, India and South Korea. The initial franchise stores through our arrangement in the Middle East opened during 2009 and, as of September 30, 2012, there are 13 of our franchise stores operating in the Middle East. Beginning during fiscal 2009, we began offering our Motherhood Maternity branded merchandise in maternity shop-in-shops located in our India franchisee’s Mom & Me® stores and in franchise stores. As of September 30, 2012, our merchandise is offered in 90 Mom & Me stores and one franchise store in India. Beginning during fiscal 2011, we began offering our Motherhood Maternity branded merchandise in maternity shop-in-shops located in our South Korea franchisee’s Nextmom® stores and in franchise stores. As of September 30, 2012, our merchandise is offered in 13 Nextmom stores and two franchise stores in South Korea.

We believe that our customers, particularly first-time mothers, are entering a new life stage that drives widespread changes in purchasing needs and behavior, thus making our maternity customer and her family a highly-valued demographic for a range of consumer products and services companies. As a result, we have been able to expand and leverage the relationship we have with our customers and generate incremental revenues and earnings by offering other value-added baby and parent-related products and services through a variety of marketing partnership programs utilizing our extensive opt-in customer database and various in-store marketing initiatives.

The Company was founded in 1982 as a mail-order maternity apparel catalog. We began operating retail stores in 1985 and completed our initial public offering in 1993. To address multiple price points in maternity apparel and improve operating productivity, we acquired Motherhood and A Pea in the Pod in 1995 and

eSpecialty Brands, LLC, or iMaternity™, in October 2001. Since the acquisitions of Motherhood and A Pea in the Pod, we have developed and grown these brands along with growing our Destination Maternity brand. Also, since the 1990s we have partnered with other retailers to sell our products through maternity apparel departments within their stores. On December 8, 2008, we changed our corporate name from “Mothers Work, Inc.” to “Destination Maternity Corporation” and our Nasdaq® symbol from “MWRK” to “DEST” coincident with the name change.

Industry Overview

We are unaware of any reliable external data on the size of the maternity apparel business. We believe that there is an opportunity to grow our business by selling maternity clothes to those pregnant women who currently purchase loose-fitting or larger-sized non-maternity clothing as a substitute or partial substitute for maternity wear. We also believe that our business can grow by reducing the amount of “hand-me-down” and “borrowing” associated with maternity apparel, particularly in the value-priced segment. Additionally, although we are not wholly unaffected by external factors (such as fluctuations in the birth rate), we believe that the demand for maternity apparel is relatively stable when compared to non-maternity apparel. Expectant mothers continue to need to replace most of their wardrobe and the current rate of approximately four million United States births per year has remained relatively stable over the last decade, although the number of births has declined by approximately 8.8% in the United States from 2007 to mid-2012, the period of latest available information. Also, although we are affected by fashion trends, we believe that maternity apparel is less fashion sensitive than women’s specialty apparel in general, as demand is driven primarily by the need to replace wardrobe basics as opposed to a desire to add to one’s wardrobe in order to meet current fashion trends.

Our Competitive Strengths

We are the leader in maternity apparel. We are the leading designer and retailer of maternity apparel in the United States and are the only nationwide chain of maternity apparel specialty stores. We believe that our brands are the most recognized in maternity apparel. We have established a broad distribution network, with stores in a wide range of geographic areas and retailing venues. In addition, we have a leading position across all major price points of maternity apparel through our retail store nameplates and our merchandise brands. Our exclusive focus on maternity apparel and our leadership position enable us to gain a comprehensive understanding of the needs of our maternity customers and keep abreast of fashion and product developments. We further enhance our leadership position, increase market penetration and build our brands by distributing our products under exclusive leased department and licensed relationships. We are also using the strength of our products, brands and store nameplates in the United States to expand internationally. As of September 30, 2012, we operate 34 stores in Canada and we have 119 international franchised locations, comprised of 16 stand-alone stores in the Middle East, South Korea and India operated under our Destination Maternity retail nameplate, and 103 shop-in-shop locations in India and South Korea, in which we have a Company branded department operated under retail nameplates owned by our franchise partners.

We offer a comprehensive assortment of maternity apparel and accessories. A primary consideration for expectant mothers shopping for maternity clothes is product assortment, as pregnant women typically need to replace almost their entire wardrobe. We believe that we offer the widest selection of merchandise in the maternity apparel business. We also offer product for multiple seasons, as pregnant women’s clothing needs vary depending on their due date. Our ability to offer a broad assortment of product is due, in large part, to our vertically-integrated business model, which includes our extensive in-house design and contract manufacturing capabilities, as well as our rapid inventory replenishment system.

We are vertically integrated. We design and contract manufacture over 90% of the merchandise we sell. We believe that vertical integration enables us to offer the broadest assortment of maternity apparel, to respond quickly to fashion trends and to optimize in-stock levels. We combine our in-house design expertise, domestic and international sourcing capabilities, a rapid inventory replenishment process and extensive proprietary systems to enhance operational and financial results.

We utilize a rapid inventory replenishment system. We are able to offer a wide selection of merchandise in our retail locations due, in large part, to our rapid inventory replenishment system. Our proprietary inventory replenishment system enables us to offer our customers a much broader selection than any of our competitors, without dedicating retail space to “back-stock” storage. We coordinate the rapid replenishment of inventory for all of our retail locations through our Philadelphia, Pennsylvania distribution centers to meet the individualized needs of our retail locations. Our stores receive shipments from our distribution centers between one and seven times per week. This enables us to maintain a high percentage in-stock merchandise position in each of our stores.

We have proprietary systems that support our business. In order to support our vertically-integrated business model and inventory replenishment system, we have developed a fully integrated, proprietary enterprise resource planning (“ERP”) system. This system includes our point-of-sale systems, our merchandise analysis and planning systems, our materials requirement planning system, and our web-based, global sourcing and logistics systems. These systems also support our automated picking and sorting systems and other aspects of our logistics infrastructure. We believe that our proprietary systems enable us to offer a broad product assortment, rapidly replenish inventory in our retail locations, and respond quickly to fashion trends.

We are able to obtain prime real estate locations. We believe our ability to lease attractive real estate locations is enhanced due to the brand awareness of our concepts, our multiple price point approach, our highly sought after maternity customer and our real estate management and procurement capabilities. We are the only maternity apparel retailer to provide mall operators with differently priced retail concepts, depending on the mall’s target demographics. We are also able to provide a Destination Maternity multi-brand store for malls whose maternity customers seek a wide range of price alternatives. In addition, in the case of multi-mall operators, we have the flexibility to provide several stores across multiple malls. As a result, we have been able to locate stores in many of what we believe are the most desirable shopping malls in the country and are able to obtain attractive locations within these malls.

We are able to enhance our leadership position by distributing our products under exclusive leased department and licensed relationships. As of September 30, 2012, we operate 1,383 leased departments within leading retailers such as Macy’s, Sears, Gordmans and Boscov’s. We are also the exclusive provider of maternity apparel to Kohl’s pursuant to an exclusive licensed relationship. We believe that we have an opportunity to continue to increase the sales we generate from these ongoing relationships through expanding our relationships with our current partners as well as developing relationships with new partners. In fiscal 2012, we also operated leased departments in Babies“R”Us stores. However, in connection with our new broad-based partnership with Bed Bath & Beyond Inc. and its subsidiary, Buy Buy Baby, Inc., (which we announced in May 2012) we discontinued operation of our 124 remaining leased departments in Babies“R”Us in late October 2012 and opened leased departments in select buybuy BABY stores. As of November 30, 2012 we operate 10 leased departments in buybuy BABY stores. As of August 25, 2012, Bed Bath & Beyond Inc. had 71 buybuy BABY stores. Over time, we expect to significantly increase the number of buybuy BABY stores in which we have a maternity apparel leased department.

