Patent Owner

Case IPR 2013-00568
U.S. Patent No. 8,217,902

AFFIDAVIT OF DEREK TANG

TPK 2013

1. I, Derek J. Tang, am more than twenty-one years of age, am competent to present this affidavit, and have personal knowledge of the facts set forth herein.

2. This affidavit is given in support of Patent Owner TPK Touch Solutions, Inc.'s ("TPK") Motion for *Pro Hac Vice* Admission of Derek Tang.

3. I am an associate at the law firm Quinn Emanuel Urquhart & Sullivan, LLP. I am an experienced litigating attorney and have been litigating cases for seven years. I have been litigating patent cases for four years.

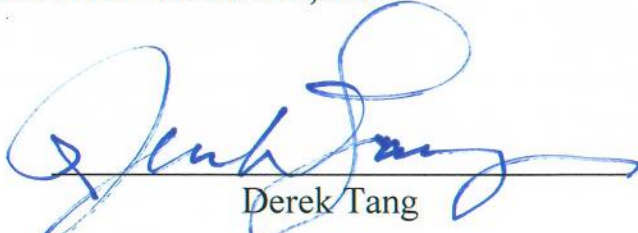

4. I am a member in good standing of the State Bars of California and New York. I have never been suspended or disbarred from practice before any court or administrative body. No court or administrative body has ever denied my application for admission to practice before it. No court or administrative body has ever imposed sanctions or contempt citations on me.

5. I have read and will comply with the Office Patent Trial Practice Guide and the Board's Rules of Practice for Trials set forth in part 42 of the Code of Federal Regulations.

6. I understand that I will be subject to the USPTO Code of Professional Responsibility set forth in 37 C.F.R. §§ 10.20 et seq. and disciplinary jurisdiction under 37 C.F.R. § 11.19(a).

7. I am concurrently seeking *pro hac vice* admission to appear in a co-pending, related matter brought by Petitioner against Patent Owner, Case No. IPR2013-00567/IPR2014-00541 (joint proceeding), in which Petitioner is also challenging claims of U.S. Patent No. 8,217,902. I have not applied to appear *pro hac vice* in any other proceedings before the Office in the last three (3) years.

8. I have an established familiarity with the subject matter at issue in this proceeding. I have litigated patent cases in the area of electrical engineering and electronic devices since 2010. I began representing and advising Patent Owner TPK in matters relating to patent strategy no later than 2013. In that time, I have become very familiar with U.S. Patent No. 8,217,902 (“the ‘902 Patent”) and with its prosecution file history. In particular, I have assisted TPK in preparing its responses to the above-referenced petitions, as well as in the co-pending *ex parte* reexamination of the ‘902 Patent, Reexam Control No. 90/012,869.