We have a highly experienced management team. We have a management team with significant experience in all aspects of the retail and apparel business, including our Chief Executive Officer (“CEO”), Ed Krell, who has served as a senior executive of the Company for over 10 years and has over 25 years of business experience encompassing apparel, retail, finance and overall management, and our President, Chris Daniel, who has over 20 years of women’s apparel merchandising experience.

Merchandise Brands

We believe that our brands are the most recognized brands in the maternity apparel business. We sell our merchandise under the following four distinct brands:

Brand	Brand Positioning	Typical Apparel Price Range
Motherhood Maternity	Broad assortment of the latest fashions, offering great quality merchandise at everyday low prices	\$10 – \$45
A Pea in the Pod	Contemporary, fashion—forward and luxury, offering sophisticated career, as well as fun casual merchandise, including exclusive designer labels	\$18 – \$395
Two Hearts Maternity by Destination Maternity	Select assortment of the latest fashions, offering great quality merchandise at value price points	\$8 – \$36
Oh Baby by Motherhood	Select assortment of the latest fashions, offering great quality merchandise at value price points	\$8 – \$36 (1)

(1) Kohl's, which sells our Oh Baby by Motherhood brand under an exclusive product and license agreement, sets the prices for this merchandise.

Motherhood Maternity. Our Motherhood Maternity brand serves the value-priced portion of the maternity apparel business, which has the greatest number of customers. The Motherhood brand is positioned with a broad assortment of quality fashion at everyday low prices. We believe that the Motherhood customer shops at moderate-priced department stores and discount stores when she is not expecting.

A Pea in the Pod. Our A Pea in the Pod brand serves both the medium-priced (or “better”) portion and, through our A Pea in the Pod Collection line, the luxury portion of the maternity apparel business. The Pea brand is generally positioned as contemporary, fashion-forward and luxury, with prices ranging from affordable mid-priced to true luxury prices, offering the mom-to-be exceptional contemporary maternity pieces that reflect her uncompromising sense of style in both casual and career apparel. The Pea Collection is the distinctive premier maternity luxury line within the Pea brand, featuring a selection of extraordinary styles along with exclusive designer labels. In our stores which carry A Pea in the Pod brand merchandise, we also offer exclusive maternity versions of select styles from well-known designer and contemporary brands, where we have assisted in developing these maternity versions. We believe that the typical Pea customer shops at department stores and specialty apparel chains when she is not expecting, with the Pea Collection customer typically shopping at higher-end department stores and luxury designer boutiques when she is not expecting. We believe the Pea brand is the leading luxury maternity brand in the United States. Publicity, including celebrities wearing our clothes, is an important part of the marketing and positioning of the Pea brand.

Two Hearts Maternity by Destination Maternity. Our Two Hearts Maternity by Destination Maternity collection is available at over 500 Sears locations throughout the United States through an exclusive leased department relationship. This collection delivers the latest in career and casual sportswear as well as dresses, swimwear, lingerie and nursing-friendly sleepwear, all specially designed to compliment the pregnant silhouette, with most items selling for under \$25.

Oh Baby by Motherhood. Our Oh Baby by Motherhood collection is available at over 1,100 Kohl's stores throughout the United States and on Kohls.com. The Oh Baby by Motherhood collection is available at all Kohl's stores under an exclusive product and license agreement. The collection features a modern assortment of quality fashions, with most items having initial prices (before price promotions) under \$40.

Retail Nameplates

We sell maternity apparel through the stores, leased departments and licensed relationships identified in the table below.

Store Nameplate	Description of Target Location	Brand(s) Carried	Typical Apparel Price Range	Average Size (Sq. Ft.)
Stores:				
Motherhood Maternity	Mid-priced and moderate regional malls, strip and power centers, and central business districts	Motherhood	\$10 – \$ 45	1,800
A Pea in the Pod	Mid-priced and high-end regional malls, lifestyle centers, central business districts and some stand-alone stores in affluent street locations	Pea (including, in some cases, Pea Collection)	\$18 – \$395	2,100
Destination Maternity	Combo stores located in mid-priced regional malls and lifestyle centers	Motherhood; Pea (including, in some cases, Pea Collection)	\$10 – \$395	Combo stores 2,900
	Superstores located primarily in outdoor and power centers and central business districts			Superstores 6,200
Leased Departments:				
Macy's	Mid-priced regional malls	Motherhood; Pea	\$10 – \$240	—
Sears	Mid-priced and moderate regional malls	Two Hearts Maternity by Destination Maternity	\$ 8 – \$ 36	—
Gordmans	Big box power centers	Motherhood	\$10 – \$ 45	—
Boscov's	Mid-priced and moderate regional malls	Motherhood	\$10 – \$ 45	—
buybuy BABY (1)	Big box power centers	Motherhood; Pea	\$10 – \$200	—
Exclusive Licensed Relationship:				
Kohl's	Big box power centers	Oh Baby by Motherhood	\$ 8 – \$ 36 (2)	—

- (1) Beginning in late October 2012 our maternity apparel is available in leased departments in select buybuy BABY stores through our new broad-based partnership with Bed Bath & Beyond Inc. and its subsidiary, Buy Buy Baby, Inc.
- (2) Kohl's, which sells our Oh Baby by Motherhood brand under an exclusive product and license agreement, sets the apparel price range for this merchandise.

The following table sets forth our store count by nameplate as of September 30, 2012.

	Store Count as of September 30, 2012
Motherhood Maternity	507
A Pea in the Pod	36
Destination Maternity:	
Combo stores	50
Superstores	32
Total Destination Maternity stores	82
Total stores (1)	625

- (1) Excludes (i) leased departments, (ii) locations where Kohl's sells our products under an exclusive product and license agreement and (iii) international franchised locations.

Major regional malls with several department stores and a wide range of price points may be able to accommodate a Destination Maternity store, or more than one maternity store. Our retail nameplates provide us with the ability to address multiple price alternatives at a given mall. As of September 30, 2012, we had two of our store concepts in nine major regional malls. Our preference is, over time and assuming we can obtain a suitable location under acceptable financial terms, to operate one larger-sized multi-brand store under the Destination Maternity nameplate in or near these malls, rather than two smaller single-brand stores.

Motherhood Maternity Stores. Motherhood Maternity is our largest chain with 507 stores as of September 30, 2012. Motherhood is positioned with a broad assortment of quality fashion at everyday low prices. Motherhood stores average approximately 1,800 square feet and are located primarily in mid-priced and moderate regional malls, strip and power centers, and central business districts. Motherhood stores include 84 outlet locations that carry Motherhood-branded merchandise as well as some closeout merchandise. In fiscal 2012, we opened two new Motherhood outlets and closed 30 Motherhood stores and outlets, with eight of these store closings related to Destination Maternity store openings. As of September 30, 2012, we operated 34 Motherhood stores in Canada and believe that market opportunities may permit us to open additional stores in Canada in the future.

A Pea in the Pod Stores. As of September 30, 2012, we had 36 A Pea in the Pod stores, averaging approximately 2,100 square feet. Certain of the A Pea in the Pod stores are located in mid-priced regional malls, lifestyle centers and central business districts while others are located in upscale venues, including Beverly Hills, Water Tower Place, South Coast Plaza and Newbury Street. In fiscal 2012, we closed seven Pea stores, with four of these store closings related to Destination Maternity store openings.

Destination Maternity Stores. As of September 30, 2012, we had 82 Destination Maternity stores averaging approximately 4,200 square feet, including 50 Destination Maternity combo stores and 32 Destination Maternity superstores.

Destination Maternity Combo Stores. As of September 30, 2012, we had 50 Destination Maternity combo stores. Our combo stores are larger (average of approximately 2,900 square feet) than our single-brand stores, generally have higher average sales volume than our average store and provide the opportunity to improve store operating profit margins over time. A new combo store often involves closing two stores (often one Motherhood store and one Pea store), although we sometimes close only one store in a given geographical market in situations where we believe we can expand sales through replacing a single-brand store with a Destination Maternity combo store. Store closings will sometimes involve one-time store closing costs resulting primarily from early lease terminations. Based on our internal research, we believe that over the next several years we have the potential to expand the Destination Maternity combo store chain to 70 or more total Destination Maternity combo stores in the United States. In fiscal 2012, we opened two Destination Maternity combo stores and closed four Destination Maternity combo stores.

Destination Maternity Superstores. As of September 30, 2012, we had 32 Destination Maternity superstores. Destination Maternity superstores currently carry both of our primary merchandise brands (Motherhood and Pea), plus a greatly expanded line of maternity-related accessories, nursing products, health and fitness products, books, and body and nutritional products. Our Destination Maternity superstores also typically feature a dedicated “learning center” area for maternity-related classes, a “relax area” for husbands and shoppers alike, and an inside play area for the pregnant mom’s toddlers and young children, with seven of our superstores also having our edamame® Maternity Spa®. These elements combine to give our Destination Maternity superstore not only the largest assortment of maternity apparel and accessories available, but also a unique and engaging atmosphere and experience for the maternity customer. A new Destination Maternity superstore typically involves closing at least two, and sometimes more, single-brand stores, is expected to decrease store operating expense percentages through economies of scale, and may increase overall sales in the geographical areas it serves. Destination Maternity superstores range from nearly 3,700 square feet to approximately 11,400 square feet, with an average of approximately 6,200 square feet for the 32 stores open as of September 30, 2012. In February 2006, we opened our flagship Destination Maternity superstore on the corner of 57th Street and Madison Avenue in New York City’s Manhattan borough. This is the largest maternity apparel store in the world, spanning three floors and including our edamame Maternity Spa, all of our primary apparel brands, prenatal education and yoga classes, a juice bar with Internet access, relax area and children’s play area. As the only national apparel retailer that is solely focused on maternity, we are further differentiating ourselves as the ultimate maternity apparel destination with these large, well-assorted, “must visit” superstores. We opened four Destination Maternity superstores during fiscal 2012. Based on our internal research, we believe that over the next several years we have the potential to expand the Destination Maternity superstore chain to 50 or more total Destination Maternity superstores in the United States.

Leased Departments. In addition to the stores we operate, we have arrangements with department stores and baby specialty stores, including Macy’s, Sears, buybuy BABY, Gordmans and Boscov’s, to operate maternity apparel departments in their stores. We are the exclusive maternity apparel provider in each of our leased department locations. We staff these leased departments at varying levels and maintain control of the pricing terms and the timing and degree of the markdowns of our merchandise that is sold in the leased departments. We operate our leased departments during the same hours and days as the host store and are responsible for replenishment of the merchandise in the leased departments. These leased departments typically involve the lease partner collecting all of the revenue from the leased department. The revenue is remitted to us, less a fixed percentage of the net sales earned by the lease partner as stipulated in each agreement.

The following table sets forth our leased department count by lease partner as of September 30, 2012.

	Leased Department Count as of September 30, 2012
Macy’s	621
Sears	515
Babies“R”Us	124(1)
Gordmans	83
Boscov’s	40
Total leased departments (2)(3)	<u>1,383</u>

- (1) During October 2012 we closed all 124 remaining Babies“R”Us leased department locations.
- (2) Excludes (i) locations where Kohl’s sells our products under an exclusive product and license agreement and (ii) international franchised locations.
- (3) Beginning in late October 2012 our maternity apparel is available in leased departments in select buybuy BABY stores through our new broad-based partnership with Bed Bath & Beyond Inc. and its

subsidiary, Buy Buy Baby, Inc. As of August 25, 2012, Bed Bath & Beyond Inc. had 71 buybuy BABY stores, including 10 stores as of November 30, 2012, in which we operate leased departments. Over time, we expect to significantly increase the number of buybuy BABY stores in which we have a maternity apparel leased department.

Exclusive Licensed Relationship. Our Oh Baby by Motherhood collection is available at all Kohl's stores under an exclusive product and license agreement. The collection was launched in February 2005 at Kohl's stores throughout the United States and on Kohls.com. As of September 30, 2012, Kohl's operated approximately 1,146 stores throughout the United States.

International. Currently, we operate 34 Motherhood stores in Canada and a Motherhood website under a Canadian URL (MotherhoodCanada.ca).

In October 2008, we announced our planned expansion into six key markets in the Middle East through an international franchise agreement with Multi Trend, a member of the Al-Homaizi Group, to introduce our brands into the Middle East. The initial franchise stores through our arrangement in the Middle East opened during 2009 and, as of September 30, 2012, there are 13 of our franchise stores operating in the Middle East.

In April 2009, we announced our planned expansion into India through an international franchise agreement with Mahindra Retail, part of the Mahindra Group, to introduce our brands into India. We have initially made our Motherhood Maternity product available for sale in maternity shop-in-shops located in Mahindra Retail's Mom & Me stores (which carry infant and children's apparel and non-apparel merchandise, as well as maternity apparel) and in franchise stores in India. As of September 30, 2012, our Motherhood Maternity merchandise is offered in 90 Mom & Me stores and one franchise store in India.

In June 2011, we announced our expansion into South Korea through an international franchise agreement with Agabang & Company, to introduce our brands into South Korea. We have initially made our Motherhood Maternity and A Pea in the Pod product available for sale in maternity shop-in-shops located in Agabang & Company's Nextmom stores (which carry infant and children's apparel and non-apparel merchandise, as well as maternity apparel) and in franchise stores in South Korea. As of September 30, 2012, our Motherhood Maternity and A Pea in the Pod merchandise is offered in 13 Nextmom stores and two franchise stores in South Korea.

We continue to evaluate other international sales opportunities. As our Middle East, India and South Korea franchise relationships demonstrate, we anticipate that our initial international strategy will consist primarily of franchising, licensing or similar arrangements with foreign partners. Our longer term strategy may include licensing arrangements with foreign partners, as well as potentially entering into wholesale business arrangements, entering into joint ventures or developing our own operations in certain countries.

Internet Operations

We sell our merchandise on the Internet primarily at our DestinationMaternity.com website and our brand-specific websites such as Motherhood.com and APeaInThePod.com. We also sell our merchandise through our Canadian website, MotherhoodCanada.ca. We believe that many pregnant women use the Internet to find maternity-related information and to purchase maternity clothes. Our websites are therefore important tools for educating existing and potential customers about our brands and driving traffic to our stores. Our DestinationMaternity.com website contains maternity advice and information, related baby product information and editorial content. Our marketing and technology capabilities and the replenishment capabilities of our distribution centers and stores enable us to incorporate Internet design, operations and fulfillment into our existing operations. We believe that our Internet operations represent a continued growth opportunity for the Company both by increasing Internet sales and by using the Internet to drive store sales. Our Internet sales increased 26% in fiscal 2012 and 114% over the last three fiscal years, and we look to continue to increase sales driven by our Internet operations in the future.

Marketing Partnerships

We believe our customers, particularly first-time mothers, are entering a new life stage that drives widespread changes in purchasing needs and behavior, thus making our maternity customer and her family a highly-valued demographic for a range of consumer products and services companies. We have been able to leverage the relationship we have with our customers to earn incremental revenues and expect to expand these revenues through additional marketing partnerships.

We expect to continue to expand and leverage the relationship we have with our customers and earn incremental revenues through a variety of marketing partnership programs utilizing our extensive opt-in customer database and various in-store marketing initiatives, which help introduce our customers to various baby and parent-related products and services offered by leading third-party consumer products companies.

Operations

Brand-Specific Operations Teams. To obtain maximum efficiencies, we are organized primarily along functional lines, such as store operations, merchandising, design and production. Our business consists of four merchandise brands, which each require decisions on a brand-specific basis. As such, we have built business teams by brand where the functional leaders within each brand work together. Each brand team is led by the head merchant and includes a brand-specific head designer, head planner and distributor, key production manager, and, where applicable, a director of stores. These teams also include visual, fabric purchasing and other necessary professionals.

Store Operations. The typical maternity customer, especially the first-time mother, seeks more advice and assistance than the typical non-maternity customer. Therefore, we aim to employ skilled and motivated store team members who are trained to provide the high level of service and reassurance needed by our customers. We attempt to provide a boutique level of attentive service that differentiates us from our competitors. Our centralized merchandising and store operations also enable our store team members to focus primarily on selling and maintaining the appearance of the stores. In addition, visual merchants coordinate with the merchandising department to develop floor-sets, design store display windows and define and enhance the product presentation.

The field/store management reporting structure for each chain consists of a director, regional managers, district managers and store managers. These members of field/store management are each eligible to receive incentive-based compensation related to store, district, regional and chain-level performance.

Merchandising, Design and Inventory Planning and Allocation

Merchandising. We strive to maintain an appropriate balance between new merchandise and proven styles, as well as between basic and fashion items. Our merchandising decisions are based on current fashion trends, as well as input from our designers and outside vendors. This information is used in conjunction with the item-specific sales data provided by our proprietary merchandising and replenishment system. Each brand has its own team of merchants, designers and planners. These teams are led by the head merchant of the brand who each report to our President.

Design. Our design department creates and produces samples and patterns for our contract-manufactured products under the guidance of the merchandising department. The design of our products begins with a review of European and New York runway trends, current non-maternity retail fashion trends, fashion reporting service information and fabric samples. The designers review our best selling items from prior seasons and integrate current fashion ideas from the non-maternity apparel business.

Inventory Planning and Allocation. Our inventory planning and allocation department is responsible for planning future inventory purchases and markdowns, as well as targeting overall inventory levels and turnover. We establish target inventories for each store using our inventory planning system with the goals of optimizing our merchandise assortment and turnover, maintaining adequate depth of merchandise by style and managing closeout and end-of-season merchandise consolidation. Our proprietary capabilities enable us to continually monitor and respond quickly to consumer demand and are integral to our inventory management program. These

capabilities are facilitated by our customized merchandise analysis and planning system, which provides daily product sell-through data and merchandising information.

Production and Distribution

We design and contract for the production of over 90% of the merchandise we sell using sewing factories located throughout the world, predominantly outside of the United States, and we continue to seek additional contractors for our sourcing needs. No individual contractor represents a material portion of our sewing. A majority of our merchandise is purchased “full package” as finished product made to our specifications, typically utilizing our designs. Fabric, trim and other supplies are obtained from a variety of sources. Substantially all of the merchandise produced outside of the United States is paid for in United States dollars.

Our production personnel monitor production at contractor facilities in the United States and work with our buying representatives abroad to ensure quality control, compliance with our design specifications and timely delivery of finished goods. This quality control effort is enhanced by our worldwide Internet-based contracting and logistics systems, which include advanced features such as measurement specifications and digital photography. We also use a third-party consulting firm to help monitor working conditions at our contractors’ facilities on a worldwide basis.

We operate our distribution centers in Philadelphia, Pennsylvania. We own our primary distribution center in Philadelphia, Pennsylvania and lease a facility located in the Philadelphia Naval Business Center in Philadelphia, Pennsylvania, which we use for warehousing, distribution and raw material cutting.

Finished garments from contractors and other manufacturers are received at our primary distribution center in Philadelphia, Pennsylvania. Garments are inspected using statistical sampling methods and stored for picking. Our primary distribution center utilizes sophisticated fulfillment technology to serve as a replenishment center, as opposed to solely a distribution center. This distribution center sends selections from our overall inventory that meet the specific needs of each individual retail location, with shipments sent to each retail location between one and seven times per week. Retail location replenishment decisions are made automatically based upon target inventories established by the planning and allocation department and individual retail location sales data. Our primary distribution center uses several automated systems, including our pick-to-light system for flat-packed goods and our hanging garment sortation system, which speed up deliveries to our retail locations and reduce costs. Freight is routed through zone-skipping, over-the-road carriers and delivered locally by a variety of carriers, and is supplemented by a small percentage of second-day air, providing one to three day delivery to our retail locations.

Since 2003 we have been certified to participate in Customs-Trade Partnership Against Terrorism (“C-TPAT”), a United States Department of Homeland Security sponsored program, with United States Customs and Border Protection (“U.S. Customs”), through which we implement and monitor our procedures to manage the security of our supply chain as part of the effort to protect the United States and our imported products against potential acts of terrorism. Since 2005 we have been certified to participate in the Importer Self-Assessment Program (“ISA”), a U.S. Customs program available only to C-TPAT participants with strong internal controls. Through our participation in the ISA program, we assume responsibility for monitoring our own compliance activities with applicable U.S. Customs regulations in exchange for certain benefits, which may help increase efficiency in importing. These benefits include exemption from certain government audits, increased speed of cargo release from U.S. Customs, front of the line access to U.S. Customs cargo exams, enhanced prior disclosure rights from U.S. Customs in the event of alleged trade violations, availability of voluntary additional compliance guidance from U.S. Customs, and less intrusive government oversight of trade compliance. In 2010, we were granted Tier 3 Status within the C-TPAT program, the highest level of recognition currently available.

In 2007 we were accepted to participate in the U.S. Customs and Border Protection’s Drawback Compliance Program. The benefits of this program include (i) waiver of prior notice where we do not have to notify U.S. Customs at the time of export of product to Canada and (ii) accelerated payment privileges, with respect to

goods we export from the United States, which we previously imported into the United States, to receive drawback refunds of United States import duties previously paid within 30 days of filing the claim for refund.

Management Information and Control Systems

We believe that our proprietary systems are instrumental to our ability to offer the broadest assortment of maternity apparel merchandise and accomplish rapid replenishment of inventory. We continuously develop, maintain and upgrade our systems and we employ an in-house team of programmers. Our stores have point-of-sale terminals that provide information used in our customized merchandise analysis and planning system. This system provides daily financial and merchandising information that is integral to monitoring trends and making merchandising decisions. Our systems have numerous features designed to integrate our retail operations with our design, manufacturing and financial functions. These features include custom merchandise profiles for each store, rapid inventory replenishment, item-tracking providing daily updated selling information for every style, classification open-to-buy and inventory control, as well as the daily collection of customer payment data, including cash, check, credit card, debit card and gift card sales data.

As part of our proprietary ERP system, we employ a comprehensive materials requirement planning ("MRP") system to manage our production inventories, documentation, work orders and scheduling. This system provides a perpetual inventory of raw materials, actual job costing, scheduling and bill of materials capabilities. The foundation of our proprietary ERP system is a perpetual inventory of finished goods by stock keeping unit ("SKU") and location across all of our retail locations, which interfaces directly with our distribution facility.

Our proprietary, Internet-based point-of-sale system provides real-time access to financial and merchandising information in addition to rapid credit authorization. This point-of-sale system significantly reduces the amount of training required for new sales associates and store managers. In addition, we regularly add new features and functionality to the system, and the system improves our customer relationship management capabilities by enhancing our ability to create customized promotional and marketing strategies.

Given the importance of our management information systems, we have taken extensive measures to ensure their responsiveness and security. Our hardware and communications systems are based on a redundant and multiprocessing architecture, which allows their continued operation on a parallel system in the event that there is a disruption within the primary system. Our main computer system, located at our headquarters in Philadelphia, Pennsylvania, is duplicated by a fully mirrored system in a separate part of the building with a separate power source that is designed to assume full operations should disruption in the primary system occur. In addition, our software programs and data are backed up and securely stored off-site. Our communications links come from two telephone frame rooms and are delivered through underground and aboveground feeds.

Advertising and Marketing

We believe that we drive traffic into our stores through the power of our brands, referrals to friends and family from current and prior customers, our various websites and, perhaps most importantly, our convenient, high-traffic locations in various types of shopping malls and, to a much lesser extent, street locations. Therefore, we have modest advertising and marketing expenditures. Our marketing efforts include publicity, e-mail marketing, web-based advertising, in-store marketing and prenatal consumer-targeted advertising. For our Destination Maternity superstores, we advertise locally prior to each grand opening and continue to advertise both nationally and, at times, locally after the store opens. We advertise one or more of our brands in pregnancy-targeted publications, such as *Fit Pregnancy*, *Pregnancy & Newborn*, *BabyTalk-Pregnancy Planner*, *Parenting Early Years*, *New Parent* and *American Baby*. For our luxury A Pea in the Pod brand, we advertise in high-fashion publications, such as *InStyle*. In addition, we utilize our publicity efforts to generate free editorial coverage for all of our brands on broadcast television, radio, social media, the Internet and in magazines and newspapers.

Competition

Our business is highly competitive and characterized by low barriers to entry. The following are several factors important to competing successfully in the retail apparel industry: breadth of selection in sizes, colors and

styles of merchandise; product procurement and pricing; ability to anticipate fashion trends and customer preferences; inventory control; reputation; quality of merchandise; store design and location; visual presentation and advertising; and customer service. We face competition in our maternity apparel lines from various sources, including department stores, specialty retail chains, discount stores, independent retail stores and catalog and Internet-based retailers, from both new and existing competitors. Many of our competitors are larger and have substantially greater financial and other resources than us. Our mid- and luxury-priced merchandise faces a highly fragmented competitive landscape that includes locally based, single unit retailers, as well as a handful of multi-unit maternity operations, none of which we believe has more than 10 stores nationwide. In the value-priced maternity apparel business, we currently face competition on a nationwide basis from retailers such as Gap®, H&M®, Old Navy®, Target® and Wal-Mart®. In addition, with our exit from Babies“R”Us in late October 2012 (in connection with our new broad-based partnership with Bed Bath & Beyond Inc. and its subsidiary, Buy Buy Baby, Inc.), in November 2012, Toys “R” Us, Inc. announced that it had entered into a partnership with Thyme Maternity, a Canada based company, for a collection of maternity apparel and accessories to be featured in approximately 150 Babies“R”Us stores in the United States. Substantially all of these competitors also sell maternity apparel on their websites.

Employees

As of September 30, 2012, we had approximately 1,800 full-time and 2,900 part-time employees. None of our employees are covered by a collective bargaining agreement. We consider our employee relations to be good.

Executive Officers of the Company

The following table sets forth the name, age and position of each of our executive officers:

Name	Age	Position
Edward M. Krell	50	Chief Executive Officer
Christopher F. Daniel	55	President
Judd P. Tirnauer	44	Executive Vice President & Chief Financial Officer
Ronald J. Masciantonio	35	Executive Vice President, Chief Administrative Officer & General Counsel

Edward M. Krell has served as our Chief Executive Officer and a director since October 2008. From August 2010 to May 2011, Mr. Krell also served as the Company’s President. From July 2008 until October 2008, Mr. Krell served as our Chief Operating Officer and from May 2007 to July 2008, Mr. Krell served as our Chief Operating Officer & Chief Financial Officer. From November 2003 to May 2007, Mr. Krell served as our Executive Vice President—Chief Financial Officer, having served as Senior Vice President—Chief Financial Officer from the time he joined us in January 2002 until November 2003. Prior to joining us, Mr. Krell served in various senior financial management positions, including having served as Chief Financial Officer of London Fog Industries, Inc., a wholesale and retail distributor of rainwear and outerwear. Mr. Krell began his career as an investment banker with Kidder, Peabody & Co. Incorporated and earned a Masters of Business Administration degree from Stanford University and a Bachelor of Arts degree from Harvard University. In 2010, Mr. Krell was named Citizen of the Year by the March of Dimes, Southeast Pennsylvania Division. In 2012, Mr. Krell was honored by Dignity U Wear as one of Dignity’s Champions for his leadership role in facilitating our partnership with this charitable organization benefitting disadvantaged women.

Christopher F. Daniel has served as our President since June 2011. Prior to joining us, Mr. Daniel served as President of Torrid, a division of Hot Topic, from November 2006. Mr. Daniel has also served in executive and management positions in merchandising and product development at Mervyn’s and Dayton-Hudson (divisions of Target Corporation), Structure (a division of Limited Brands), and Charming Shoppes. Mr. Daniel holds a Bachelor of Arts degree in English Literature from the University of Richmond.

Judd P. Tirnauer has served as our Executive Vice President & Chief Financial Officer since November 2011. From July 2008 to November 2011, Mr. Tirnauer served as our Senior Vice President & Chief Financial

Officer, having previously served as our Vice President—Finance from June 2005 to July 2008, Vice President—Financial Planning & Analysis from October 2003 to June 2005, and Director of Financial Planning & Analysis from the time he joined us in November 2001 until October 2003. Mr. Tirnauer has earned both a Masters of Business Administration degree and a Juris Doctorate legal degree, and has earned a Certified Public Accountant designation.

Ronald J. Masciantonio has served as our Executive Vice President & General Counsel since November 2011 and was named to the additional position of Chief Administrative Officer in November 2012. From April 2010 to November 2011, Mr. Masciantonio served as our Senior Vice President & General Counsel, having previously served as our Vice President & General Counsel since August 2006. In August 2006, Mr. Masciantonio rejoined us, after having previously served as our Assistant General Counsel from February 2004 to May 2005. From May 2005 to August 2006, Mr. Masciantonio was Assistant General Counsel, North America for Taylor Nelson Sofres, N.A., a market research company with global headquarters in London, England. Prior to joining us originally in February 2004, Mr. Masciantonio was an Associate at the law firm of Pepper Hamilton LLP in Philadelphia, Pennsylvania from September 2001 to February 2004. Mr. Masciantonio received his Juris Doctorate legal degree from Temple University School of Law in Philadelphia, Pennsylvania.

Our executive officers are appointed annually by our Board of Directors and serve at the discretion of the Board. There are no family relationships among any of our executive officers.

Intellectual Property

We own trademark and service mark rights that we believe are sufficient to conduct our business as currently operated. We own several trademarks, including Destination Maternity Corporation®, A Pea in the Pod®, A Pea in the Pod Collection®, Motherhood®, Motherhood Maternity®, Destination Maternity®, edamame® Maternity Spa®, Two Hearts® Maternity, Oh Baby by Motherhood® and Motherhood Maternity Outlet®. Additionally, we own the marks Secret Fit Belly®, Mimi Maternity® and Maternity Redefined®.

In addition, from time to time, we may pursue patent protection for certain maternity apparel related technologies that we develop. For example, in October 2010 and March 2011 we were granted patents for our Secret Fit Belly. The Secret Fit Belly is made of seamless super stretch fabric that can form part of nearly any type of bottom (such as jeans, pants, shorts and skirts) to provide a better, more comfortable fit and a seamless look. In October 2012 we filed a lawsuit against Target Corporation and others for infringement of our proprietary patented Secret Fit Belly® technology.

Seasonality

Our business, like that of many other retailers, is seasonal. Our quarterly net sales have historically been highest in our third fiscal quarter, corresponding to the peak Spring selling season. Given the historically higher sales level in our third fiscal quarter and the relatively fixed nature of most of our operating expenses and interest expense, we have typically generated a very significant percentage of our full year operating income and net income during our third fiscal quarter. Results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year. Quarterly results may fluctuate materially depending upon, among other things, increases or decreases in comparable sales, the timing of new store openings and new leased department openings, net sales and profitability contributed by new stores and leased departments, the timing of the fulfillment of purchase orders under our product and license arrangements, adverse weather conditions, shifts in the timing of certain holidays and promotions, changes in inventory and production levels and the timing of deliveries of inventory, and changes in our merchandise mix.

Securities and Exchange Commission Filings

Our Securities and Exchange Commission (“SEC”) filings are available free of charge on our website, investor.destinationmaternity.com. Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports are posted on our website as soon as practicable after we furnish such materials to the SEC.

Item 1A. Risk Factors

You should consider carefully all of the information set forth or incorporated by reference in this document and, in particular, the following risk factors associated with our business and forward-looking information in this document (see also "Forward-Looking Statements" included in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations). The risks described below are not the only ones we face. Additional risks not presently known to us or that we do not currently consider significant may also have an adverse effect on us. If any of the risks below actually occur, our business, results of operations, cash flows or financial condition could suffer.

Our performance may be affected by general economic conditions and the continued global financial difficulties.

Our performance is subject to worldwide economic conditions and their impact on levels of consumer spending. Over the past four years economic conditions have deteriorated significantly followed by a weak recovery and such economic conditions may remain depressed, or be subject to further deterioration. Some of the factors that are having an impact on discretionary consumer spending include general economic conditions, employment, consumer debt, reductions in net worth based on securities market declines, residential real estate and mortgage markets, taxation, healthcare costs, fuel and energy prices, interest rates, credit availability, consumer confidence and other macroeconomic factors.

The worldwide apparel industry is heavily influenced by general economic cycles. Apparel retailing is a cyclical industry that is heavily dependent upon the overall level of consumer spending. Purchases of specialty apparel and related goods tend to be highly correlated with the cycles of the levels of disposable income of consumers. As a result, any substantial deterioration in general economic conditions could materially and adversely affect our net sales and results of operations. Downturns, or the expectation of a downturn, in general economic conditions could materially and adversely affect consumer spending patterns, our sales and our results of operations.

Consumer purchases of discretionary items generally decline during recessionary periods and other periods where disposable income is adversely affected. The downturn in the economy may continue to affect consumer purchases of our merchandise and have an adverse impact on our sales, results of operations and cash flow. Because apparel generally is a discretionary purchase, declines in consumer spending may have a more negative effect on apparel retailers than on other retailers. We may not be profitable if there is a decline in consumer spending.

The turmoil in the financial markets in 2008-2009 resulted in extreme volatility in security prices and diminished liquidity and credit availability, and there can be no assurance that our liquidity will not be affected by changes in the financial markets and the global economy. Tightening of the credit markets and future turmoil in the financial markets could also make it more difficult for us to access funds, to refinance our existing indebtedness (if necessary), to enter into agreements for new indebtedness, or to obtain funding through the issuance of our securities.

In addition, the effect from the 2008-2009 credit crisis had a significant negative impact on businesses around the world, and the potential impact of this crisis, or potential future crises, on our suppliers cannot be predicted. The inability of suppliers to access liquidity, or the insolvency of suppliers, could lead to their failure to deliver our merchandise. Worsening economic conditions could also result in difficulties for financial institutions (including bank failures) and other parties that we may do business with, which could potentially impair our ability to access financing under existing arrangements or to otherwise recover amounts as they become due under our other contractual arrangements. Additionally, either as a result of, or independent of, the current financial difficulties and economic weakness in the United States, material fluctuations in currency exchange rates could have a negative impact on our business.

Our comparable sales and quarterly operating results have fluctuated in the past and can be expected to continue to fluctuate in the future and, as a result, the market price of our common stock may fluctuate or decline substantially.

Our comparable sales and quarterly results of operations have fluctuated in the past and can be expected to continue to fluctuate in the future and are affected by a variety of factors, including:

- the opening of new stores, the closing of existing stores, and the success of our leased department and licensed relationships;
- the timing of new store openings and leased department and licensed brand business openings;
- the timing of the fulfillment of purchase orders under our product and license arrangements;
- the extent of cannibalization of sales volume of some of our existing retail locations by our new retail locations opened in the same geographic markets or by our Internet sales;
- changes in our merchandise mix;
- any repositioning of our brands;
- general economic conditions and, in particular, the retail sales environment;
- calendar shifts, including shifts of holiday or seasonal periods, or shifts in the number of weekend days occurring in a given calendar period;
- changes in pregnancy rates and birth rates;
- actions of competitors;
- the level of success and/or actions of anchor tenants where we have stores or leased department and licensed relationships;
- fashion trends; and
- weather conditions and seasonality.

If, at any time, our comparable sales or quarterly results of operations decline or do not meet the expectations of investors, the price of our common stock could decline substantially.

Our share price may be volatile and could decline substantially.

The market price of our common stock has been, and is expected to continue to be, volatile, both because of actual and perceived changes in our financial results and prospects, and because of general volatility in the stock market. The factors that could cause fluctuations in our share price may include, among other factors discussed in this section, the following:

- actual or anticipated variations in the financial results and prospects of our business or other companies in the retail business;
- changes in financial estimates by Wall Street research analysts;
- actual or anticipated changes in the United States economy or the retailing environment;
- changes in the market valuations of other specialty apparel or retail companies;
- announcements by our competitors or us;
- additions and departures of key personnel;
- changes in accounting principles;
- the passage of legislation or other developments affecting us or our industry;
- the trading volume of our common stock in the public market;

-
- changes in economic conditions;
 - financial market conditions;
 - natural disasters, terrorist acts, acts of war or periods of civil unrest; and
 - the realization of some or all of the risks described in this section entitled “Risk Factors.”

In addition, the stock markets have experienced significant price and trading volume fluctuations from time to time, and the market prices of the equity securities of retailers have been extremely volatile and are sometimes subject to sharp price and trading volume changes. These broad market fluctuations may materially and adversely affect the market price of our common stock.

We may not be successful in maintaining and expanding our business and opening new retail locations.

Any future growth depends significantly on:

- our ability to successfully establish and operate new stores (including Destination Maternity combo stores and superstores) on a profitable basis;
- our ability to successfully establish new, and to maintain our current, leased department and licensed relationships, and to operate such leased department and licensed relationships on a profitable basis; and
- the success and profitability of our international business, including our ability to successfully establish new, and to maintain our current, international franchising relationships.

This growth, if it occurs, will place increased demands on our management, operational and administrative resources. These increased demands and operating complexities could cause us to operate our business less effectively, which, in turn, could cause a deterioration in our financial performance and negatively impact our growth. Any planned growth will also require that we continually monitor and upgrade our management information and other systems, as well as our distribution infrastructure.

Our ability to establish and operate new stores and our leased department and licensed relationships successfully depends on many factors, including, among others, our ability to:

- identify and obtain suitable store locations, including mall locations, the availability of which is outside of our control;
- retain existing, expand existing and establish new leased department and licensed relationships;
- negotiate favorable lease terms for stores, including desired tenant improvement allowances;
- negotiate favorable lease terminations for existing store locations in markets where we intend to open new Destination Maternity combo stores or superstores;
- source sufficient levels of inventory to meet the needs of new stores and our leased department and licensed relationships;
- successfully address competition, merchandising and distribution challenges; and
- hire, train and retain a sufficient number of qualified store personnel.

The success and profitability of our international business depends on many factors, including, among others:

- our ability to retain our current international franchisees and our ability to identify and reach agreement with new international franchisees;
- the ability of our franchisees to identify and obtain suitable store locations, including mall locations, the availability of which is outside of their control;
- the ability of our franchisees to negotiate favorable lease terms for stores, including desired tenant improvement allowances;
- our ability to source sufficient levels of inventory to meet the needs of our franchisees’ international operations;

-
- our ability and the ability of our franchisees to successfully address competition, merchandising and distribution challenges; and
 - the ability of our franchisees to hire, train and retain a sufficient number of qualified store personnel.

There can be no assurance that we will be able to grow our business and achieve our goals. Even if we succeed in establishing new stores, further developing our leased department and licensed relationships and further expanding our international relationships, we cannot assure that these initiatives will achieve planned revenue or profitability levels in the time periods estimated by us, or at all. If any of these initiatives fails to achieve or is unable to sustain acceptable revenue and profitability levels, we may incur significant costs. For example, in connection with our new broad-based partnership with Bed Bath & Beyond Inc. and its subsidiary, Buy Buy Baby, Inc., (which we announced in May 2012) we discontinued operation of our 124 remaining leased departments in Babies“R”Us in October 2012 and opened leased departments in select buybuy BABY stores. Although we are confident that the new relationship with Bed Bath & Beyond Inc. and Buy Buy Baby, Inc. will be a profitable one for our Company and our stockholders, there is no guarantee of success.

Our business, financial condition and results of operations may be materially and adversely impacted at any time by a significant number of competitors.

We operate in a highly competitive environment characterized by few barriers to entry. We compete against department stores, specialty retail chains, discount stores, independent retail stores and catalog and Internet-based retailers. Many of our competitors are larger and have substantially greater financial and other resources than us. Further, we do not typically advertise using television and radio media and thus do not reach customers through means our competitors may use. Our mid- and luxury-priced merchandise faces a highly fragmented competitive landscape that includes locally based, single unit retailers, as well as a handful of multi-unit maternity operations, none of which we believe have more than 10 stores nationwide. In the value-priced maternity apparel business, we face competition on a nationwide basis from retailers such as Gap, H&M, Old Navy, Target and Wal-Mart. In addition, with our exit from Babies“R”Us in late October 2012 (in connection with our new broad-based partnership with Bed Bath & Beyond Inc. and its subsidiary, Buy Buy Baby, Inc.), in November 2012, Toys“R”Us, Inc. announced that it had entered into a partnership with Thyme Maternity, a Canada based company, for a collection of maternity apparel and accessories to be featured in approximately 150 Babies“R”Us stores in the United States. Substantially all of these competitors also sell maternity apparel on their websites. Our business, financial condition and results of operations may be materially and adversely affected by this competition, including the potential for increased competition in the future. For example, the maternity apparel business has previously experienced oversupply conditions due to increased competition in the maternity apparel business, which resulted in a greater level of industry-wide markdowns and markdowns recognized by us on sales from our retail locations. There can be no assurance that these conditions will not occur again or worsen.

Our relationships with third-party retailers may not be successful.

We cannot guarantee successful results from or the continuation of our leased department and licensed relationships with third-party retailers such as Macy’s, Sears, buybuy BABY, Gordmans, Boscov’s and Kohl’s. Under our agreement with Kohl’s, subject to certain notice obligations, Kohl’s is not obligated to purchase any maternity apparel from us and we are not obligated to sell any maternity apparel to them. We do not control the pricing terms or the timing or degree of the markdowns at Kohl’s. Under our agreements with our leased department partners, those partners do not make any promises or representations as to the potential amount of business we can expect from the sale of our product in their stores. For example, as we previously announced, we discontinued offering maternity apparel in our 124 remaining Babies“R”Us locations in October 2012 in connection with our new broad-based partnership with Bed Bath & Beyond Inc. and its subsidiary, Buy Buy Baby, Inc. The success of our leased department and licensed brand businesses is highly dependent on the actions and decisions of the third-party retailers, which are outside of our control. The retailers could limit the merchandise carried, close stores, go out of business or terminate their agreements with us. Our failure to properly manage our leased department and licensed brand businesses (including any failure by us in timely delivering goods to any third-party retailer or any failure to respond to the actions of, or changes in, business

conditions at third-party retailers) would have a direct impact on the profitability and continuation of these relationships.

Our business depends on sustained demand for maternity clothing and is sensitive to birth rates, women's fashion trends, economic conditions and consumer spending.

Our business depends upon sustained demand for maternity clothing. Our future performance will be subject to a number of factors beyond our control, including demographic changes, fashion trends, economic conditions and consumer spending. If demand for maternity clothing were to decline for any reason, such as a decrease in the number of pregnancies, our operating results could be materially and adversely affected. For example, according to the United States Census Bureau and United States Centers for Disease Control and Prevention, births declined 1.1% in calendar 2011 compared to calendar 2010, declined 3.2% in calendar 2010 compared to calendar 2009, and declined a total of 8.8% from calendar 2007 to mid-calendar 2012. If this trend were to continue it could negatively affect our business and results of operations. Additionally, our operating results could be materially and adversely affected if certain non-maternity women's apparel fashions have a more pregnancy-friendly fit. For example, in fiscal 2007, we were negatively impacted by the popularity of certain styles in the non-maternity women's apparel market, such as trapeze and baby-doll dresses and tops, which can more readily fit a pregnant woman early in her pregnancy than typical non-maternity fashions. Downturns, or the expectation of a downturn, in general economic conditions could materially and adversely affect consumer spending patterns, our business, financial condition and results of operations. In addition, the specialty apparel retail business historically has been subject to cyclical variations. Consumer purchases of specialty apparel products, including maternity wear, may decline during recessionary periods and at other times when disposable income is lower. Declines in consumer spending patterns may have a more negative effect on apparel retailers than some other retailers. Therefore, we may not be able to maintain our historical sales and earnings, or remain as profitable, if there is a decline in consumer spending patterns. A prolonged economic downturn could have a material adverse impact on our business and results of operations.

We may not be successful in maintaining and expanding our marketing partnership programs.

We cannot guarantee successful results from the continuation of, or the expansion of, our marketing partnership programs which utilize our opt-in customer database and various in-store marketing initiatives. The success of our marketing partnership programs is highly dependent on the actions and decisions of the third-party consumer products companies to whom we provide these services. Should these third-party consumer products companies decide to limit the services provided by us, go out of business or terminate their agreements with us, our business, financial condition and results of operations could be materially and adversely affected. Further, there is no guarantee that we will be able to expand this part of our business through agreements with new third parties. In addition, our ability to provide the services is dependent on our successful collection of opt-in customer data as well as applicable law relating to the collection and transfer of the personally identifiable information of our customers. A failure on our part to collect adequate amounts of customer data or any change in state, local or federal law which further restricts our ability to collect this information could cause us to terminate or limit the services we can provide to the third-party consumer products companies and would ultimately adversely affect our revenue from these relationships. Further, although we believe there may be an opportunity to more actively market our full customer database to a much broader range of consumer products and services companies that market to families with children, we cannot guarantee that these efforts will be successful.

We require a significant amount of cash to pay quarterly dividends as well as to fund our operations and future growth.

Our ability to pay quarterly dividends, as well as to fund our operations and future growth, depends upon our ability to generate cash. Our success in generating cash depends upon the results of our operations and the amount of cash we use in investing activities, as well as upon general economic, financial, competitive and other factors beyond our control.

An inability to generate sufficient cash could have important consequences. For example, it could:

- increase our vulnerability to general adverse economic and industry conditions;
- limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;
- place us at a competitive disadvantage compared to our competitors;
- limit our ability to borrow money;
- make it more difficult for us to open new stores or improve or expand existing stores;
- restrict our ability to pay dividends or make distributions to our stockholders;
- require us to incur significant additional indebtedness; and
- make it more difficult for us to pursue strategic acquisitions, alliances and partnerships.

Our variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly.

Any borrowings under our new revolving credit facility, which could significantly increase in the future, would bear interest at a variable rate. We have exposure for the variable interest rate borrowings under our revolving credit facility. As a result, an increase in interest rates could result in a substantial increase in interest expense, especially if our borrowings under our revolving credit facility increase.

We are heavily dependent on our management information systems and our ability to maintain and upgrade these systems from time to time.

The efficient operation of our business is heavily dependent on our internally developed management information systems (“MIS”). In particular, we rely on point-of-sale terminals, which provide information to our customized merchandise analysis and planning system used to track sales and inventory, and we rely on our Internet websites through which we sell merchandise to our customers. The merchandise analysis and planning system helps integrate our design, manufacturing, distribution and financial functions, and also provides daily financial and merchandising information. Although our software programs and data are backed up and securely stored off-site, our servers and computer systems are located at our headquarters in Philadelphia, Pennsylvania. These systems and our operations are vulnerable to damage or interruption from:

- fire, flood and other natural disasters;
- power loss, computer systems failures, Internet and telecommunications or data network failure, operator negligence, improper operation by or supervision of employees, physical and electronic loss of data or security breaches, misappropriation and similar events; and
- computer viruses.

Any disruption in the operation of our MIS, the loss of employees knowledgeable about such systems or our failure to continue to effectively modify such systems could interrupt our operations or interfere with our ability to monitor inventory, which could result in reduced net sales and affect our operations and financial performance. In addition, any interruption in the operation of our Internet websites could cause us to lose sales due to the inability of customers to purchase merchandise from us through our websites during such interruption.

We also need to ensure that our systems are consistently adequate to handle our anticipated business growth and are upgraded as necessary to meet our needs. The cost of any such system upgrades or enhancements could be significant. As a result, our business, financial condition and results of operations could be materially and adversely affected if our servers and systems were inoperable or inaccessible.

From time to time, we improve and upgrade our MIS and the functionality of our Internet websites. If we are unable to maintain and upgrade our systems or Internet websites, or to integrate new and updated systems or changes to our Internet websites in an efficient and timely manner, our business, financial condition and results of operations could be materially and adversely affected.

A cybersecurity incident could have a negative impact.

A cyber attack may bypass the security for our MIS causing an MIS security breach and leading to a material disruption of our MIS and/or the loss of business information and/or Internet sales. Such a cyber attack could result in any of the following:

- theft, destruction, loss, misappropriation or release of confidential data or intellectual property;
- operational or business delays resulting from the disruption of MIS and subsequent clean-up and mitigation activities;
- negative publicity resulting in reputation or brand damage with our customers, partners or industry peers; and
- loss of sales generated through our Internet websites through which we sell merchandise to customers, to the extent these websites are affected by a cyber attack.

As a result, our business, financial condition and results of operations could be materially and adversely affected.

As an apparel retailer, we rely on numerous third parties in the supply chain to produce and deliver the products that we sell, and our business may be negatively impacted by disruptions in the supply chain.

If we lose the services of one or more of our significant suppliers or one or more of them fail to meet our product needs, we may be unable to obtain replacement merchandise in a timely manner. If our existing suppliers cannot meet our increased needs and we cannot locate alternative supply sources, we may be unable to obtain sufficient quantities of the most popular items at attractive prices, which could negatively impact our sales and results of operations. We obtain apparel and other merchandise from foreign sources, both purchased directly in foreign markets and indirectly through domestic vendors with foreign sources. To the extent that any of our vendors are located overseas or rely on overseas sources for a large portion of their products, any event causing a disruption of imports, including the imposition of import restrictions, could harm our ability to source product. This disruption could materially limit the merchandise that we would have available for sale and reduce our sales and earnings. The flow of merchandise from our vendors could also be materially and adversely affected by financial or political instability, or war, in or affecting any of the countries in which the goods we purchase are manufactured or through which they flow. Trade restrictions in the form of tariffs or quotas, embargoes and customs restrictions that are applicable to the products that we sell also could affect the import of those products and could increase the cost and reduce the supply of products available to us. Any material increase in tariff levels, or any material decrease in quota levels or available quota allocation, could negatively impact our business. Further, changes in tariffs or quotas for merchandise imported from individual foreign countries could lead us to shift our sources of supply among various countries. Any such shift we undertake in the future could result in a disruption of our sources of supply and/or an increase in product costs, and lead to a reduction in our sales and earnings. Supply chain security initiatives undertaken by the United States government that impede the normal flow of product could also negatively impact our business. In addition, decreases in the value of the United States dollar against foreign currencies could increase the cost of products that we purchase from overseas vendors.

We also face a variety of other risks generally associated with relying on vendors that do business in foreign markets and import merchandise from abroad, such as:

- political instability or the threat of terrorism, particularly in countries where our vendors source merchandise;
- enhanced security measures at United States and foreign ports, which could delay delivery of imports;
- imposition of new or supplemental duties, taxes and other charges on imports;
- delayed receipt or non-delivery of goods due to the failure of foreign-source suppliers to comply with applicable import regulations;
